

## **Part I: Criteria, Urgency, and Importance**

Chapter 1: Indications for a Neurologic Consult in the Intensive Care Unit

Chapter 2: Consulting in the Intensive Care Unit

## **Part II: General Clinical Neurologic Problems in the Intensive Care Unit**

Chapter 3: Acute Confusional State in the Intensive Care Unit

Chapter 4: Coma in the Intensive Care Unit

Chapter 5: Neurologic Manifestations of Drugs Used for Analgesia and Anesthesia in the Intensive Care Unit

Chapter 6: Seizures in the Intensive Care Unit

Chapter 7: Generalized Weakness in the Intensive Care Unit

Chapter 8: Acute Neurological Focal Findings and Asymmetries in the Intensive Care Unit

Chapter 9: Acute Movement Abnormalities in the Intensive Care Unit

## **Part III: Neurologic Complications in Medical and Surgical Intensive Care Units and Transplantation Units**

Chapter 10: Neurologic Complications of Invasive Procedures and Devices

Chapter 11: Neurologic Manifestations of Acute Bacterial Infections

Chapter 12: Neurological Manifestations of Infectious Outbreaks

Chapter 13: Neurologic Complications of Cardiac Arrest

Chapter 14: Neurologic Manifestations of Acid-Base Derangements, Electrolyte Disorders, and Endocrine Crises

Chapter 15: Neurologic Complications of Acute Renal Disease

Chapter 16: Neurologic Manifestations of Acute Hepatic Failure

Chapter 17: Neurologic Complications Associated with Disorders of Thrombosis and Hemostasis

Chapter 18: Neurologic Complications of Acute Vasculitis Syndromes

Chapter 19: Neurologic Complications in the Critically Ill Pregnant Patient

Chapter 20: Neurologic Complication of Cancer in the ICU

Chapter 21: Neurologic Complications of Aortic Surgery

Chapter 22: Neurologic Complications of Cardiac Surgery

Chapter 23: Neurologic Complications of Acute Environmental Injuries

Chapter 24: Neurologic Complications of Drug Overdose, Poisoning, and Terrorism

Chapter 25: Neurologic Complications of Traumatic Brain Injury

Chapter 26: Neurologic Complications of Trauma to the Spine, Spinal Cord, and Nerves

Chapter 27: Neurologic Complications of Organ Transplantation

## **Part IV: Outcome in Central Nervous System Catastrophes**

Chapter 28: Outcome of Acute Injury to the Central Nervous System

## **Part V: Consultative Neurology and End of Life Care in the Intensive Care Unit**

Chapter 29: The Neurologist and End of Life Care in the Intensive Care Unit

Chapter 30: The Neurologist and ICU Ethical Dilemmas
