

Section 1 Operating Room, Equipment and Monitoring

1. Medical Gas Supply
2. Electricity in the Operating Room
3. Operating Room Fires
4. Vaporizers
5. Carbon-Dioxide Absorption
6. Carbon-Dioxide Retention and Capnography
7. Tracheal Tubes
8. Complications of Tracheal Intubation
9. Disconnect Monitors
10. Pulse Oximetry
11. Hemodynamic Monitoring
12. Monitoring Integrity of the Neuromuscular Junction
13. Evoked Potential Monitoring and Electromyography

Section 2: Physiology

14. Oxygen Transport
15. Blood Gas Temperature Correction
16. Central Regulation of Ventilation
17. Physiologic Effects of Hypercarbia and Hypocarbica
18. Factors Affecting Pulmonary Compliance and Airway Resistance
19. Pulmonary Ventilation and Perfusion
20. Pulmonary Function Test Interpretation
21. Chronic Obstructive Pulmonary Disease and Restrictive Lung Disease
22. Measurement and Implications of the $\dot{Q}$'s/ $\dot{Q}$ 't
23. Cardiac Cycle: Control and Synchronicity
24. Physiologic Determinants of Cardiac Output
25. Myocardial Oxygen Supply and Demand
26. Tachyarrhythmias

- 27. Bradyarrhythmias
- 28. The Autonomic Nervous System
- 29. The Parasympathetic Nervous System: Anatomy and Receptor Pharmacology
- 30. Factors Affecting Cerebral Blood Flow
- 31. Physiology of Neuromuscular Transmission
- 32. Renal Physiology
- 33. Renal Function Tests
- 34. Acid-Base Status
- 35. Electrolyte Abnormalities: Potassium, Sodium, Calcium and Magnesium
- 36. Hepatic Physiology and Preoperative Evaluation
- 37. Mechanisms of Hepatic Drug Metabolism and Excretion

Section 3: Anatomy

- 38. Anatomy of the Larynx
- 39. Coronary Circulation and the Myocardial Conduction System
- 40. Transesophageal Echocardiography: Anatomic Considerations
- 41. Cerebral Circulation
- 42. Spinal Cord Anatomy and Blood Supply
- 43. Brachial Plexus Anatomy

Section 4: Pharmacology

- 44. Molecular and Cellular Mechanisms of Anesthesia
- 45. Factors Affecting Anesthetic Gas Uptake
- 46. Minimum Alveolar Concentration
- 47. The Effect of Intracardiac Shunts on Inhalation Induction
- 48. Inhalation Anesthetic Agents
- 49. Nitrous Oxide
- 50. Cardiovascular Effects of the Inhalation Agents
- 51. Central Nervous System Effects of the Inhalation Agents
- 52. Renal Effects of the Inhalation Agents

- 53. Hepatic Effects of the Inhalation Agents
- 54. Propofol
- 55. Etomidate
- 56. Ketamine
- 57. Opioid Pharmacology
- 58. Succinylcholine Side Effects
- 59. Nondepolarizing Neuromuscular-Blocking Agents
- 60. Nonrelaxant Side Effects of Neuromuscular-Blocking Agents
- 61. Anticholinesterases and the Reversal of Neuromuscular-Blocking Agents
- 62. Sugammadex
- 63. The Pharmacology of Atropine, Scopolamine and Glycopyrrolate
- 64. Benzodiazepines
- 65. Dexmedetomidine
- 66. Inotropes
- 67. Vasopressors
- 68. Vasodilators
- 69. Nitroglycerin
- 70. Beta-adrenergic Receptor-Blocking Agents
- 71. Calcium Channel Blockers
- 72. Renin-Angiotensin-Aldosterone-Receptor Inhibition
- 73. Bronchodilators
- 74. Sodium Bicarbonate
- 75. Monoamine Oxidase Inhibitors
- 76. Nonsteroidal Antiinflammatory Drugs
- 77. Antiemetics
- Section 5: Colloids and Blood Products
- 78. Albumin, Hetastarch and Pentastarch
- 79. Type, Screen, and Crossmatch of Red Blood Cells

