1	General Introduction to Canine and Feline Parasitic Diseases	1
	<i>Sanweer Khatoon</i>	
1.1	Introduction	1
1.2	Type of Intestinal Parasites	5
1.3	Diagnosis, Treatment, and Prevention	6
1.4	Control	6
1.5	Internal Parasites	6
1.6	General Measures for the Prevention of Worm Infections	8
1.7	Anti-helminthics and Deworming Guidelines	9
	References	9
2	Symbiosis and Parasitism in Dogs and Cats	11
	<i>Adedayo M. Awoniyi</i>	
2.1	Introduction	11
2.2	Examples of Dog and Cat Parasites	14
2.2.1	Factors Predisposing Dogs and Cats to Parasitic Infections	15
2.2.2	Effect of Parasitism in Dogs and Cats and Possible Spillover Effects on Humans	16
2.2.3	Prevention of Parasitic Infections in Dogs and Cats	17
2.3	Recommendations and Conclusion	18
	References	18
3	Risk Factors Associated with Parasitic Diseases in Dogs and Cats	19
	<i>Baleshwari Dixit, Rinesh Kumar, Alok K. Dixit, and Alok K. Singh</i>	
3.1	Introduction	19
3.2	Intrinsic Factors	21
3.3	External Factors	22
3.3.1	Management Factors	23
3.3.2	Life Style and Social Behavior	26
3.3.3	Environmental Factors	27
3.4	Control	28
	References	29
4	Host-Parasite-Microbiome Interactions in Dogs and Cats	31
	<i>Furqan Munir, Amna Shakoor, Muhammad Tahir Aleem, and Zia ud Din Sindhu</i>	
4.1	Introduction	31
4.2	Microbiome of Parasites	32

4.3	The Microbiome of Dogs and Cats	32
4.4	Microbiomes and Helminths in the Guts of Dogs and Cats	33
4.5	Microbiota-mediated Protection	33
4.5.1	Internal Environment Resources	34
4.5.2	Immune Response	34
4.5.3	Continuum of Parasitism–Mutualism	34
4.6	Why Do We Need to Study the Microbiota?	36
4.7	Future Perspectives	37
4.8	Conclusion	37
	Acknowledgments	37
	References	37

5 *Linguatula serrata* Worm Infections in Dogs and Cats 41

V. G. Charitha, C. Sreedevi, V. C. Rayulu, and P. M. Kondaiah

5.1	Introduction	41
5.2	Taxonomy	41
5.3	Historical Perspective	42
5.3.1	First Period	42
5.3.2	Second Period	42
5.3.3	Third Period	43
5.3.4	Fourth Period	43
5.3.5	Fifth Period	43
5.4	Incidence and Geographical Distribution	43
5.4.1	Definitive Hosts (Dogs/Cats)	43
5.4.2	Humans	43
5.4.3	Intermediate Hosts (Ruminants)	43
5.5	Morphology	43
5.5.1	Adult Worm	45
5.5.2	Egg	45
5.5.3	Nymph	45
5.6	Life Cycle	46
5.7	Pathogenesis and Clinical Signs	46
5.7.1	In the Definitive Host	46
5.7.2	In the Intermediate Host	47
5.7.3	In Humans (Zoonotic/Public Health Implications)	47
5.7.3.1	Visceral Linguatulosis	48
5.7.3.2	Nasopharyngeal Linguatulosis	48
5.8	Diagnosis	48
5.9	Treatment and Control	48
	References	49

6 *Annelida* Infestations in Dogs and Cats 53

Hanumappa Dhanalakshmi

6.1	Leech Structure	53
6.2	Leech Organ Systems	53
6.2.1	Respiratory System	53
6.2.2	Circulatory System	53
6.2.3	Nervous System	53
6.2.4	Excretory System	53
6.3	Reproduction	53
6.3.1	Cocoon Assembly	53
6.4	Life Cycle	54

6.5	Leech Habitats	54
6.5.1	Terrestrial Leeches	54
6.5.2	Aquatic Leeches	54
6.6	Feeding	55
6.7	Morphological Characteristics of Leech Families	55
6.7.1	<i>Limnatis nilotica</i>	55
6.7.2	Praobdellidae	57
6.7.2.1	<i>Dinobdella ferox</i>	57
6.7.2.2	<i>Myxobdella fricana</i>	57
6.7.3	Haemadipsidae	57
6.7.3.1	<i>Phytobdella catenifera</i>	58
6.7.3.2	<i>Tritetrabdella taiwana</i>	58
6.7.4	<i>Theromyzon tessulatum</i>	58
6.8	Transmission	58
6.9	Pathogenesis	58
6.9.1	Dogs	58
6.9.2	Cats	58
6.10	Treatment	58
6.11	Control	59
	References	59

