

## **Volume: I**

### **Part 1: Epidemiology**

- 1 An Introduction to the Epidemiology of Chronic Kidney Disease
- 2 The Surveillance and Burden of Chronic Kidney Disease
- 3 Progression of Chronic Kidney Disease: An Evidence-based Approach to Risk Stratification
- 4 Screening for Chronic Kidney Disease
- 5 Risk Prediction in Chronic Kidney Disease
- 6 Chronic Kidney Disease in Disadvantaged Populations

### **Part 2: Acute Kidney Injury**

- 7 Overview / Definition, Classification and Epidemiology of Acute Kidney Disease
- 8 Pre-Renal Failure and Obstructive Disease
- 9 Hepatorenal Syndrome
- 10 Acute Tubular Necrosis
- 11 Iodinated Contrast and Acute Kidney Injury
- 12 Miscellaneous Etiologies of Acute Kidney Injury
- 13 Renal Replacement Therapy in Acute Kidney Injury

### **Part 3: Primary Diseases of the Kidney**

- 14 Renal Biopsy
- 15 Minimal Change Disease and Focal Segmental Glomerulosclerosis in Adults
- 16 Membranous Nephropathy
- 17 IgA Nephropathy in Adults and Children
- 18 Membranoproliferative Glomerulonephritis
- 19 Autosomal Dominant Polycystic Kidney Disease
- 20 Urinary Tract Infections
- 21a Toxic Nephropathies: Environmental Agents and Metals
- 21b Toxic Nephropathies: Nonsteroidal Anti-Inflammatory Drugs

### **Part 4: Secondary Diseases of the Kidney**

- 22 Hypertension
- 23 Renovascular Disease

24 Diabetic Nephropathy

25 Lupus Nephritis

26 Hemolytic Uremic Syndrome

27 Pregnancy

28 ANCA Associated Vasculitis

29 Paraprotein Associated Kidney Disorders

30 Primary Immune Complex-Mediated Membranoproliferative Glomerulonephritis and C3 Glomerulopathies : A Clinical Approach

Part 5: Chronic Kidney Disease and complications

31 Cardiovascular disease and CKD

32 Infection and CKD

33 Treatment of Anemia in Chronic Kidney Disease

34 Dyslipidemia in CKD

35 Hypertension

36 Mineral and Bone Disorder

37 Nutritional Disorders in Chronic Kidney Disease: Pathophysiology, Detection, and Treatment

38 Preparation for Dialysis

39 Choice of Hemodialysis or Peritoneal Dialysis for Kidney Replacement Therapy

**Volume: II**

Part 6: Hemodialysis

40 Modalities of Extracorporeal Therapy

41 Dialysis Dose and Adequacy for Hemodialysis

42 General Management of the HD patient

43 Infections in Hemodialysis Patients

44 Vascular Access

Part 7: Chronic Kidney Disease Stage 5: Peritoneal Dialysis

45 Small Solute Clearance in Peritoneal Dialysis

46 Salt and Water Balance

47 Solutions

48 Peritoneal Dialysis: Infections

49 Urgent Start

50 Catheters

Part 8: Supportive Care

51 Overview of Kidney Supportive Care

52 Symptoms

53 Prognostication in Advanced Chronic Kidney Disease

54 Advance Care Planning

55 Conservative Kidney Management and Dialysis Withdrawal

Part 9: Transplantation

56 Evaluation of the Living Donor Kidney

57 The Impact of Deceased Donor Quality and Outcomes after Kidney Transplantation

58 Early Medical and Surgical Complications After Kidney Transplantation

59 Infections after Kidney Transplantation

Part 10: Electrolytes and Acid-Base Disorders

60 Electrolyte Disorders

61 Metabolic Evaluation and Prevention of Kidney Stone Disease

Part 11: Pediatrics

62 Growth, Nutrition and Development

63 Bone Disease in Children with Chronic Kidney Disease

64 Anemia

65 Peritoneal Dialysis in Children

66 Hemodialysis

67 Urinary Tract Infections in Children

68 Henoch-Schonlein Purpura Glomerulonephritis and IgA Nephropathy in Children

69 Hereditary Nephritis in Children

70 Shigatoxin Related Hemolytic Uremic Syndrome

Part 12: Patient-centred care and outcomes

71 Shared Decision Making

72 Fatigue

73 Depression

74 Pain

75 Neurocognitive Disorders

76 Pruritus

77 Sexual Dysfunction

78 Family and Caregiver Support
