

**Features:**

- **In-depth coverage of expert care delivery in transport** meets the needs of all healthcare providers including registered nurses, paramedics, physicians, respiratory therapists, pilots, mechanics, and communication specialists.
- **Real-life scenarios** demonstrate how to apply concepts to situations similar to those seen in practice.
- **Information on important safety regulations** is based on the latest updates from the Federal Aviation Association and the National Transportation Safety Board.
- **Coverage of injuries commonly encountered in flight and ground nursing** includes discussions of pathophysiology, assessment, planning, implementation, and evaluation.
- **Detailed coverage of management issues** include scene management, communication, safety, disaster management/triage, quality management, and marketing/public relations.
- **Focus on interprofessionalism and collaboration** emphasizes the importance of teamwork in ensuring successful patient outcomes.
- **Evolve website** includes 350 questions and answers mapped to the CRFN®/CTRN® exams for additional preparation.

**New To This Edition:**

- **NEW! New *Aviation for Medical Personnel* chapter** is written from the perspective of a veteran transport pilot, and provides valuable information on the idiosyncrasies, tips, and tricks about transport aircraft transport.
- **NEW! Updated and new content on diversity and inclusion** covers this timely issue — both among colleagues and patients.
- **NEW! Additional information on technology used in transport nursing/critical care** includes topics such as point-of-care ultrasound (POCUS).
- **NEW! Content on COVID-19** as it relates to trauma transport is included.
- **NEW! More philosophical, psychological, and wellness-associated content** is added.

**Περιεχόμενα:****SECTION I History and the Current Role of Air and Ground Transport Personnel**

- 1 History of Patient Transport
- 2 Members of the Transport Team and Preparation for Practice
- 3 Aviation for Medical Personnel
- 4 Military Patient Transport

**SECTION II General Principles of Practice**

- 5 Transport Physiology
- 6 Scene Operations and Safety
- 7 Communications
- 8 Teamwork and Human Performance
- 9 Patient Safety
- 10 Operational Safety and Survival

**SECTION III Patient Care Principles**

- 11 Patient Assessment
- 12 Airway Management
- 13 Mechanical Ventilation
- 14 Shock

**SECTION IV Trauma**

- 15 General Principles of Trauma Management

- 16 Neurologic Trauma
- 17 Thoracoabdominal Trauma
- 18 Musculoskeletal and Soft Tissue Trauma
- 19 Burn Trauma
- 20 Point-of-Care Ultrasound

**SECTION V Professional Issues**

- 21 Legal and Professional Issues in Critical Care Transport
- 22 Quality
- 23 Accreditation for Air and Ground Medical Transport
- 24 Mental Health and Wellness for the Provider
- 25 Post-Incident and Emergency Response Planning
