Foreword *vii*

Preface *ix*

About the Authors *xi*

Acknowledgments *xiii*

About the Companion Website *xiv*

SECTION I Foundational Concepts; Chapters 1–4 1

- 1 The Treatment of Periodontal Disease: The Shift from “SRP” to “Periodontal Debridement” 3
- 2 Comparison of Periodontal Debridement Instrumentation Modalities 22
- 3 Maintenance of Dental Implants 33
- 4 Patient Assessment 48

SECTION II Ultrasonic Technology, Chapters 5–7 71

- 5 What Is Ultrasonic Instrumentation? 73
- 6 Ultrasonic Tip Design and Selection 94
- 7 Aerosol Management 115

SECTION III Clinical Application, Chapters 8–11 129

- 8 Ultrasonic Instrumentation Technique 131
- 9 Ultrasonic Instrumentation Clinician–Patient Positioning 155

10 Ultrasonic Instrumentation Technique Modules 186

11 Case Studies in Ultrasonic Debridement 226

Index 248
