

Section I. Neuroscience and Neuroanatomy

- 1 Cerebrovascular Anatomy and Pathophysiology
- 2 Meninges and Ventricles
- 3 Afferent System Overview
- 4 Peripheral and Central Pain Pathways and Pathophysiology
- 5 Special Somatic Sensory Afferent Systems Overview
- 6 Anatomy of Peripheral Nerves, Neuromuscular Junctions, and Skeletal Muscles
- 7 Anatomy of the Spinal Cord
- 8 Brainstem and Cranial Nerves: Overview and Medulla
- 9 Brainstem and Cranial Nerves: Pons
- 10 Brainstem and Cranial Nerves: Midbrain
- 11 Brainstem and Cranial Nerves: Longitudinal Pathways of the Brainstem
- 12 Supranuclear Ocular Motor Systems
- 13 Cranial Nerves I and II
- 14 Thalamus
- 15 Principles of Neuroendocrinology and Hypothalamic Function
- 16 Limbic System
- 17 Basal Ganglia
- 18 Cerebellum
- 19 Autonomic Nervous System
- 20 Cortex: Gross Anatomy
- 21 Cortex: Topography and Organization
- 22 Cortical Circuitry, Networks, and Function
- 23 Focal Cognitive Syndromes
- 24 Cellular Signaling
- 25 Cellular Processes
- 26 Cellular Injury and Death
- 27 Neuropharmacology
- 28 Sleep Pathophysiology
- 29 Patterns of Inheritance in Neurogenetic Disease
- 30 Chromosomal Syndromes
- 31 Electroencephalography: Basic Concepts
- 32 Electroencephalography: Evaluation of Neurologic Disorders
- 33 Nerve Conduction Studies and Needle Electromyography
- 34 Cerebrospinal Fluid
- 35 Evoked Potentials
- 36 Neuroimaging

Section II. Psychiatry

- 37 Principles of Psychiatry and Psychology
- 38 Psychological Development Through the Life Cycle
- 39 Mood Disorders
- 40 Anxiety Disorders
- 41 Psychotic Disorders
- 42 Personality and Illness
- 43 Miscellaneous Psychiatric Disorders
- 44 Psychiatric Disorders Associated With Infancy, Childhood, and Adolescence
- 45 Substance Use Disorders
- 46 Pharmacologic Treatment of Psychiatric Disorders
- 47 Nonpharmacologic Treatment of Psychiatric Disorders

Section III. Cerebrovascular Disorders

- 48 Ischemic Stroke: Common Causes and Diagnosis
- 49 Ischemic Stroke: Uncommon and Special Situations
- 50 Acute Ischemic Stroke Evaluation and Treatment
- 51 Secondary Prevention of Ischemic Stroke
- 52 Intraparenchymal Cerebral Hemorrhage

- 53 Unruptured Intracranial Aneurysms and Vascular Malformations
- 54 Neurorehabilitation
- Section IV. Neurologic Intensive Care Disorders
- 55 Impaired Consciousness and Coma
- 56 Principles and Management of Increased Intracranial Pressure
- 57 Status Epilepticus
- 58 Nontraumatic Subarachnoid Hemorrhage
- 59 Anoxic-Ischemic Encephalopathy
- 60 Traumatic Brain Injury
- 61 Acute Spinal Cord Compression, Spinal Cord Trauma, and Peripheral Neural Injury
- 62 Neuromuscular Disease in the Neuroscience Intensive Care Unit
- 63 Acute Hyperthermia Syndrom

Section V. Demyelinating Diseases

- 64 Pathologic Factors and Spectrum of Central Nervous System Inflammatory Demyelinating Diseases
- 65 Diagnosis of Multiple Sclerosis
- 66 Treatment of Multiple Sclerosis
- 67 Non-Multiple Sclerosis Central Nervous System Inflammatory Disease

Section VI. Movement Disorders

- 68 Classification and Approach to Movement Disorders
- 69 Hypokinetic Movement Disorders: Parkinson Disease
- 70 Atypical Parkinsonian Syndromes
- 71 Hyperkinetic Movement Disorders: Tremor and Myoclonus
- 72 Hyperkinetic Movement Disorders: Chorea, Tic, and Dystonia
- 73 Cerebellar Disorders and Ataxias: Acquired Disorders
- 74 Cerebellar Disorders and Ataxias: Inherited Disorders
- 75 Childhood Movement Disorders

