

Section 1: Universal definition of heart failure

1.1: Universal definition of heart failure, *Andrew JS Coats, Biykem Bozkurt and Petar M. Seferovic*

Section 2: Epidemiology of heart failure

2.1: Epidemiology of heart failure, *Amy Groenewegen, Ivan Milinkovi?, Arno W Hoes, Arend Mosterd, Frans H Rutten*

Section 3: Etiology of heart failure

3.1: Coronary artery disease, *(Rocco Antonio Montone, Maurizio Volterrani, Jian Zhang and Filippo Crea*

3.2: Hypertension, *Athanasios Manolis and Yuri Lopatin*

3.3: Valvular heart disease, *Ana Pardo Sanz, Ivan Milinkovic and Josep Zamorano*

3.4.1: Genetic basis of cardiomyopathies, *Thomas Thum, Stephane Heymans, and Johannes Backs*

3.4.2: Dilated and hypokinetic non-dilated cardiomyopathy, *Petar M. Seferovic, Biykem Bozkurt, and Marija Polovina*

3.4.3: Hypertrophic cardiomyopathy, *Perry Elliott, Michel Noutsias and Aris Anastasakis*

3.4.4: Restrictive cardiomyopathy, *Claudio Rapezzi, Alberto Aimo, Ales Linhart, and Andre Keren*

3.4.5: Arrhythmogenic right ventricular cardiomyopathy, *Cristina Basso, Hugh Calkins and Domenico Corrado*

3.4.6: Peripartum cardiomyopathy, *Karen Sliwa and Johann Bauersachs*

3.4.7: Takotsubo cardiomyopathy, *Jelena Templin-Ghadri, Michael Würdinger, Johann Bauersachs, and Christian Templin*

3.5: Myocarditis and pericarditis, *Stephane Heymans, Arsen Risti?, Yehuda Adler, and Massimo Imazio*

3.6: Congenital heart disease, *Werner Budts and Jolien Roos-Hesselink*

3.7: Endocrine and metabolic disorders, *Martin Huelsmann, Jelena Seferovic and Francesco Cosentino*

3.8: Obesity, *Lina Badimon, Stefan Anker and Stephan von Haehling*

3.9: Cancer and cancer therapy, *Alexander Lyon, Dimitrios Farmakis, Daniela Cardinale and Teresa Lopez Fernandez*

3.10: Toxins (e.g. alcohol etc.) and infections, *Antonello Gavazzi, Maria Nunes, and Fausto Pinto*

Section 4: Prevention of heart failure

4.1: Prevention of heart failure, *Massimo Piepoli, Maria Benedetta Matrone, Paul Dendale, and Shelley Zieroth*

Section 5: Pathophysiology of heart failure

5.1: Molecular and cellular mechanisms, *(Junjie Xiao, Thomas Thum, Gianluigi Condorelli and Johannes Backs*

5.2: Alterations in myocardial metabolism, *Edoardo Bertero and Chistoph Maack*

5.3: Ventricular remodelling, *Javier Diez Martinez and Hans-Peter Brunner La Rocca*

5.4: Neurohormonal activation, *Antoni Bayes Gennis and Faiez Zannad*

5.5: Immune-mediated mechanisms, *Ulrich Hofmann, Stefan Frantz and Nikolaos Frangogiannis*

5.6: Inflammation, oxidative stress and endothelial dysfunction, *Stephane Heymans*

5.7: Alterations in peripheral circulation and renal function, *Alterations in peripheral circulation and renal function (*

5.8: Systemic adaptations in metabolism and nutritive status, *(Stephan von Haehling and Wolfram Doehner*

Section 6: Clinical phenotypes of chronic heart failure

- 6.1: HFrEF, *Thomas Luscher, Petar Seferovic, and Brian Halliday*
- 6.2: HFmrEF, *Adrian Voors, Brenda Moura, Lars Lund and Carolyn Lam*
- 6.3: HFpEF, *Rudolf De Boer, Burkert Pieske, and Barry Borlaug*
- 6.4: Right heart failure, *Thomas Luscher, Thomas M. Gorter, Susanna Price, Michael Gatzoulis and Anneline Te Riele*

