

**Features:**

- New chapters cover diabetes and foot reconstruction; expands and updates coverage of lymphedema and gender affirmation surgery; and coverage throughout includes new, pioneering translational work shaping the future of trunk and lower extremity surgery.
- New digital video preface by Dr. Peter C. Neligan addresses the changes across all six volumes.
- New treatment and decision-making algorithms added to chapters where applicable.
- New video lectures and editor-narrated slide presentations offer a step-by-step audiovisual walkthrough of techniques and procedures.
- Evidence-based advice from an expanded roster of international experts allows you to apply the very latest advances in trunk and lower extremity surgery and ensure optimal outcomes.
- Purchase this volume individually or own the entire set, with the ability to search across all six volumes online!
- An eBook version is included with purchase. The eBook allows you to access all of the text, figures and references, with the ability to search, customize your content, make notes and highlights, and have content read aloud.

**Περιεχόμενα:****Lower Extremity, Trunk and Burns**

- 1 Comprehensive lower extremity anatomy
- 2 Management of lower extremity trauma

**Section I: Lower Extremity Surgery**

- 3.1 Lymphedema: introduction and editors' perspective
- 3.2 Imaging modalities for diagnosis and treatment of lymphedema
- 3.3 Lymphaticovenular bypass
- 3.4 Vascularized lymph node transplant
- 3.5 Debulking strategies and procedures: liposuction of leg lymphedema
- 3.6 Debulking strategies and procedures: excision
- 4 Lower extremity sarcoma reconstruction
- 5 Reconstructive surgery: lower extremity coverage
  - 6.1 Diagnosis, treatment, and prevention of lower extremity pain
  - 6.2 Targeted muscle reinnervation in the lower extremity
  - 6.3 Lower extremity pain: regenerative peripheral nerve interfaces
- 7 Skeletal reconstruction
- 8 Foot reconstruction
  - 9.1 Diabetic foot: introduction
  - 9.2 Diabetic foot: management of wounds and considerations in biomechanics and amputations
  - 9.3 Diabetic foot: management of vascularity and considerations in soft-tissue reconstruction

**Section II: Trunk, Perineum, and Transgender**

- 10 Trunk anatomy
- 11 Reconstruction of the chest
- 12 Reconstruction of the posterior trunk
- 13 Abdominal wall reconstruction
  - 14.1 Gender confirmation surgery: diagnosis and management
  - 14.2 Gender confirmation surgery, male to female: vaginoplasty
  - 14.3 Gender affirmation surgery, female to male: phalloplasty; and correction of male genital defects
  - 14.4 Breast, chest wall, and facial considerations in gender affirmation
- 15 Reconstruction of acquired vaginal defects

- 16 Pressure sores
- 17 Perineal reconstruction

**Section III: Burn Surgery**

- 18 Burn, chemical, and electrical injuries
  - 19 Extremity burn reconstruction
  - 20 Management of the burned face and neck
  - 21 Pediatric burns
- Index