Section VII. Behavioral Neurology

- 76 Syndromes of Cognitive Dysfunction
- 77 Mild Cognitive Impairment and Alzheimer Disease
- 78 Frontotemporal Dementias
- 79 Parkinsonism and Related Dementias
- 80 Nondegenerative Dementias and Encephalopathies

Section VIII. Seizure and Epilepsy

- 81 Classification of Epilepsy
- 82 Epidemiology and Pathophysiology of Epilepsy
- 83 Evaluation of Seizures and Seizurelike Events
- 84 Treatment of Epilepsy

Section IX. Neuromuscular and Spine Disorders

- 85 Myelopathies
- 86 Motor Neuron Diseases
- 87 Peripheral Nerve Disorders
- 88 Neuromuscular Junction Disorders
- 89 Acquired Muscle Disorders
- 90 Inherited Muscle Disorders
- 91 Autonomic Disorders

Section X. Clinical Disorders of the Cranial Nerves and Brainstem

- 92 Neuro-ophthalmology: Visual Fields
- 93 Neuro-ophthalmology: Disorders of Visual Perception, Pupils, and Eyelids

- 94 Neuro-ophthalmology: Extraocular Muscles and Cranial Nerves III, IV, and VI
- 95 Clinical Neurotology
- 96 Disorders of the Cranial Nerves and Brainstem

Section XI. Headache and Pain

- 97 Introduction and Approach to Headache
- 98 Primary Headache Disorders: Migraine, Tension-Type, and Chronic Daily Headaches
- 99 Primary Headache Disorders: Trigeminal Autonomic Cephalalgias, Headaches With Specific Triggers, and Other Primary Headache Disorders
- 100 Secondary Headache Disorders
- 101 Neuropathic Pain Syndromes

Section XII. Neuro-oncology

- 102 Introduction to Neoplastic Disease
- 103 Glial Tumors
- 104 Nonglial Central Nervous System Tumors
- 105 Spinal Cord Tumors
- 106 Peripheral Nerve Sheath Tumors
- 107 Metastatic Disease
- 108 Neurologic Complications of Radiation Therapy and Chemotherapy
- 109 Paraneoplastic and Other Autoimmune Neurologic Disorders

Section XIII. Neurologic Infectious Disease

- 110 Syndromic Approach to Neuroinfectious Diseases
- 111 DNA and RNA Viral Infections of the Nervous System
- 112 Retroviral Infections of the Nervous System
- 113 Bacterial Infections of the Nervous System
- 114 Fungal Infections of the Central Nervous System
- 115 Parasitic Infections of the Central Nervous System
- 116 Prion Disorders: Creutzfeldt-Jakob Disease and Related Disorders

Section XIV. Pediatric Neurology

- 117 Malformation of the Brain, Skull, and Spine
- 118 Neurodevelopmental Disabilities
- 119 Neurocutaneous Disorders
- 120 Neurometabolic Disorders Associated With Disturbances of Small Molecule Metabolism
- 121 Lysosomal Storage Disorders
- 122 Inherited Leukoencephalopathies
- 123 Mitochondrial Disease

Section XV. Neurologic Disorders Due to General Medical Illness

- 124 Electrolyte Disturbances and Acid-Base Imbalance
- 125 Neurologic Complications of Nutritional Disorders
- 126 Neurologic Manifestations of Endocrine Diseases
- 127 Neurologic Associations With Cardiac, Pulmonary, Renal, Hepatobiliary, and Hematologic Disease
- 128 Toxins and Environmental Neurologic Injury
- 129 Neurology and Pregnancy

Section XVI. Sleep Disorders

- 130 Polysomnography and Other Sleep Testing
- 131 Neuropharmacology of Sleep
- 132 Clinical Sleep-Related Breathing Disorders
- 133 Hypersomnias and Sleep-Related Movement Disorders
- 134 Circadian Disorders, Insomnia, and Parasomnias