7 Insecta Infestations in Dogs and Cats 61

Anil Kumar, Tanmoy Rana, Sonam Bhatt, and Ankesh Kumar

7.1	Introduction	61
7.2	Diptera (Flies)	61
7.2.1	Nematocerans	62
7.2.1.1	Biting Midges	62
7.2.1.2	Blackflies	62
7.2.1.3	Sandflies	63
7.2.1.4	Mosquitoes	63
7.2.2	Cyclorrhaphans	63
7.2.2.1	House and Stable Flies	63
7.2.2.2	Blowflies	63
7.2.2.3	Forest Flies and Keds	64
7.2.2.4	Botflies	64
7.2.3	Brachycerans (Horseflies)	64
7.3	Phthiraptera (Lice)	64
7.4	Siphonaptera (Fleas)	65
7.5	Hemiptera (Bed Bugs)	67
7.6	Ticks and Mites	67
7.6.1	Ticks	67
7.6.2	Mites	68
	References	71

8 Acanthocephala Worm Infections in Dogs and Cats 73

Ramesh Putchakayala and Gurram S. Haritha

8.1	Origin and Classification	73
8.1.1	Taxonomical Classification of Acanthocephala Spp.	74
8.2	General Description	74
8.3	Developmental Stages	75
8.4	Acanthocephalans in Small Animals	75
8.4.1	<i>Macracanthorhynchus</i> Spp.	76

8.4.1.1	Life Cycle of <i>Macracanthorhynchus</i>	76
8.4.1.2	Clinical Presentation and Diagnosis	76
8.4.1.3	Treatment and Prevention	76
8.4.2	<i>Oncicola</i> spp.	77
	References	78

9 Tick-borne Diseases in Dogs and Cats 79

Ugochukwu F. Ogbodo

9.1	Babesiosis	79
9.1.1	Etiology	79
9.1.2	Epidemiology	79
9.1.3	Life Cycle	79
9.1.4	Clinical Signs and Pathology	80
9.1.4.1	Canine Babesiosis	80
9.1.4.2	Feline Babesiosis	80
9.1.5	Diagnosis	80
9.1.6	Treatment and Management of Babesiosis	80
9.1.6.1	Canine Babesiosis	80
9.1.6.2	Feline Babesiosis	81
9.2	Cytauxzoonosis	81
9.2.1	Etiology	81
9.2.2	Epidemiology	81
9.2.3	Life Cycle	81
9.2.4	Clinical Signs and Pathology	81
9.2.5	Diagnosis	81
9.2.6	Treatment and Management of Feline Cytauxzoonosis	81
9.3	Ehrlichiosis and Anaplasmosis	82
9.3.1	Etiology	82
9.3.2	Life Cycle	82
9.3.3	Epidemiology	82
9.3.4	Clinical Signs and Pathology	83
9.3.5	Diagnosis	83
9.3.6	Treatment and Management of Canine Ehrlichiosis and Anaplasmosis	84
9.4	Hemotropic Mycoplasmosis	84
9.4.1	Etiology	84
9.4.2	Epidemiology	84
9.4.3	Clinical Signs and Pathology	84
9.4.4	Diagnosis	84
9.4.5	Treatment and Management of Hemotropic Mycoplasmosis	85
9.5	Hepatozoonosis	85
9.5.1	Etiology	85
9.5.2	Life Cycle	85
9.5.3	Epidemiology	85
9.5.4	Clinical Signs and Pathology	85
9.5.5	Diagnosis	86
9.5.6	Treatment and Management	87
9.6	Lyme Borreliosis	87
9.6.1	Etiology	87
9.6.2	Epidemiology	87
9.6.3	Life Cycle	87
9.6.4	Clinical Signs and Pathology	87
9.6.5	Diagnosis	88

- 9.6.6 Treatment and Management 88
- 9.7 Rocky Mountain Spotted Fever 88
 - 9.7.1 Etiology 88
 - 9.7.2 Epidemiology 88
 - 9.7.3 Clinical Signs and Pathology 89
 - 9.7.4 Diagnosis 89
 - 9.7.5 Treatment and Management 89
 - References 90

