

Features:

- Covers the emergent evaluation and management of trauma patients, as well as the emergency management of specific injuries.
- Uses an easy-to-digest, bullet-point format to convey information in a way that's easy to follow and understand.
- Contains dozens of full-color illustrations that focus on surgical anatomy and surgical procedures, as well as numerous algorithms that aid in surgical decision making.
- A valuable resource for medical students, trainee surgical residents, trauma surgery fellows, general surgeons, trauma surgeons, ER physicians, and midlevel providers, as well as other non-surgical physicians who are interested in the management of trauma patients.
- An eBook version is included with purchase. The eBook allows you to access all of the text, figures and references, with the ability to search, customize your content, make notes and highlights, and have content read aloud.

Περιεχόμενα:**PART A****EMERGENT EVALUATION OF THE TRAUMA PATIENTS**

SECTION I

INITIAL EVALUATION

Chapter 1: The Vicious cycle of trauma

Chapter 2: Death in trauma patients

Chapter 3: Process of evaluation of trauma patients

Chapter 4: Primary survey & Resuscitation

SECTION II

MANAGEMENT OF AIRWAY

Chapter 5: Definitive airway

Chapter 6: Endotracheal intubation

Chapter 7: Extra-glottic devices in failed intubation

Chapter 8: Emergency surgical airway

SECTION III

MANAGEMENT OF BREATHING

Chapter 9: Compromised Breathing & Ventilation

Chapter 10: Procedures for compromised breathing

SECTION IV

MANAGEMENT OF CIRCULATION

Chapter 11: Assessment and Management of shock

Chapter 12: Pathophysiology of hemorrhagic shock

Chapter 13: Manifestation of hemorrhagic shock

Chapter 14: Differential diagnosis of shock in trauma patients

Chapter 15: Systemic Inflammatory Response Syndrome(SIRS), Sepsis & Septic Shock

Chapter 16: Principles of management of hemorrhagic shock
Chapter 17: Access for fluid resuscitation
Chapter 18: Resuscitation fluid
Chapter 19: Balanced resuscitation
Chapter 20: Use of Blood and Blood products
Chapter 21: Control of bleeding
Chapter 22: Viscoelastic Hemostatic Assay
Chapter 23: Resuscitative Endoluminal Balloon Occlusion of Aorta (REBOA)
Chapter 24: Monitoring of Resuscitation

PART B

MANAGEMENT OF SPECIFIC TRAUMA PROBLEMS

SECTION V

MANAGEMENT OF HEAD TRAUMA

Chapter 25: Evaluation of head injury
Chapter 26: Types of brain injury
Chapter 27: Intracranial pressure monitoring
Chapter 28: Non- surgical management of traumatic brain injury
Chapter 29: Surgical management of traumatic brain injury
Chapter 30: Brain death
Chapter 31: Scalp laceration
Chapter 32: Skull fracture
Chapter 33: Facial fracture

SECTION VI

MANAGEMENT OF SPINE TRAUMA

Chapter 34: Cervical spine clearance in blunt injury
Chapter 35: Blunt cerebrovascular injury
Chapter 36: Cervical spine injuries
Chapter 37: Thoracolumbar spine injury
Chapter 38: Spinal cord injury

SECTION VII

NECK TRAUMA

Chapter 39: Blunt neck trauma
Chapter 40: Penetrating neck trauma

SECTION VIII

CHEST TRAUMA

Chapter 41: Chest wall injury
Chapter 42: Lung and tracheobronchial injury
Chapter 43: Thoracic vascular injury
Chapter 44: Esophageal injury
Chapter 45: Damage control thoracotomy

SECTION IX

ABDOMINAL TRAUMA

Chapter 46: Management of hemodynamically unstable abdominal (Blunt/Penetrating) trauma

Chapter 47: Damage control exploratory laparotomy
Chapter 48: Temporary abdominal closure
Chapter 49: Exposure of retroperitoneum
Chapter 50: Management of liver injury
Chapter 51: Management of pancreatic injury
Chapter 52: Management of spleen injury
Chapter 53 : Management of stomach injury
Chapter 54: Management of duodenal injury
Chapter 55: Management of small bowel injury
Chapter 56: Management of colorectal injury
Chapter 57: Management of retroperitoneal vascular injury
Chapter 58: Management of pelvic bleeding
Chapter 59: Management of urogenital injury
SECTION X
PERIPHERAL VASCULAR INJURY
Chapter 60: Management of upper extremity vascular injury
Chapter 61: Management of lower extremity vascular injury
SECTION XI
MUSCULOSKELETAL INJURY
Chapter 62: Management of pelvic fracture
Chapter 63: Management of extremities fractures
Chapter 64: Classification of musculoskeletal injuries
Chapter 65: Compartment syndrome
Chapter 66: Amputations
SECTION XII
MISCELLANEOUS
Chapter 67: Trauma in the extremes of age
Chapter 68: Trauma in pregnancy
Chapter 69: Scoring systems in trauma