Section 7: Chronic heart failure: diagnostic and prognostic assessment

- 7.1: Clinical assessment, *Michel Komajda, Piotr Ponikowski, and Evgeny Shlyakhto*
- 7.2: Biomarkers in diagnostic and prognostic assessment, *Rudolf de Boer, Antoni Bayes Genis and James Januzzi*
- 7.3: Echocardiography, *Philippe Debonnaire, Victoria Delgado, Thor Edvardsen, Bogdan Popescu, and Jeroen Bax*
- 7.4: Nuclear medicine, *Danilo Neglia and Alessia Gimelli*
- 7.5: Cardiac computed tomography, *Stephan Achenbach and Amina Rakisheva*
- 7.6: Cardiac magnetic resonance, *Anna Baritussio, Noor Sharrack, Sven Plein, and Chiara Bucciarelli-Bucci*
- 7.7: Cardiopulmonary exercise, *Luca Moderato, Davide Lazzeroni, Stamatis Adamopoulos, Alain Cohen-Solal and Massimo Piepoli*
- 7.8: Cardiac catheterization, invasive imaging and haemodynamic assessment, *Christian Hamm, Brigit Assmus and Veselin Mitrovic*

Section 8: Chronic heart failure: pharmacological management

- 8.1: Angiotensin converting enzyme inhibitors, *Roberto Ferrari, Gabriele Guardigli, and Biykem Bozkurt*
- 8.2: Angiotensin I receptor blockers, *Ileana L. Pina and Magdy Abdelhamid*
- 8.3: ARNI, *Petar M. Seferovic, Michele Senni, Marija Polovina and Andrew JS Coats*
- 8.4: Beta-blockers, *Daniela Tomasoni, Marianna Adamo, Hiroyuki Tsutsui, and Marco Metra*
- 8.5: Mineralocorticoid receptor agonists, *Bertram Pitt, João Pedro Ferreira and Faiez Zannad*
- 8.6: Ivabradine, *Michael Bohm and Michel Komajda*
- 8.7: Vasodilators, *Eftihia Polyzogopoulou, Maria Nikolaou, John Parissis and Alexandre Mebazaa*
- 8.8: Digitalis glycosides, *Udo Bavendiek and Johann Bauersachs*
- 8.9: Diuretics, *Jeroen Dauw, Stephen Gottlieb and Wifried Mullens*
- 8.10: Inotropes and inodilators, *Jan Biegus, Piotr Ponikowski, and Christoph Maack*
- 8.11: SGLT2 inhibitors, *Petar M. Seferovic, Francesco Cosentino, Giuseppe Rosano and James Januzzi*
- 8.12: Ancillary pharmacological treatment options, *Stefan Agewall, Isabelle van Gelder, and Irene Savellieva*
- 8.13: New and emerging therapies, *Giuseppe Rosano, Gerasimos Filippatos, and Randall Starling*

Section 9: Chronic heart failure: non-pharmacological management

- 9.1: Implantable cardioverter defibrillator, *Gianluigi Savarese, Cecilia Linde and Kenneth Dickstein*
- 9.2: Cardiac resynchronization therapy, *Pieter Martens, Eva Goncalvesova, and Wilfried Mullens*
- 9.3: Cardiac surgery, *Felix Schoenrat, Franz-Josef Neumann, Miguel Sousa Uva and Volkmar Falk*
- 9.4: Valve interventions, *Stefan Orwat, Stefan Anker and Helmut Baumgartner*
- 9.5: Ancillary procedures, *Andrew JS Coats, Piotr P Ponikowski, Maria-Rosa Costanzo and William T. Abraham*
- 9.6: Cardiac rehabilitation, *Maurizio Volterrani, Alain Cohen-Solal, Stamatis Adamopoulos, Dimitris Miliopoulos, Ferdinando Iellamo, and Massimo Piepoli*

Section 10: Acute heart failure

- 10.1: Acute heart failure: diagnostic and prognostic assessment, *Ovidiu Chioncel, Gerasimos Filippatos, Alexandre Mebazaa, Veli-Pekka Harjola, and Josep Masip*
- 10.2: Acute heart failure: management, *Katerina Fountoulaki, John Parissis, Sean Collins, Mehmet Birhan Yilmaz, and Alexandre Mebazaa*

