

VOLUME I

PART I. Extracorporeal Life Support

Editorial

Kaan Kirali

Introduction: Surgical Perspective

Marko Turina

Introduction: Perfusional Perspective

Gerard J. Myers

PART II. Artificial Circulation and Respiration

1. Development of Extracorporeal Circulation

Steven Tsui and Ismail Vokshi

2. Future Artificial Surface Physiology

Manoj Myneni and Keshava Rajagopal

3. Future Artificial Heart

O.H. Frazier

4. Future Artificial Lung

Justyna Swol

5. Future Noninvasive Monitoring

Silvia Mariani, Maria De Piero and Axel Haveric

6. 3D Printing for Artificial Physiology

Zhonghua Sun

7. Advances for Artificial Circulation Guidelines

Kaan Kirali

PART III. Cardiopulmonary Bypass (CPB)

8. Basics of Extracorporeal Circulation

Vipin Zamvar and Peter Lang

9. Pathophysiology of Cardiopulmonary Bypass

Kaan Kirali, Davut Çekmecelioglu, Tanil Özer, Tolga Bas and Hülya Yük

10. Microcirculation During Cardiopulmonary Bypass

Thanos Athanasiou, Maria Fergadi and Dimitrios Magouliotis

11. Standards for Cardiopulmonary Bypass

David Fitzgerald and Justin Resley

12. Mechanical Pumps for Cardiopulmonary Bypass

Georg Maximilian Wieselthaler

13. Oxygenators for Cardiopulmonary Bypass

Korneel Vandewiele and Stefaan Bouchez

14. Cannulations for Cardiopulmonary Bypass

Gino Gerosa, Assunta Fabozzo and Chiara Tessari

15. Anesthesia During Cardiopulmonary Bypass

Antonio Pisano, Carolina Soledad Romero García, Nicola Galdieri and Giovanni Landoni

16. Monitoring During Cardiopulmonary Bypass

Kaan Kirali, Mustafa EMRE Gürcü, Pinar Karaca Baysal and Özlem Oguzhan

17. Transesophageal Echocardiography During Cardiopulmonary Bypass

Federico Pappalardo, Giulia Maj and Stephanie Bertolin

18. Hemostasis During Cardiopulmonary Bypass

Giuseppe G. Faggian, Francesco Onorati, Ilaria Tropea, Annalisa Bernabei and Alessandra Francica

19. Myocardial Preservation During Cardiopulmonary Bypass

Kaan Kirali, Hakan Hançer, Taylan Adademir, Tolga Bas and Mine Simsek

20. Cerebral Preservation During DHCA in Cardiopulmonary Bypass

Shahzad G. Raja

PART IV. Special Cardiopulmonary Bypass

21. Cardiopulmonary Bypass in Pregnancy

Hartzell Schaff and Sri Harsha Patlolla

22. Cardiopulmonary Bypass in Neonates and Infants

Akif Undar, Ryan M. Holcomb, Krishna Patel and Yongwook Dan

23. Cardiopulmonary Bypass in Pediatrics

Afksendiyos Kalangos and Nataliia Shatelen

24. Cardiopulmonary Bypass in Thoracic Aortic Surgery

Davut Çekmecelioglu, Kathleen Kibler, Vicente Orozco-Sevilla, and Joseph S. Coselli

25. Cardiopulmonary Bypass in Lung Transplantation

Alexander Sasha Krupnick, Aakash Shah and Joshua L. Leibowitz

26. Cardiopulmonary Bypass in Non-Cardiac Thoracic Surgery

Basar Sareyyüpoğlu, Magdy M. El-Sayed Ahmed and Mathew Thomas

PART V. Special Situations for Perfusion

27. Perfusion Ethics, Accreditation and Education

David Fitzgerald and David Fisher Jr

28. Perfusion Training

Sven Maier and Christoph Benk

29. Perfusion Management

Filip De Somer

30. Perfusion Accidents Management

Carrel Thierry, Erich Gyga and Sarah Longnus-Henning

31. Perfusion Separation Challenge

Vladimir Lomivorotov and Ludmila Lomivorotova

32. Perfusion for HIPEC

Mustafa Duman, Erdal Polat, Mehmet Can, Kaan Kirali and Ercan Ersoy

Part VI. Miniaturizing Cardiopulmonary Bypass

33. Miniaturizing Cardiopulmonary Bypass (MiCPB)

Kyriakos Anastasiadis, Polychronis Antonitsis, Kyriakos Anastasiadis, Helena Argiriadou and Apostolos Deliopoulos

