

Ch 1 Journey from Macromolecular Pathology to Molecular Therapies

Bonnie W. Ramsey and Christiane (Kris) De Boeck

Ch 2 Global epidemiology of CF: High income and low/middle income countries (global harmonisation registry countries)

Ahmad M. Hider and Samya Z. Nasr

Ch 3 Voices of Patients and Families

Lorna Allen

Ch 4 Patient Organisations

Nettie Burke

Ch 5 Molecular Biology of CFTR: From the Gene to the Protein

Deborah M. Cholon, Andrei A. Aleksandrov and Martina Gentsch

Ch 6 Biology of the CF airway epithelium

Tahir Idris, Marc Chanson and Mehdi Badaoui

Ch 7 The physiology of epithelial ion and fluid transport: beyond CFTR modulators

Livia Delpiano and Michael A. Gray

Ch 8 Inflammation in Cystic Fibrosis

Deepika Polineni and James F. Chmiel

Ch 9 Model Organisms of Cystic Fibrosis

Daniel P. Cook and David A. Stoltz

Ch 10 Systems Biology and the New Omics

Margarida D. Amaral, Luka A. Clarke, Carlos M. Farinha, Hugo M. Botelho

Ch 11 Genotype: phenotype correlations

Karen S. Raraigh and Garry R. Cutting

Ch 12 Gene Environment Interactions

Shivanthan Shanthikumar

Ch 13 Demographic, socioeconomic, and environmental contributions to health in cystic fibrosis

John B. Palla, Meghan E. McGarry and Susanna A. McColley

Ch 14 Drug Discovery Platforms for CFTR modulators

Nicoletta Pedemonte

Ch 15 CFTR modulator drug discovery and translation into the clinic

Marlou Bierlaagh, Jeffrey Beekman and Kors van der Ent

Ch 16 Newborn and Carrier Screening for CF

John Massie and Juerg Barben

Ch 17 Diagnostic tests: Sweat testing, epithelial potential differences and genetic testing

Elke De Wachter and Caroline Raynal

Ch 18 Immediate Management of The Newly Screened Positive Baby

Jessica L. Saunders and Clement L. Ren

- Ch 19 Diagnosis of the symptomatic patient  
Dorota Sands and Nicholas J. Simmonds
- Ch 20 Blurred boundaries: CRMS/ CFSPID and CFTR related disorders  
Nicholas J. Simmonds and Jane C. Davies
- Ch 21 Respiratory Disease across the Lifecourse  
Noah Lechtzin and Peter J. Mogayzel, Jr.
- Ch 22 Respiratory effects of the new CFTR modulators  
Jennifer L. Taylor-Cousar, Alex H. Gifford, Dominic Hughes, John A King and Jane C. Davies
- Ch 23 Epidemiology and microbiology of cystic fibrosis pulmonary infections  
Christina Thornton, Ranjani Somayaji and Valerie Waters
- Ch 24 New methods for detecting and identifying bacteria  
Eshwar Mahenthalingam
- Ch 25 Non-tuberculous Mycobacterial Infections in Cystic Fibrosis  
Jerry A. Nick and Claire E Wainwright
- Ch 26 Fungal diseases in CF  
Carsten Schwarz
- Ch 27 Molecular microbiology of the CF gut and lung  
Sarath Ranganathan
- Ch 28 Pulmonary Exacerbations in Cystic Fibrosis: Epidemiology, Treatment, Outcomes, and Future Research  
Don B. Sanders and Natalie E. West
- Ch 29 Infection Prevention and Control in Cystic Fibrosis  
Charles S. Haworth and R. Andres Floto
- Ch 30 Technology in Cystic Fibrosis Therapies  
Christina M. Mingora and Patrick A. Flume
- Ch 31 Upper Airway Disease in Cystic Fibrosis  
Cassie Shipp, John Brewington, Daniel Beswick and Raouf Amin
- Ch 32 Gastrointestinal Disease in CF  
Zachary M. Sellers and Michael Wilschanski
- Ch 33 Cystic Fibrosis Liver Disease  
Julia M Boster and Michael R Narkewicz
- Ch 34 Cystic Fibrosis-Related Diabetes  
Melissa S. Putman, Sarah Collins and Kara S Hugan
- Ch 35 Growth in Cystic Fibrosis: Is chloride transport the key?  
Michael S Stalvey
- Ch 36 Bone Disease in Cystic Fibrosis  
Peter Simm

