

SECTION ONE: THE LIVER

Part 1: Anatomy and physiology

- 1: Surgical anatomy of the liver, *Ashwin Rammohan and Mohamed Rela*
- 2: Applied physiology of the liver, *Bruno Stieger and Joachim C. Mertens*
- 3: Liver regeneration, *Bostjan Humar and Rok Humar*
- 4: Perioperative management and nutrition in patients with liver and biliary tract disease, *Akila Rajakumar, Ilankumaran Kaliamurthy, and Rathanel Kanagavelu*

Part 2: Investigations

- 5: Liver function tests and assessment of liver function, *Omar Y. Mousa and Patrick S. Kamath*
- 6: Imaging: Ultrasound, CT, MRI, nuclear medicine, angiography, *Guido Costa, Ezio Lanza, Matteo Donadon, and Guido Torzilli*

Part 3: Infectious disease of the liver

- 7: Bacterial and parasitic infections of the liver, *Chandan Kumar Kedarisetty, Mayank Jain, Thamarai S. Selvan, Vanarasi Y. Bhargav, and Jayanthi Venkatraman*
- 8: Fatty liver in liver surgery, *Nicolas Goldaracena and Lucas McCormack*
- 9: Cystic lesions of the liver, *David Martin and Emmanuel Melloul*
- 10: Benign liver tumours, *Sadhana Shankar, Evangelia Florou, and Parthi Srinivasan*
- 11: Modern management of liver trauma, *Philip C. Müller, Valentin Neuhaus, Thomas Pfammatter, and Henrik Petrowsky*

Part 4: Aetiology and management of portal hypertension

- 12: Extrahepatic portal venous obstruction, non-cirrhotic portal fibrosis, cirrhosis, hepatic venous outflow tract obstruction, *Mohammad Qasim Khan and Patrick S. Kamath*
- 13: Medical management of portal hypertension and its complications, *Mohammad Qasim Khan and Patrick S. Kamath*
- 14: Interventional radiological and surgical treatment of portal hypertension, *Mohammad Qasim Khan and Patrick S. Kamath*

Part 5: Vascular diseases of liver

- 15: Budd-chiari syndrome, veno occlusive disease, secondary vascular diseases of the liver, *Patricia Sánchez-Velázquez and Fernando Burdío*

Part 6: Neoplasms of liver

- 16: Treatment of hepatocellular carcinoma: A surgical perspective, *Vincenzo Mazzaferro, Michele Drozdit Busset, and Matteo Virdis*
- 17: Cholangiocarcinoma, *Mohamed Rela and Mettu Srinivas Reddy*
- 18: Primary neoplasms of the liver: Hepatoblastoma, *Paolo Muiesan*
- 19: Primary neoplasms of the liver: Other neoplasms, *Jan Lerut and Quirino Lai*
- 20: Secondary neoplasms of the liver, *Pål-Dag Line*

Part 7: Liver resection and transplantation

- 21: Principles and techniques of liver resection, *Philipp Kron and J. Peter A. Lodge*
- 22: Liver transplantation: General principles, *Greg J. McKenna*
- 23: Paediatric liver transplantation, *Mureo Kasahara*
- 24: Live donor liver transplantation, *Michele Finotti and Giuliano Testa*

Part 8: Non-operative management and outcomes

- 25: Non-operative management of liver lesions, *T. Deepa Shree*
- 26: Long-term outcomes following liver surgery, *Yasuhito Iwao and Nigel D. Heaton*

SECTION TWO: THE GALL BLADDER AND BILE DUCTS

Part 9: Diagnostic and therapeutic approaches for the biliary tree and gall bladder

27: Non-invasive imaging of the biliary tract, *Daniela Husarik and Cécilia S. Reiner*

28: Endoscopic diagnostic and treatment modalities of the biliary system, *Christoph Gubler and Oliver Frans*

29: Percutaneous biliary imaging and interventions, *N. Vietti Violi, Alban Denys, and Mathilde Vermersch*

30: Laparoscopic liver surgery, *Christian Hobeika, François Cauchy, and Olivier Soubrane*

31: Pathogenesis and natural history of gallstones, *Veena Bheeman, Royce P. Vincent, and Ameet G. Patel*

Part 10: Specific conditions of the gall bladder

32: Acute and chronic cholecystitis, *Claire Goumard and Olivier Scatton*

33: Post-cholecystectomy biliary injury, *Kayvan Mohkam, Jean-Yves Mabrut, Agnès Rode, and Mickaël Lesurtel*

34: Biliary fistula, gallstones ileus and Mirizzi syndrome, *Martin Palavecino and Juan Pekolj*

35: Benign and malignant lesions of the gall bladder, *Anil K. Agarwal and Raja Kalayarasan*

36: Medical and innovative therapies for biliary malignancies, *Sudha Kodali, Joy V. Nolte Fong, and R. Mark Ghobrial*

Part 11: The intrahepatic and extrahepatic bile ducts

37: Biliary atresia, *Priya Ramachandran*

38: Neonatal cholestasis syndrome, *Priya Ramachandran*

39: Acute cholangitis, recurrent cholangitis, and management of CBD calculi, *Haitham Triki and Karim Boudjema*

40: Cystic diseases of the biliary system, *Stefan Heinrich*

41: Primary sclerosing cholangitis, *James Neuberger*

42: Malignant lesions of the extrahepatic biliary system, *Philippe Compagnon*
