

Part 1 Basic concepts - lung and critical care

1:History of Mechanical Ventilation, *Mark Griffiths, Mary White, and Nirmala Chakkalakal*

2:The Respiratory System, *Richard Leach*

3:Gas Exchange, *Andrew Cumpstey and Mike Grocott*

4:Airway Defences, *Thomas S. Wilkinson*

Part 2 The Critical Care Unit

5:Organisation, *Judit Orosz and Steve McGoughlin*

6:Emergency Planning and Disaster Management, *Richard Keays*

Part 3 Non-invasive Ventilation

7:High Flow Nasal Oxygen Therapy, *Federico Longhini, Paolo Navalesi, Mariachiara Ippolito, and Cesare Gregoretti*

8:Non invasive Ventilation in Critical Care, *Cesare Gregoretti, Andrea Cortegiani, Vincenzo Russotto, and Lara Pisani*

9:Clinical applications of Non invasive ventilation in Critical Care, *Federico Longhini, Rosanna Vaschetto, and Paolo Navalesi*

10:Medical Gases and Humidification, *Lorenzo Ball, Francesco Tasso, Veronica Vercesi, Marco Tixi, Iacopo Firpo, and Paolo Pelosi*

Part 4 Basic Concepts in Positive Pressure Ventilation

11:Mechanical Ventilation: how to set up the ventilator, *Christoph Boesing, Thomas Luecke, and Joerg Krebs*

12:Pulmonary effects of Positive Pressure Ventilation, *Pedro Leme Silva, Gary Nieman, Paolo Pelosi, and Patricia RM Rocco*

13:Extrapulmonary effects of Positive pressure Ventilation, *Pedro Leme Silva, Gary Nieman, Paolo Pelosi, and Patricia RM Rocco*

Part 5 Monitoring the Mechanically Ventilated Patient

14:Monitoring airway inflammation and infection, *Anthony Rostron, Thomas Hellyer, and A John Simpson*

15:Monitoring lung protective ventilation, *Paolo Formenti and John J Marini*

16:Monitoring Respiratory muscle function, *Benjamin Garfield and Sunil Patel*

17:Monitoring Cardiovascular function in Critically Ill patients, *Rodney A Gabriel and Michael R Pinsky*

18:Imaging Critically Ill patients, *Arjun Nair*

19:Bronchoscopy in Critical Care, *Suveer Singh*

Part 6 Advanced Mechanical Ventilation

20:Airway Management, *Johannes M Huitink and Lorenz G Theiler*

21:Acute Respiratory Distress Syndrome, *Michele Umbrello, Paolo Formenti, and Davide Chiumello*

22:Advanced Respiratory Therapies: Inhaled therapies, Heliox, ECMO and ECCO2-R, Non conventional ventilatory modes, *Stephan Ehrmann, Nicole P. Juffermans, Marcus J. Schultz, Nicolò Patroniti, Alex Molin, Martin Scharffenberg, Sabine Nabecker, and Marcelo Gama de Abreu*

Part 7 Care of the ventilated patient

23:Thromboprophylaxis, *Emma Louise Hartley and Andrew Retter*

24:Fluid Balance, *Hollmann D. Aya and Maurizio Cecconi*

25:Sedation, Analgesia, and Paralysis, *Yahya Shehabi and Maja M. Green*

26:Nutrition, *Danielle E Bear and Zudin Puthuchery*

27:Gastric Protection, *Mette Krag, Morten Hylander Møller, Suveer Singh, and Matt P Wise*

28:Mucus and Bronchopulmonary clearance, *Susannah Leaver and Jonathan Ball*

29:Delirium and Sleep, *Ahmed Al-Hindawi, Eli Rogers, and Marcela P. Vizcaychipi*

30:Physiotherapy, *Bronwen Connolly and Paul Twose*

31:Human Factors and End of Life, *Christopher D Hingston*

Part 8 Respiratory Infections

32:Ventilator associated pneumonia, *Vimal Grover and Suveer Singh*

33:Bacterial Pneumonia, *David R. Woods and Ricardo J. José*

34:Viral Pneumonias, *Jordi Rello, Eleonora Bunsow, and Leonel Lagunes*

35:COVID-19 in the intensive care unit: Epidemiology, Pathophysiology, Respiratory management, Haemodynamic support, Renal support, Pharmacological treatments and Superinfection, *Jonathon P. Fanning, Gianluigi Li Bassi, Patricia Rieken Macedo Rocco, Lorenzo Ball, Antonio Messina, Marlies Ostermann, Matteo Bassetti, and Daniele Roberto Giacobbe*

36:Pleural infection, *Loïc Lang-Lazdunski*

37:Fungal respiratory Infections, *Matteo Bassetti, Alessia Canelutti, and Elda Righi*

38:Mycobacterial Infections, *Christopher M. Orton, Hannah Jarvis, and Onn Min Kon*

39:Traveller's Pneumonia, *Dhruva Chaudhry, Pawan Kumar Singh, and Manjunath B. Govindagoudar*

40:Pharmacology of anti infective drugs in critical illness, *Vanya Gant*

Part 9 Critical Care management of Pulmonary Diseases and other Respiratory manifestations

41:Chronic obstructive pulmonary disease, *Andrea Carsetti and Simone Bazzurro*

42:Asthma, *Mara Ricci, Giovanni Carmine Iovino, Lucrezia Mincione, Ivan Dell'atti, and Salvatore Maurizio Maggiore*

43:Thromboembolic disease, *Caroline Patterson and Derek Bell*

44:Pulmonary Haemorrhage, *Vasilis Kouranos*

45:Pulmonary Hypertension and Cor Pulmonale, *Laura C Price, S John Wort, and Simon J Finney*

46:Organising Pneumonia, *Peter M George, Suveer Singh, and Felix Chua*

47:Interstitial Lung disease, *Philip Molyneux and Athol U Wells*

48:The Haematological patient, *Nilima Parry-Jones, Jack Parry-Jones, and Matt P Wise*

49:Oncological aspects of respiratory critical care, *Hemang Yadav, Alastair C Carr, and Philippe R Bauer*

50:Sickle cell disease, *Muriel Fartoukh, Guillaume Voiriot, Aude Gibelin, Julien Lopinto, Armand Mekontso-Dessap*

51:Neuromuscular disease, *Michael I Polkey*

52:Pleural Disease, *Fraser Brims and Edward TH Fysh*

53:Chest wall disease and Post thoracic surgery, *Thomas Kiss and Marcelo Gama de Abreu*

54:Obesity, *Audrey de Jong and Samir Jaber*

55:Trauma, *Timothy Scott and Christopher M R Satur*

56:Pneumothorax and Air Leaks, *Giorgio della Rocca and Luigi Vetrugno*

57:The Obstetric patient, *Timothy Crozier*

58:Transfusion, *Markus Honickel, Oliver Grottke, and Rolf Rossaint*

59:Anaphylaxis, *Jasmeet Soar, Fiona Moghaddas, and Stephen M. Robinson*

60:Aspiration and Drowning, *Simone Bazzurro, Andrea Carsetti, and Greg McAnulty*

61:Burns and Inhalation Injury, *Sabri Soussi, Matthieu Legrand, and Suveer Singh*

62:Poisoning, *Omender Singh, Suneel Kumar Garg, and Deven Juneja*

63:Lung Transplantation, *Thomas Bein and Michael Pfeifer*

Part 10 Weaning and Long-term ventilation

- 64:Liberation from Mechanical Ventilation, *Patrick B Murphy, Andrew Jones, and Luigi Camporota*
- 65:Home Mechanical Ventilation, *Rachel d'Oliveiro and Michael Davies*
