

Preface
Contributors

Chapter 1: Brain Imaging Techniques and their Application to Bipolar Disorder, *Caleb M. Adler*

Chapter 2: Structural Brain Abnormalities in Bipolar Disorder, *Marcella Bellani, Niccolò Zovetti, Marsal Sanches, Koji Matsuo, Jair C. Soares, and Paolo Brambilla*

Chapter 3: Functional Brain Imaging in Bipolar Disorder: Activation Studies, *Dylan E. Kirsch, Valeria Tretyak, Stephen M. Strakowski, and Elizabeth T.C. Lippard*

Chapter 4: Functional Brain Imaging in Bipolar Disorder: Connectivity And Networks, *Jennifer E. Siegel- Ramsay and Jorge R.C. Almeida*

Chapter 5: Neurochemical and Metabolic Imaging in Bipolar Disorder, *Muharrem Burak Baytunca, In Kyoon Lyoo, and Perry F. Renshaw*

Chapter 6: Cerebral Blood Flow in Bipolar Disorder: Past Findings and Future Directions, *Megan Mio, Mikaela K. Dimick, Simina Toma, Bradley J. MacIntosh, and Benjamin I. Goldstein*

Chapter 7: Neuroimaging Studies of Bipolar Disorder in Youth, *Manpreet K. Singh and Melissa P. DelBello*

Chapter 8: Neuroimaging Differences Between Bipolar and Unipolar Depression, *Michele A. Bertocci, Jennifer E. Siegel- Ramsay, Jorge R.C. Almeida, Stephen M. Strakowski, and Mary L. Phillips*

Chapter 9: Neuroimaging in Bipolar Disorder and Schizophrenia, *Grace Du and Dost Öngür*

Chapter 10: Genetic Techniques and Applications to Bipolar Disorder, *Yuhua Zhang, Melvin G. McInnis, and Sebastian Zöllner*

Chapter 11: General Genetics of Bipolar Disorder, *John I. Nurnberger Jr.*

Chapter 12: MiRNAs as Predictors of Bipolar Disorder Diagnosis and Treatment Response, *Yogesh Dwivedi*

Chapter 13: Genetics of Bipolar Disorder and Schizophrenia, *Tim B. Bigdeli and Philip D. Harvey*

Chapter 14: Mitochondrial Genetics and Bipolar Disorder, *Christine Konradi and Tadafumi Kato*

Chapter 15: Integration and Consolidation: A Neurophysiological Model of Bipolar Disorder, *Stephen M. Strakowski and Gin S. Malhi*