34. MiCPB in Cardiac Surgery

Konstantinos S. Mylonas and Dimitrios V. Avgerinos

35. MiCPB in Heart Valve Surgery

Kaan Kirali

36. MiCPB in Robotic Cardiac Surgery

Michael J. Bates, W. Douglas Boyd, L. Wiley Nifong and Randolph Chitwood

37. MiCPB in Pediatrics

Giovanni Battista Luciani, Alessio Rungtischer, Daniele Linardi and Stiljan Hoxha

Part VII. Organ Injury and Protection in Cardiopulmonary Bypass

38. Metabolic Aspects in Cardiopulmonary Bypass

John R. Cooper Jr, Katherine Gordon and Claudia Yu Yao Wei

39. Inflammatory Injury in Cardiopulmonary Bypass

Shahzad G. Raja

40. Inflammatory Protection and Immune Support for Cardiopulmonary Bypass

Shahzad G. Raja

41. Lung Injury in Cardiopulmonary Bypass

Stephen C. Clark and Vikrant Pathania

42. Pulmonary Protection and Respiratory Support for Cardiopulmonary Bypass

Kaan Kirali, Halide Ogus, Mustafa Mert Özgür and Ugur Eke

43. Brain Injury in Cardiopulmonary Bypass

Michael P. Vallely, Fabio Ramponi, Kaye Hon, Michael Seco, John D. Puskas, Jonathon Fanning, Stuart Grieve, Paul Bannon and Leonard Kritharides

44. Cerebral Protection and Neurologic Support

John M. Murkin and Agya Boakye Atonsah Prempeh

45. Kidney Injury in Cardiopulmonary Bypass

Eduard Quintana, Cristina Ibáñez, Juan Perdomo, Alícia Molina-Andujar and Esteban Poch

46. Renal Protection and Nephritic Support for Cardiopulmonary Bypass

Kaan Kirali, Özge Altas, Mustafa Emre Gürcü and Sefika Kiliç

47. Splanchnic Protection and Support for Cardiopulmonary Bypass

Paulo Roberto Barbosa Evora, Gabriel Bianco Giuliani, Cecilio Jacob and Patricia Martinez

48. Intestinal Protection and Enteric Support for Cardiopulmonary Bypass

Amer Harky, Kelly Wright and Naomi Melamed

49. Endocrinological Protection and Hormonal Support for Cardiopulmonary Bypass

Paulo Roberto Barbosa Evora, Gabriel Bianco Giuliani, Cecilio Jacob and Patricia Martinez

50. Vessels Injury in Cardiopulmonary Bypass

Assunta Fabozzo, Chiara Tessari, Giorgia Cibirin and Gino Gerosa

51. Infectious Protection and Antimicrobial Support for Cardiopulmonary Bypass

Kaan Kirali, Yesim Uygun Kizmaz, Pinar Atagün Güney and Nuray Çankaya

VOLUME II

Part VIII. Extra Corporeal Membranous Oxygenation (ECMO)

52. Extracorporeal Membrane Oxygenation (ECMO)

Kaan Kirali, Atakan Erkilinç, Serpil Gezer Tas and Ismail Yerli

53. Contraindications for ECMO

John Kyle Bohman, Misty Radosevich and Shihab Sugeir

54. Hemodynamic Evaluation of Cannulas for ECMO

Akif Undar, Krishna Patel, David Palanzo, Christoph Brehm and John L. Myers

55. ECG-Synchronized Pulsatility for ECMO

Akif Undar, Estelle Green, Orhun Davarci, Krishna Patel and Joseph B. Clark

56. Cardiac Protection and Management during ECMO

Kaan Kirali, Deniz Günay, Mehmet Aksüt, Sabit Sarikaya and Hacı Aslan

57. Pulmonary Protection and Management during ECMO

Steven Keller

58. Hemorrhagic Protection and Management during ECMO

Hanne Berg Ravn and Henrik Schmidt

59. Cerebral Protection and Management during ECMO

Mirko Belliato, Andrea Pellegrini and Roberto Veronesi Sr.