80. Red Blood Cell and Platelet Transfusion

81. Massive Transfusion

82. Hemolytic Transfusion Reactions

83. Nonhemolytic Transfusion Reactions

84. Blood Product Conservation

Section 6: Preoperative and Postoperative

85. Preoperative Evaluation of the Patient with Cardiac Disease for Noncardiac Operations

86. Tobacco Use in Surgical Patients

87. Obstructive Sleep Apnea

88. Postoperative Nausea and Vomiting

89. Acute and Chronic Alcoholism and Anesthesia

90. Latex Allergy

91. The Evaluation and Management of Prolonged Emergence from Anesthesia

92. Delirium in the Postanesthesia Care Unit

Section 7A: Specialty Anesthesia: Regional Anesthesia

93. Local Anesthetic Agents: Mechanism of Action and Pharmacology

94. Toxicity of Local Anesthetic Agents

95. Regional Analgesia Adjuvants, Liposomal Bupivacaine

96. Multimodal Analgesia

97. Needle Blocks of the Eye

98. Spinal Anesthesia

99. Epidural Anesthesia

100. Combined Spinal-Epidural Blockade

101. Neuraxial Anesthesia and Anticoagulation

102. Upper Extremity Peripheral Nerve Blocks

103. Paravertebral Blocks and Truncal Blocks

104. Lower Extremity Peripheral Nerve Blocks

105. Peripheral Nerve Blocks at the Ankle

106. Tranexamic Acid Use in Orthopedic Surgery

107. Basic of U/S Guided Regional Anesthesia

Section 7B. Specialty Anesthesia: Neuroanesthesia

108. Cerebral Protection

109. Increased Intracranial Pressure

110. Functional Neurosurgery

111. Anesthesia for Awake Intracranial Surgery

112. Management of Cerebral Aneurysms

113. Anesthesia for Hypophysectomy

114. Anesthesia for the Sitting Position

115. Physiology and Treatment of Venous Air Embolism

116. Perioperative Implications of Caring for Patients with Epilepsy

117. Effects of common anesthetic agents on electroencephalograms

118. Anesthesia for Carotid Endarterectomy

119. Management of Acute Spinal Cord Injury

120. Major Reconstructive Spine Procedures: Anesthesia Considerations

Section 7C: Specialty Anesthesia: Cardiac

121. Detection and Treatment of Perioperative Acute Coronary Syndromes

122. Heart Failure: Classification, Compensation and Treatment

123. Rt Heart Failure, Tricuspid and Pulmonary Valve Pathology

124. Management of End-Stage Cardiomyopathy: Transplant Vs. Ventricular Assist Device

125. Coronary Stents

126. Cardiopulmonary Bypass

127. Off-Pump Coronary Artery Bypass and Minimally Invasive Direct Coronary Artery Bypass

128. Evaluation of the Coagulation System

129. Anticoagulation and Reversal for Cardiopulmonary Bypass

130. Aortic Stenosis

131. Mitral Regurgitation

132. Percutaneous Approaches to Valvular Disease: Transcatheter Aortic Valve Replacement (TAVR) and Transcatheter Mitral Valve Repair (TMVR)

133. Pacemakers

134. Automatic Internal Cardiac Defibrillators

135. Intraaortic Balloon Pump

136. Extracorporeal Membrane Oxygenation

137. Cardiovascular Opioids

Section 7D: Specialty Anesthesia: Thoracic

138. Intraoperative Wheezing: Etiology and Treatment

139. Anesthesia for Bronchoscopy

140. Double-Lumen Tracheal Tubes

141. One-Lung Ventilation and Methods of Improving Oxygenation

142. Bronchopleural Fistula

143. High-Frequency Ventilation: Physics, Physiology and Clinical Application Concept of High-Frequency Ventilators

144. Thoracotomy Pain Management

Section 8: Multispecialty Anesthesia: General Urologic ENT

145. Thermoregulation and Perioperative Hypothermia

146. The Anesthesiologist's Role in the Prevention of Surgical Site Infections

147. Anesthesia in the Patient with Extreme Obesity

148. Anesthetic Considerations for Weight Loss Surgery

149. Anesthetic Management of the Patient Undergoing Transurethral Resection of the Prostate

150. Extracorporeal Shock Wave Lithotripsy

151. Anesthesia for Laryngeal Surgery

152. Management of the Difficult Airway

153. Enhanced Recovery Pathways (ERAS)

Section 9: Anesthesia for Unique Situations

154. Monitored Anesthesia Care

155. Anesthesia for Patients Undergoing MRI Studies

- 156. Anesthesia for Patients Undergoing Electroconvulsive Therapy
- 157. Anesthesia for Patients with Myasthenia Gravis or Myasthenic Syndrome
- 158. Anesthesia for Endoscopic Procedures
- 159. Non-OR Anesthesia (Endo, Neuroradiology, Cath Lab)
- 160. Neurointerventional Radiology
- 161. Anesthesia for Patients with Diabetes Mellitus
- 162. Anesthesia for Patients with Thyrotoxicosis and Thyroid Storm
- 163. Anesthesia for Patients with Rheumatoid Arthritis
- 164. Anesthesia for Patients with Carcinoid Tumors
- 165. Anesthesia for Patients with Hepatocellular Disease
- 166. Anesthesia for the Patient Undergoing Liver Transplantation
- 167. Autonomic Dysreflexia

