

Features:

- Offers the most comprehensive, up-to-date information on the diagnosis and management of, and rehabilitation following, treatment for benign and malignant diseases of the breast.
- Updates include an extensively updated oncoplastic section and extended medical and radiation oncology sections.
- Delivers step-by-step clinical guidance highlighted by hundreds of superb illustrations that depict relevant anatomy and pathology, as well as medical and surgical procedures.
- Reflects the collaborative nature of diagnosis and treatment among radiologists, pathologists, breast and plastic surgeons, radiation and medical oncologists, geneticists and other health care professionals who contribute to the management of patients with breast disease.
- Includes access to procedural videos that provide expert visual guidance on how to execute key steps and techniques.
- An eBook version is included with purchase. The eBook allows you to access all of the text, figures and references, with the ability to search, customize your content, make notes and highlights, and have content read aloud.

Table Of Contents:**SECTION I History of the Therapy of Breast Cancer**

- 1 The History of the Therapy for Breast Cancer
- 2 History of Surgical Clinical Trials and Cooperative Group Trials
- 3 Important Trials of the Last Decade

SECTION II Anatomy and Physiology of the Normal and Lactating Breast

- 4 Anatomy of the Breast, Axilla, Chest Wall, and Related Metastatic Sites
- 5 Breast Physiology: Normal and Abnormal Development and Function
- 6 Discharges and Secretions of the Nipple

SECTION III Natural History, Epidemiology, Genetics, and Syndromes of the Breast

- 7 Epidemiology of Breast Cancer
- 8 Carcinogenesis of Breast Cancer
- 9 Risk Reduction for Developing Breast Cancer
- 10 Breast Cancer Genetics: Syndromes, Genes, Pathology, Counseling, Testing, and Treatment

SECTION IV Screening and Diagnosis of the Breast Patient

- 11 Clinical Encounter With the Patient
- 12 Breast Cancer Screening
- 13 Breast Cancer Diagnosis and Techniques for Biopsy

SECTION V Benign and Premalignant Lesions

- 14 Etiology and Management of Benign Breast Disease
- 15 Mastitis and Breast Abscess
- 16 Gynecomastia
- 17 High-Risk and Premalignant Lesions of the Breast

SECTION VI Pathology of Malignant Lesions

- 18 Disorders of the Skin
- 19 Ductal Carcinoma In Situ
- 20 Infiltrating Carcinomas of the Breast
- 21 Biomarkers
- 22 Fibroepithelial Tumors and Hamartomas
- 23 Lymphomas of the Breast
- 24 Mesenchymal Neoplasms of the Breast
- 25 Unusual and Rare Tumors of the Breast

SECTION VII Prognostic Factors for Breast Cancer

- 26 Clinical Prognosis and Staging of Breast Cancer
- 27 Molecular Biomarkers for Breast Cancer Prognosis
- 28 Examining Domestic and International Disparities in Breast Cancer Screening, Treatment, and Outcomes

SECTION VIII Surgical Techniques of the Breast

- 29 Management of Lobular Neoplasia and Ductal Carcinoma In Situ
- 30 General Principles of Mastectomy: From Halsted Radical Mastectomy and Modified Radical Mastectomy to Total (Simple) Mastectomy
- 31 Breast Conservation Therapy for Invasive Breast Cancer
- 32 Intraoperative Evaluation of Surgical Margins in Breast-Conserving Therapy
- 33 Lymphatic Mapping and Sentinel Lymphadenectomy for Breast Cancer
- 34 Lymphatic Mapping and Targeted Axillary Dissection Procedure After Neoadjuvant Chemotherapy
- 35 Therapeutic Value of Axillary Node Dissection
- 36 Lymphedema Prevention and Treatment: Axillary Reverse Mapping, LYMPHA, Lymph Node Transfer, and Other Surgical Techniques
- 37 Wound Care and Complications of Mastectomy
- 38 Pain Management of the Breast Cancer Surgery Patient

SECTION IX Oncoplastic Breast Surgery and Reconstruction

- 39 Optimizing Cosmetic Outcomes for Breast Surgery
- 40 Upper Hemisphere Oncoplastic Surgery
- 41 Oncoplastic Techniques for the Lower Hemisphere of the Breast
- 42 Oncoplastic Breast Reconstruction: Extreme Oncoplasty and Split Reduction Techniques
- 43 Nipple Skin-Sparing Mastectomy
- 44 Breast Reconstruction

SECTION X Adjuvant Therapy for Stages 0, I, and II Breast Cancer

- 45 Radiotherapy and Regional Nodes
- 46 Postmastectomy Radiation Therapy
- 47 Breast-Conserving Therapy for Invasive Breast Cancers
- 48 Partial Breast Irradiation: Accelerated and Intraoperative
- 49 Radiation Complications and Their Management
- 50 Radiation Therapy for Locally Advanced Breast Cancer: Historical Review to Current Approaches
- 51 Systemic Therapy of Hormone-Sensitive HER2-Negative Breast Cancer: Adjuvant and Neoadjuvant
- 52 Adjuvant and Neoadjuvant Systemic Therapies for Triple-Negative Breast Cancer
- 53 Adjuvant and Neoadjuvant HER2 Therapy

SECTION XI Management of Advanced Local, Regional, and Systemic Disease

- 54 Surgical Procedures for Advanced Local and Regional Malignancies of the Breast
- 55 Management of the Intact Breast Primary in the Setting of Metastatic Disease
- 56 Locoregional Recurrence of Breast Cancer
- 57 Locally Advanced and Inflammatory Breast Cancer
- 58 Clinical Implications of Occult Systemic Micrometastatic Breast Cancer
- 59 Management of Breast Cancer Solitary Metastases
- 60 Management of Bone Metastases in Breast Cancer
- 61 Chemotherapy and HER2-Directed Therapy for Metastatic Breast Cancer
- 62 Endocrine Therapy for Late-Stage and Metastatic Breast Cancer
- 63 Immunological Approaches to Breast Cancer Therapy
- 64 Diagnosis and Management of Pleural Metastases and Malignant Effusion in Breast Cancer
- 65 Management of Central Nervous System Metastases in Breast Cancer

SECTION XII Special Presentations of Breast Cancer

- 66 Bilateral Breast Cancer
- 67 Male Breast Cancer
- 68 Local Recurrence, the Augmented Breast, and the Contralateral Breast
- 69 Carcinoma of the Breast in Pregnancy and Lactation

70 Unknown Primary Presenting With Axillary Lymphadenopathy

SECTION XIII Survivorship, Follow-Up Care, and Rehabilitation of the Breast Cancer Patient

71 Creating a Breast Cancer Survivorship Plan and Clinic

72 General Considerations for Follow-Up

73 Bone-Modifying Agents in Early Breast Cancer

74 Fertility Preservation for Women With Breast Cancer

75 Quality Measures and Performance Improvement for Breast Cancer Surgery

76 Lymphedema in the Postsurgical Patient: Pathophysiology and Nonoperative Management

77 Management of Menopause in Breast Cancer Survivors

78 Rehabilitation

79 Psychosocial Consequences and Lifestyle Interventions