- Ch 37 Cancer and cystic fibrosis  
Daniel Peckham and Rebecca Birch
- Ch 38 Other cystic fibrosis-related diseases and complications  
Michal Shteinberg, Mirjam Stahl
- Ch 39 Extrapulmonary benefits of the new CFTR modulator drugs  
Nicole Green, Lina Merjaneh, Steven D. Freedman and Margaret Rosenfeld
- Ch 40 Sexual health, fertility, and pregnancy in people with cystic fibrosis  
Raksha Jain, Susan M Sawyer and Malena Cohen-Cymerknoh
- Ch 41 Mental Health Issues in Cystic Fibrosis  
Janice Abbott and Trudy Havermans
- Ch 42 Adherence and Self-Management in Cystic Fibrosis Care  
Gregory Sawicki
- Ch 43 Transplantation  
Siddhartha G. Kapnadak and Kathleen J. Ramos
- Ch 44: Working with cystic fibrosis  
Scott C. Bell, Beth S. Sufian and James A. Passamano
- Ch 45 Growing Old with Cystic Fibrosis  
Andrew M Jones
- Ch 46 Imaging of Cystic Fibrosis Lung Disease  
Harm AWM Tiddens, Marcel van Straten, Mirjam Stahl and Pierluigi Ciet
- Ch 47 Lung function testing including Multiple Breath Washout  
Author: Paul D Robinson
- Ch 48 Infant Pulmonary Function Tests  
Lucy Perrem, Stephanie D Davis
- Ch 49 Exercise testing in cystic fibrosis  
Don Urquhart and Thomas Radtke
- Ch 50 Bronchoscopy and bronchoalveolar lavage in cystic fibrosis  
Isaac Martin and Felix Ratjen
- Ch 51 Patient-derived cell-based models for therotyping and individual CFTR modulator assessment  
Shannon M.A Smits, Lisa W. Rodenburg, Gimano D. Amatngalim and Jeffrey M. Beekman
- Ch 52 Minimally Invasive Investigations for Biomarkers of Airways Disease  
Joshua D. Chandler and Charles R. Esther Jr
- Ch 53 Current And Future Interventional Trial Designs To Support The Cf Therapeutic Pipeline  
Nicole Mayer-Hamblett and Bradley Quon
- Ch 54 Gene and RNA-based therapies  
Marie E Egan and Patrick T Harrison

Ch 55 Cystic fibrosis in limited resource settings

Silva Filho LVRF, Marco Zampoli<sup>2</sup>, Malena Cohen-Cymerknoh<sup>3</sup>, Sushil K Kabra

Ch 56 Traveling With Cystic Fibrosis

Meg Dvorak, Lcsw & Kate Yablonsky, Lcsw

Ch 57 Organisation of Cystic Fibrosis Centre Care

A Whitney Brown and Bruce C. Marshall

Ch 58 The role of the CF nurse specialist

Paula Lomas, Niccola Burke and Jill Fliege

Ch 59 Physiotherapy

Eleanor Main, Emma Dixon, Nicky Murray

Ch 60 The role of the Dietitian

Inês Asseiceira, Chris Smith and Joaquim Calvo-Lerma

Ch 61 The role of the pharmacist as part of the multidisciplinary team caring for CF patients

Martin J. Hug, Ph.D.

Ch 62 The Role of a Psychologist on the Cystic Fibrosis Care Team

Christina Jayne Bathgate, Sonia Graziano and Emily Muther

Ch 63 Adolescent Health and Transition in Cystic Fibrosis

Ryan Perkins, Gregory S. Sawicki and Traci M. Kazmerski

Ch 64 Palliative and supportive care

Stephen J. Bourke and Rachel Quibell

Ch 65 Using registries & databases to drive up quality

Oliver J. McElvaney and Christopher H. Goss

Ch 66 Digital Transformations within CF Healthcare

Tamara Vagg, Kevin F Deasy and Barry J Plant

Ch 67 Personalized Medicine for Cystic Fibrosis in the 21st Century

Kris De Boeck and Margarida D Amaral

Ch 68 CF Research Priorities for the Future

Jan-Christoph Thomassen, John Sheridan, Silke van Koningsbruggen-Rietschel, JP Clancy
