

PART 1 Scientific Basis of Perinatal Biology

- 1 Human Genetics and Patterns of Inheritance
- 2 Molecular Genetic Technology
- 3 Normal Early Development
- 4 Amniotic Fluid Dynamics
- 5 Multiple Gestation: The Biology of Twinning
- 6 Physiology of Parturition
- 7 Pathogenesis of Spontaneous Preterm Birth
- 8 Immunology of Pregnancy
- 9 Maternal Cardiovascular, Respiratory, and Renal Adaptation to Pregnancy
- 10 Endocrinology of Pregnancy
- 11 The Breast and the Physiology of Lactation
- 12 Maternal Nutrition
- 13 Fetal Cardiovascular Physiology
- 14 Placental Respiratory Gas Exchange and Fetal Oxygenation
- 15 Evidence-Based Practice in Perinatal Medicine

PART 2 Obstetric Imaging

- 16 Performing and Documenting the Fetal Anatomy Ultrasound Examination
- 17 Doppler Ultrasound: Select Fetal and Maternal Applications
- 18 Clinical Applications of Three-Dimensional Sonography in Obstetrics
- 19 Role of Magnetic Resonance Imaging in Obstetric Imaging
- 20 Fetal Central Nervous System Imaging
- 21 Imaging of the Fetal Face and Neck
- 22 Fetal Thoracic Imaging
- 23 Fetal Cardiac Malformations and Arrhythmias: Detection, Diagnosis, Management, and Prognosis
- 24 Fetal Abdominal Imaging
- 25 Fetal Urogenital Imaging
- 26 Skeletal Imaging
- 27 Placenta and Umbilical Cord Imaging
- 28 Uterus and Adnexae Imaging
- 29 First-Trimester Imaging

PART 3 Fetal Disorders: Diagnosis and Therapy

- 30 Prenatal Diagnosis of Congenital Disorders
- 31 Teratogenesis and Environmental Exposure
- 32 Assessment of Fetal Health
- 33 Intrapartum Fetal Surveillance
- 34 Invasive Fetal Therapy
- 35 Hemolytic Disease of the Fetus and Newborn
- 36 Nonimmune Hydrops
- 37 Multiple Gestation: Clinical Characteristics and Management

PART 4 Disorders at the Maternal-Fetal Interface

- 38 Prevention and Management of Preterm Parturition
- 39 Premature (Prelabor) Rupture of the Membranes
- 40 Clinical Aspects of Normal and Abnormal Labor
- 41 Recurrent Pregnancy Loss
- 42 Stillbirth
- 43 Placenta Previa and Accreta, Vasa Previa, Subchorionic Hemorrhage, and Abruptio Placentae
- 44 Fetal Growth Restriction
- 45 Pregnancy-Related Hypertension

PART 5 Maternal Complications

- 46 Patient Safety and Quality Improvement in Obstetrics
- 47 Maternal Mortality
- 48 Bacterial and Parasitic Infections in Pregnancy
- 49 Maternal and Fetal Viral Infections
- 50 Sexually Transmitted Diseases
- 51 Maternal-Fetal Infections
- 52 Cardiac Diseases
- 53 Coagulation Disorders in Pregnancy
- 54 Thromboembolic Disease in Pregnancy
- 55 Anemia and Pregnancy
- 56 Malignancy and Pregnancy
- 57 Renal Disorders
- 58 Respiratory Diseases in Pregnancy
- 59 Diabetes in Pregnancy
- 60 Pregnancy in Women With Obesity
- 61 Thyroid Disease and Pregnancy
- 62 Other Endocrine Disorders of Pregnancy
- 63 Gastrointestinal Disease in Pregnancy
- 64 Diseases of the Liver, Biliary System, and Pancreas
- 65 Pregnancy and Rheumatic Diseases
- 66 Neurologic Disorders
- 67 Management of Depression and Psychoses in Pregnancy and in the Puerperium
- 68 Substance Use and Addiction in Pregnancy and the Postpartum Period
- 69 The Skin and Pregnancy
- 70 Anesthesia Considerations for Complicated Pregnancies
- 71 Intensive Care Considerations in Obstetrics
- 72 Pregnancy as a Window to Future Health

PART 6 The Neonate

73 Neonatal Morbidities of Prenatal and Perinatal Origin