10 Roundworm Infections in Dogs and Cats 93

J. Adeppa and V. Gnani Charitha

- 10.1 Introduction 93
- 10.2 Morphology 93
 - 10.2.1 Adult Worm 93
 - 10.2.2 Eggs 94
 - 10.2.3 Third-stage Larva 95
- 10.3 Life Cycle 95
 - 10.3.1 Tracheal Migration 96
 - 10.3.2 Somatic Migration 96
 - 10.3.3 Transplacental/Transmammary Routes 96
 - 10.3.4 Paratenic Host 96
 - 10.3.5 Zoonotic Implications 97
- 10.4 Clinical Findings and Lesions in Small Animals 97
- 10.5 Clinical Findings and Pathogenesis in Humans 97
 - 10.5.1 Visceral Larva Migrans 98
 - 10.5.2 Occular Larva Migrans/Occular Toxocariosis 98
 - 10.5.3 Covert Toxocariois 99
 - 10.5.4 Neural Toxocariosis 99
- 10.6 Diagnosis 99
- 10.7 Treatment 99
- 10.8 Prevention 99
- References 100

11 Tapeworm Infections in Dogs and Cats 101

Manoj K. Kalita, Gautam Bordoloi, and Prerona Patowary

- 11.1 Introduction 101
- 11.2 *Dipylidium* Tapeworms 101
 - 11.2.1 Life Cycle 102
 - 11.2.2 Pathogenesis and Clinical Presentation 102
 - 11.2.3 Diagnosis 102
 - 11.2.4 Treatment 102
 - 11.2.5 Control 102
- 11.3 *Taenia* Tapeworms of Dogs and Cats 102
 - 11.3.1 *T. multiceps* 104
 - 11.3.2 *T. pisiformis* 104
 - 11.3.3 *T. taeniaeformis* 104
 - 11.3.4 *T. ovis* 104
 - 11.3.5 *T. serialis* 104
 - 11.3.6 *T. crassiceps* 104
 - 11.3.7 Clinical Presentation of Taeniosis 104
 - 11.3.8 Diagnosis 104

11.3.9	Treatment and Prevention	105
11.4	<i>Echinococcus</i>	105
11.4.1	<i>E. granulosus</i>	105
11.4.1.1	Pathogenesis and Clinical Presentation	105
11.4.1.2	Diagnosis	105
11.4.1.3	Treatment	105
11.4.1.4	Control	105
11.4.1.5	Public Health Considerations	106
11.5	<i>Mesocostoides</i>	106
11.5.1	Pathogenesis and Clinical Presentation	107
11.5.2	Treatment	107
11.6	<i>Diphyllbothrium</i>	107
11.6.1	<i>Diphyllbothrium latum</i>	107
11.6.1.1	Pathogenesis and Clinical Presentation	108
11.6.1.2	Diagnosis	108
11.6.1.3	Treatment	108
11.6.1.4	Prevention and Control	108
11.6.2	<i>Spirometra mansonoides</i>	108
11.6.2.1	Pathogenesis and Clinical Presentation	108
11.6.2.2	Diagnosis	108
11.6.2.3	Treatment	109
	References	109

12 Fluke Infections in Dogs and Cats 111

Sanweer Khatoon, Afroz Jahan, Naresh Kumar, and Tikam Goyal

12.1	Introduction	111
12.2	Trematodes (Platyhelminthes, Flatworms, Flukes)	111
12.2.1	The Dicrocoelidae Family	111
12.2.1.1	Life Cycle	112
12.2.1.2	Pathogenesis	112
12.2.1.3	Treatment	112
12.2.1.4	Control	112
12.2.2	Intestinal Flukes I. <i>Nanophytus salmonicola</i> Infection	112
12.2.2.1	Etiology and Occurrence	112
12.2.2.2	Life Cycle	112
12.2.2.3	Clinical Features	112
12.2.2.4	Diagnosis	112
12.2.2.5	Treatment and Control	112
12.2.3	Intestinal Flukes II. <i>Alaria</i> Spp. Infections	112
12.2.3.1	Etiology and Occurrence	112
12.2.3.2	Life Cycle	112
12.2.3.3	Clinical Features	112
12.2.3.4	Diagnosis	112
12.2.3.5	Treatment and Control	113
12.2.4	Intestinal Flukes III. Usually Nonpathogenic Intestinal Flukes	113
12.2.5	<i>Heterobilharzia</i> Infection (Blood Fluke)	113
12.2.5.1	Etiology and Occurrence	113
12.2.5.2	Life Cycle	113
12.2.5.3	Clinical Features	113
12.2.5.4	Diagnosis	113
12.2.5.5	Treatment and Control	113
12.2.6	Hepatic Flukes	113
12.2.7	Lung Flukes (<i>Paragonimosis</i>)	113
12.2.7.1	Etiology and Occurrence	113

