## Preface

In recent years, the field of injection therapy for the treatment of pathologies in joints has witnessed remarkable advancements, particularly in combination with orthobiologics. These innovations have transformed the way we diagnose and treat various musculoskeletal conditions, providing patients with new hope and improved outcomes. It is with great pleasure that ESSKA U45 Committee and ORBIT introduce this comprehensive book, which serves as an essential guide to these front-line techniques and therapies specially for young orthopedics and sports medicine specialists.

*Musculoskeletal Injections Manual: Basics, Techniques and Injectable Agents* is a testament to the collective expertise and dedication of the appreciated authors who have contributed their knowledge and experiences to this remarkable resource. As a multidisciplinary field, injection therapies rely on the collaboration of specialists from various fields, including orthopedics, sports medicine, and basic science. This book brings together the insights of these experts, providing a comprehensive and confident reference for especially young surgeons.

The book encompasses a wide range of topics, covering the fundamental principles and techniques of musculoskeletal injections, orthobiologics, and their usage. From basic concepts to advanced procedures, the surgeons will find detailed discussions on joint injections and regenerative therapies. The integration of orthobiologics, such as platelet-rich plasma (PRP), cell-based, and blood-derived products, adds another dimension to the field, offering innovative approaches to tissue healing and regeneration.

What sets this book apart is its emphasis on evidence-based practice. Each chapter combines the authors' clinical experience with the latest scientific research, ensuring that readers have access to the most up-to-date information and treatment recommendations. Additionally, the book includes practical tips, step-by-step procedural guidelines, and illustrative figures, enabling clinicians to apply these techniques with confidence and exactness.

Whether you are young surgeon who is seeking to improve your skills or a novice exploring the world of musculoskeletal medicine, this book will prove to be an invaluable resource. It serves as a comprehensive reference for sports medicine doctors, surgeons, physical therapists, and other healthcare professionals involved in the management of musculoskeletal conditions. By incorporating the latest advancements and emerging therapies, this book enables clinicians to provide optimal care to their patients, improving their quality of life and functional outcomes.

As ESSKA U45 Committee and ORBIT, we would like to express our deepest appreciation to the authors for their dedication to advancing the field of musculoskeletal medicine and for sharing their expertise through this remarkable publication. We are confident that *Musculoskeletal Injections Manual: Basics, Techniques and Injectable Agents* will become an essential publication for young surgeons who are motivated to deliver the best possible care in the scene of sports traumatology.

# Contents

## Part I Basics of Musculoskeletal Injections

- 1 Philosophy of Musculoskeletal Injections** . . . . . 3  
Behiç Çelik and Gökhan Meriç
- 2 The Evidence-Based Medicine for Injection Therapy** . . . . . 9  
Marko Ostojic
- 3 Contraindications and Potential Side Effects of Injections** . . . . . 15  
Riccardo Compagnoni, Rossella Ravaglia, and Pietro Randelli
- 4 Informing Patients** . . . . . 21  
Daniel Pérez-Prieto, Ana Soria, Marta Torruella,  
and Narcís Pérez de Puig
- 5 Sterilization and Injection Materials** . . . . . 25  
F. De Filippo and Maristella F. Saccomanno
- 6 Things to Take into Consideration in Injection  
and Aspiration** . . . . . 29  
Thorkell Snaebjörnsson
- 7 Postinjection Care and Education** . . . . . 33  
Thorkell Snaebjörnsson

## Part II Non Biologic Agents for Injections

- 8 Corticosteroids and Local Anesthetics** . . . . . 39  
Matthieu Ollivier and Ahmed Mabrouk
- 9 Viscosupplementation Agents** . . . . . 45  
Camila Grandberg, Svenja Höger, and M. Enes Kayaalp
- 10 Radiosynovectomy** . . . . . 53  
Goksel Dikmen, Vahit Emre Ozden, and Kayahan Karaytug
- 11 Deproteinized Hemoderivative of Calf Blood-Natural  
Botanical and Mineral Extracts** . . . . . 59  
Berhan Bayram and Baris Kocaoglu

### Part III Ortho-biologic Agents for Injections

- 12 Orthobiologics: Background** ..... 67  
Paola De Luca, Michela Maria Taiana, and Laura de Girolamo
- 13 Platelet-Rich Plasma for Osteoarthritis** ..... 73  
Trifon Totlis and Angelo V. Vasiliadis
- 14 Platelet-Rich Plasma Treatment for Meniscal Tears** ..... 81  
Yosef Sourugeon, Yaniv Yonai, Yaron Berkovich,  
and Lior Laver
- 15 PRP in Tendinopathy** ..... 85  
Ferran Abat, Ignacio De Rus Aznar, Federico Ibañez,  
and Charlotte Raflé
- 16 Platelet-Rich Plasma (PRP) for Rotator Cuff Tears** ..... 91  
Ron Gilat, Ilan Y. Mitchnik, Derrick Knapik, Grant Garrigues,  
Nikhil Verma, and Brian J. Cole
- 17 Platelet-Rich Plasma Treatment for Muscle Injuries** ..... 99  
Yosef Sourugeon, Yaniv Yonai, Yaron Berkovich,  
and Lior Laver
- 18 Bone Marrow Aspirate Concentrates for Knee OA** ..... 105  
Peter A. Everts, Ignacio Dallo, José Fábio Lana,  
and Luga Podesta
- 19 Fat-Derived Orthobiologics for Knee OA** ..... 117  
Peter A. Everts, Raphael Barnabe, Luga Podesta,  
and Rowan Paul
- 20 Autologous Conditioned Serum (ACS)** ..... 127  
Tahsin Beyzadeoglu and Onur Cetin
- 21 Alpha-2-Macroglobulin Concentrate as Orthobiologic  
in Osteoarthritis** ..... 133  
Peter A. Everts, Luga Podesta, José Fábio Lana,  
Gayan Poovendran, Gabriel Silva Santos,  
and Stephany Cares Huber

### Part IV Injections of Anatomical Regions and Diseases

- 22 Injections of Anatomical Regions and Diseases: Shoulder** ..... 143  
Mocini Fabrizio, Candura Dario, Proietti Lorenzo,  
Ciolli Gianluca, Brancaccio Vincenzo, and Cerciello Simone
- 23 Injections of Anatomical Regions and Diseases: Elbow** ..... 155  
Eduard Alentorn-Geli and Jorge Ramírez Haua

- 
- 24 Injections of Anatomical Regions and Diseases:  
Wrist and Hand** ..... 167  
Gamli Alper and Gereli Arel
- 25 Injections of Anatomical Regions and Diseases: Hip** ..... 183  
Bruno Capurro, Francesco Vecchi,  
Beatriz Álvarez de Sierra, Alex Ortega,  
Laura Gimeno-Torres, and Eva Llopis
- 26 Injections of Anatomical Regions and Diseases: Knee** ..... 201  
Sarper Gursu, Ahmet Sukru Mercan, Anil Erbas,  
Serda Duman, and Ozgur Ismail Turk
- 27 Injections of Anatomical Regions and Diseases:  
Ankle and Foot** ..... 211  
Tekin Kerem Ulku and Berhan Bayram