Section 11: Advanced heart failure

- 11.1: Advanced heart failure: assessment, *Tuvia Ben Gal, Mariell Jessup, and Maria-Rosa Costanzo*
- 11.2: Advanced heart failure: management, *Daniela Tomasoni, Marianna Adamo, and Marco Metra*
- 11.3: Mechanical circulatory support, *Mandeep Mehra and Finn Gustafsson*
- 11.4: Heart transplantation, *Davor Milicic, Mandeep Mehra, and Randall Starling*
- 11.5: Palliative care and end-of-life management, *Tiny Jaarsma, Donna Fitzsimons, Lisa Hjelmfors, Loreena Hill, Ekaterini Lambrinou, and Anna Strömberg*

Section 12: Comorbidities and clinical conditions

- 12.1: Chronic kidney disease: Clinical Aspects of Chronic Kidney Disease in Heart Failure, *Pieter Martens and Hans-Peter Brunner-La Rocca*
- 12.2: Dyskalaemia, *Javed Butler, Wilfried Mullens and Kevin Damman and João Pedro Ferreira*
- 12.3: Chronic lung disease, *Josep Masip, Karina Portillo and Mattia Arrigo*
- 12.4: Ventilatory Abnormalities and Sleep Disordered Breathing, *Piergiuseppe Agostoni, Elisabetta Salvioni, Maria Rosa Costanzo, and Andrew JS Coats*
- 12.5: Pulmonary hypertension, *Irene M. Lang and Stephan Rosenkranz*
- 12.6: Cardiac rhythm disorders, *Silvia Priori, Alessandro Trancuccio, Alessia Chiara Latini, Carlo Arnò, Deni Kukavica, and Andrea Mazzanti*
- 12.7: Management of atrial fibrillation in heart failure, *Paulus Kirchhof, Andreas Metzner, Ruben Schleberger and Douglas Packer*
- 12.8: Diabetes, metabolic syndrome and endocrine disorders, *Giuseppe Rosano, Javed Butler, Petar M. Seferovi?, Jelena Seferovic and Francesco Cosentino*
- 12.9: Systemic immune mediated diseases, *Giacomo De Luca, Luca Moroni, Alessandro Tomelleri, R Marcolongo, Lorenzo Dagna, Alida LP Caforio, and Marco Matucci-Cerinic*
- 12.10: Liver and gut dysfunction, *Yuri Lopatin and Gianluigi Savarese*
- 12.11: Anaemia and iron deficiency, *Ewa Jankowska, Piotr Ponikowski, and Stefan Anker*
- 12.12: Depression and cognitive impairment, *Wolfram Doehner, Cristiana Vitale, and Mehmet Birhan Yilmaz*
- 12.13: Cancer, *Alexander Lyon, Dimitrios Farmakis, Rudolf de Boer, and Yuri Belenkov*
- 12.14: Pregnancy, *Johann Bauersachs, Denise Hilfiker-Kleiner and Karen Sliwa*
- 12.15: Frailty, *Ewa Jankowska, Cristiana Vitale and Dong-Ju Choi*

Section 13: Self-care and patient education

- 13.1: Self-care and patient education, *Tiny Jaarsma, Loreena Hill, Ekaterini Lambrinou, Anna Stromberg, and Tina Hansen*

Section 14: Multidisciplinary approach to heart failure management

- 14.1: Multidisciplinary approach to heart failure management, *Loreena Hill, Friedrich Koehler, Tiny Jaarsma, Marija Polovina, Katherine McCreary, and Andrew JS Coats*

Section 15: Clinical trial design and interpretation

- 15.1: Clinical trial design and interpretation, *Gianluigi Savarese, Marija Polovina and Gerasimos Filippatos*

Section 16: Digital health in heart failure

- 16.1: Digital health in heart failure, *Arvind Singhal and Martin Cowie*

Section 17: Big data in heart failure

17.1: Big data in heart failure, *Mamas Mamas and Dipak Kotecha*

Section 18: Telemedicine and remote monitoring

18.1: Telemedicine and remote monitoring, *Tarek Bekfani, Friedrich Koehler and William T. Abraham*