60. Renal Protection and Management during ECMO

Kaan Kirali, Murat Gücün, Aytaç Polat and Nazlı Kiliç

61. Gastrointestinal Protection and Management during ECMO

Paulo Roberto Barbosa Evora, Cecilio Jacob, Gabriel Bianco Giuliani and Patricia Martinez

62. Vascular Protection and Management during ECMO

Subhasis Chatterjee, Chibueze Onyemkpa, Zachary Pallister, Orlando Suero and Jayar Chung

63. Infection Protection and Management during ECMO

Nicolo Patroniti and Angelo Insorsi

64. Inflammatory Protection and Management during ECMO

Kiran Shekar, Elliott Theodrose Worku and Katrina K. Ki

Part IX. Special Situations for ECMO

65. Ethics and Quality Assurance for ECMO

Kollengode Ramanathan, Kiran Shekar and Ujwal Dhundi

66. Education and Training for ECMO

Melissa Brunsvold, Robert E Bulander Jr and Ahmad Abutaka

67. Nursing Care for ECMO

Jo-anne Fowles and Andrew Hadley-Brown

68. Transport and Retrieval for ECMO

Ahmed Labib and Guillaume Alinier

69. Weaning Strategies for ECMO and Awake ECMO

Wiebke Sommer and Gregor Warnecke

Part X. ECMO Support in Non-Cardiac Etiology

70. ECMO in Neonates and Infants

Denise Suttner

71. CRRT during ECMO in Neonates and Infants

Akif Undar, Lilly Su, Ryan M. Holcomb and John L. Myers

72. ECMO in Nonsurgical Lung Conditions

John Kyle Bohman, Juan Camilo Diaz Soto and Misty Radosevich

73. ECMO in Lung Surgery

Shahrokh Taghavi, Alberto Benazzo, Konrad Hötzenecker and Anders Andreasson

74. ECMO in Intracranial Surgery

Gevalin Srisooksai and Christoph N. Seubert

75. ECC/ECMO in Controlled Reperfusion of Whole Body (CARL)

Georg Trummer, Christoph Benk, Jan-Steffen Pooth, Sam Brixius and Friedhelm Beyersdorf

76. ECMO in Accidental Hypothermia

Kiran Shekar, Saikat Mitra, Kollengode Ramanathan and Justyna Swol

77. ECMO in Trauma

Akbarshakh Akhmerov and Danny Ramzy

78. ECMO in Pandemics

Cara Agerstrand, Briana Short, Philippe H. Lemaitre and Meaghan Flatley

79. ECMO in COVID-ARDS

Kaan Kirali, Adile Ece Altinay, Sirin Menekse and Sibel Aydin

Part XI. ECMO Support in Non-Surgical Cardiac Etiology

80. ECMO for Challenging Percutaneous Intervention

Matthew Acton, Corbin E. Goerlich and Ahmet Kilic,

81. ECMO for End-stage Heart Failure

Ahmet Kilic, Corbin E. Goerlich and Matthew Acton

82. ECMO for Cardiogenic Shock

Ibrahim Akin, Michael Behnes and Tobias Schupp

83. ECMO for Cardiopulmonary Arrest (E-CPR)

Hanne Berg Ravn and Henrik Schmidt

Part XII. ECMO Support in Surgical Cardiac Etiology

84. ECMO for Postcardiotomy Syndrome in Adults

Alexis Edward Shafii and Bhalinder Dhaliwal

85. ECMO for Postcardiotomy Syndrome in Pediatrics

Katsuhide Maeda and Tracey R. Geoffrion

86. ECMO for post-LVAD Right Ventricular Failure

Jasmin Sarah Hanke, Günes Dogan and Jan D. Schmitto

87. ECMO for Thoracic Transplantation

Leslie James, Deane E. Smith and Nader Moazami

Part XIII. Non-ECMO Artificial Life Support

88. Non-ECMO Artificial Circulatory Support Devices

Mevlut Çelik and Simon Maltais

89. Non-ECMO Artificial Respiratory Support Devices

Jung-Yien Chien, Ting-Yu Liao and Yih-Sharng Chen

90. Non-ECMO Artificial Circulatory Support for Postcardiotomy Syndrome

Kenneth K. Liao and Harveen Lamba

91. Non-ECMO Artificial Circulatory Support for Percutaneous Interventions

Gregory W. Serrao, Anoop Ninan Koshy and Samin Sharma

92. Non-ECMO Artificial Life Support for Thoracic Transplantation

Jae-Seung Jung and SeokJin Haam

Epilogue

Kaan Kirali
