

Section 1: Basic instrumentation

- 1: Patient positioning, operating room setup and surgeon's posture
- 2: Instruments and machines
- 3: Entry and exit

Section 2: Laparoscopic Urologic Surgery

- 4: Transperitoneal Laparoscopic Radical Prostatectomy
- 5: Transperitoneal Laparoscopic Radical Nephrectomy
- 6: Transperitoneal Laparoscopic Radical Nephroureterectomy
- 7: Transperitoneal Laparoscopic Partial Nephrectomy
- 8: Retroperitoneal Laparoscopic Simple Nephrectomy
- 9: Laparoscopic Radical Cystectomy
- 10: Extracorporeal Urinary Diversion (Modified Studer Orthotopic Ileal Neobladder) and Intracorporeal Urethra-neobladder Anastomosis

Section 3: Robot-Assisted Urologic Surgery

- 11: Transperitoneal Robot-Assisted Laparoscopic Radical Prostatectomy
- 12: Transperitoneal Robot-Assisted Laparoscopic Partial Nephrectomy
- 13: Retroperitoneal Robot-Assisted Laparoscopic Partial Nephrectomy