12.2.7.2	Life Cycle	113
12.2.7.3	Clinical Features	114
12.2.7.4	Diagnosis	114
12.2.7.5	Treatment and Control	114
12.2.7.6	Public Health Significance	114
12.2.8	Order of Distomes	114
12.2.8.1	Dicrocoeliidae	114
12.2.8.2	Heterophyidae	114
12.2.8.3	Troglorematidae	114
12.2.8.4	Echinostomatidae	114
12.2.8.5	Diplostomatidae	114
12.2.8.6	Eggs	115
12.2.8.7	Diagnosis	115
12.3	Host Associations and Transmission Between Hosts	115
12.4	Pathogenesis	115
12.5	Public Health Considerations	115
12.6	Conclusion	116
12.7	Recommended Treatments and Strategies	116
	References	117

13 Protozoan Infections in Dogs and Cats 119

Manoj K. Kalita and Prerona Patowary

13.1	Babesiosis (Piroplasmosis)	119
13.1.1	Epidemiology and Etiology	119
13.1.1.1	Canine Babesiosis	119
13.1.1.2	Feline Babesiosis	119
13.1.2	Life Cycle	119
13.1.3	Clinical Features	119
13.1.4	Diagnosis	120
13.1.5	Treatment and Control	120
13.2	Hepatozoonosis	120
13.2.1	Etiology and Epidemiology	120
13.2.2	Life Cycle	121
13.2.3	Clinical Features	121
13.2.4	Diagnosis	121
13.2.5	Treatment and Control	121
13.3	Cytauxzoonosis	121
13.3.1	Etiology and Epidemiology	121
13.3.2	Life Cycle	121
13.3.3	Clinical Features	121
13.3.4	Diagnosis	122
13.3.5	Treatment and Control	122
13.4	Trypanosomiasis	122
13.4.1	Etiology and Epidemiology	122
13.4.2	Life Cycle	122
13.4.3	Clinical Features	122
13.4.4	Diagnosis	123
13.4.5	Treatment of Trypanosomiasis in Dogs	123
13.5	Toxoplasmosis	123
13.5.1	Etiology and Epidemiology	123
13.5.2	Life Cycle	123
13.5.3	Clinical Characteristics	123
13.5.4	Diagnosis	124

13.5.5	Treatment and Control	124
13.6	Leishmaniasis	125
13.6.1	Etiology and Epidemiology	125
13.6.2	Geographic Distribution	125
13.6.3	Life Cycle	125
13.6.4	Clinical Features	125
13.6.5	Diagnosis	125
13.6.6	Treatment and Prevention	125
13.7	Neosporosis	125
13.7.1	Etiology and Epidemiology	125
13.7.2	Life Cycle	126
13.7.3	Clinical Characteristics	126
13.7.4	Diagnosis	126
13.7.5	Treatment and Control Management	126
13.8	Sarcocystosis	126
13.8.1	Etiology and Epidemiology	126
13.8.2	Life Cycle	126
13.8.3	Clinical Signs and Diagnosis	127
13.8.4	Treatment and Control	127
13.9	Trichomoniasis	127
13.9.1	Etiology	127
13.9.2	Life Cycle	127
13.9.3	Clinical Features	127
13.9.4	Diagnosis	127
13.9.5	Treatment	127
13.10	Intestinal Protozoa of Dogs and Cats	127
13.10.1	Giardiasis	127
13.10.1.1	Etiology	127
13.10.1.2	Life Cycle	128
13.10.1.3	Clinical Characteristics	128
13.10.1.4	Diagnosis	128
13.10.1.5	Treatment and Control	129
13.11	Coccidiosis (Isosporiasis)	129
13.11.1	Etiology	129
13.11.2	Life Cycle	129
13.11.3	Clinical Features	129
13.11.4	Diagnosis	129
13.11.5	Treatment and Control	129
13.12	Cryptosporidiosis	129
13.12.1	Etiology	129
13.12.2	Life Cycle	130
13.12.3	Clinical Characteristics	130
13.12.4	Diagnosis	130
13.12.5	Treatment and Control	130