Section 10: Obstetric Anesthesia

- 168. Maternal Physiologic Changes in Pregnancy
- 169. Fetal Monitoring
- 170. Analgesia for Labor
- 171. Opioid Dependence and the Parturient
- 172. Preterm Labor: Tocolytics and Anesthetic Management
- 173. Hypertensive Disorders During Pregnancy and Related Syndromes
- 174. Anesthesia for Cesarean Section
- 175. Non-Obstetric Surgery in Pregnancy
- 176. Anesthesia for Fetal Surgery
- 177. Anesthesia for External Cephalic Version
- 178. Peripartum Hemorrhage
- 179. Anesthesia for Tubal Ligation
- 180. Maternal Diabetes: Neonatal Effects

Section 11: Pediatric Anesthesia

- 181. Impact of Anesthesia on Neural Development

- 182. Anesthetic Risks Associated with Prematurity
- 183. Meconium Aspiration and Meconium Aspiration Syndrome
- 184. Risks of General Anesthesia and Sedation Drugs in a Pediatric Patient
- 185. Neonatal Cardiovascular Physiology
- 186. Differences Between the Infant and Adult Airway
- 187. Fluid Management in Infants
- 188. Neuromuscle-Blocking Agents in Infants
- 189. Congenital Diaphragmatic Hernia
- 190. Congenital Pediatric Airway Problems
- 191. Congenital Heart Disease: Congestive Heart Failure
- 192. Other Neonatal Emergencies: Tracheo-Esophageal Fistula, Omphalocele
- 193. Neonatal Resuscitation
- 194. Pyloric Stenosis
- 195. Pediatric Breathing Circuits
- 196. Croup Versus Epiglottitis
- 197. Sickle-Cell Anemia: Anesthetic Implications
- 198. Anesthesia for Patients with Trisomy 21 (Down Syndrome)
- 199. Pediatric Neuromuscular Disorders
- 200. Anesthesia for Patients with Myotonic Dystrophy
- 201. Regional Anesthesia and Pain Relief in Children

Section 12: Pain Medicine

- 202. Preemptive Analgesia and Postoperative Pain: The Transition from an Acute to A Chronic State
- 203. Perioperative Management of the Opioid Tolerant Patient
- 204. Patient-Controlled Analgesia
- 205. Neuraxial Opioids
- 206. Complex Regional Pain Syndrome
- 207. Postoperative Headache
- 208. Treatment of Cancer Related Pain

- 209. Postherpetic Neuralgia
- 210. Epidural Steroid Injection for Low Back Pain
- 211. Stellate Ganglion Block
- 212. Lumbar Sympathetic Blockade
- 213. Celiac Plexus Block
- 214. Spinal Cord Stimulation

Section 13: Critical Care Medicine

- 215. Hyperbaric Oxygen Therapy
- 216. Perioperative Glucose Control
- 217. Acute Lung Injury and Acute Respiratory Distress Syndrome
- 218. Pulmonary Hypertension
- 219. Management of Stroke
- 220. Acute Renal Failure
- 221. Systemic Inflammatory Response
- 222. Anesthesia for burn-injured patients

Section 14: Risk Management

- 223. Medical Ethics
- 224. Medicolegal Principles: Informed Consent
- 225. Medicolegal Principles: Medical Negligence
- 226. The ASA Closed Claims Project
- 227. Depth of Anesthesia
- 228. Patient Safety and Quality Management
- 229. Perioperative Pulmonary Aspiration
- 230. Eye and Dental Complications
- 231. Intraoperative Patient Positioning and Positioning Complications
- 232. Malignant Hyperthermia
- 233. Anaphylactic and Anaphylactoid Reactions
- 234. Central Line Safety

Section 15: Practice Management

235. ASA Practice Parameters

236. Value Based Payment Models

237. Perioperative Surgical Home

238. Licensure, Credentialing and Privileging

239. Board Certification, Recertification and Lifelong Learning

240. Professional Liability Insurance

241. Anesthesia Information Management Systems

242. Medical Coding and Payment Systems

243. Chemical Dependency in Anesthesia Personnel
