

## **SECTION 1 ANATOMY, EMBRYOLOGY, AND PHYSIOLOGY**

- 1.1 Embryology of the Skin
- 1.2 Normal Skin Anatomy
- 1.3 Normal Skin Histology
- 1.4 Skin Physiology: The Process of Keratinization
- 1.5 Normal Skin Flora
- 1.6 Vitamin D Metabolism
- 1.7 Photobiology
- 1.8 Wound Healing
- 1.9 Morphology: Lichenification, Plaques, and Fissures
- 1.10 Morphology: Macules, Patches, and Vesiculopustules

## **SECTION 2 BENIGN GROWTHS**

- 2.1 Acrochordon
- 2.2 Becker's Nevus (Smooth Muscle Hamartoma)
- 2.3 Dermatofibroma (Sclerosing Hemangioma)
- 2.4 Eccrine Poroma
- 2.5 Eccrine Spiradenoma
- 2.6 Eccrine Syringoma
- 2.7 Ephelides and Lentigines
- 2.8 Ephelides and Lentigines (Continued)
- 2.9 Epidermal Inclusion Cyst
- 2.10 Epidermal Nevus
- 2.11 Fibrofolliculoma
- 2.12 Fibrous Papule
- 2.13 Ganglion Cyst
- 2.14 Glomus Tumor and Glomangioma
- 2.15 Hidradenoma Papilliferum
- 2.16 Hidrocystoma
- 2.17 Keloid and Hypertrophic Scar
- 2.18 Leiomyoma
- 2.19 Lichenoid Keratosis
- 2.20 Lipoma
- 2.21 Median Raphe Cyst
- 2.22 Melanocytic Nevi: Blue Nevus
- 2.23 Melanocytic Nevi: Common Acquired Nevi and Giant Congenital Melanocytic Nevus
- 2.24 Melanocytic Nevi: Congenital Nevi
- 2.25 Milium Cyst
- 2.26 Neurofibroma
- 2.27 Nevus Lipomatosus Superficialis
- 2.28 Nevus of Ota and Nevus of Ito
- 2.29 Nevus Sebaceous
- 2.30 Osteoma Cutis
- 2.31 Palisaded Encapsulated Neuroma
- 2.32 Pilar Cyst (Trichilemmal Cyst)
- 2.33 Porokeratosis
- 2.34 Pyogenic Granuloma
- 2.35 Reticulohistiocytoma
- 2.36 Seborrheic Keratosis
- 2.37 Spitz Nevus

## **SECTION 3 MALIGNANT GROWTHS**

- 3.1 Adnexal Carcinoma
- 3.2 Angiosarcoma
- 3.3 Basal Cell Carcinoma: Basic Facial Anatomy
- 3.4 Basal Cell Carcinoma: Clinical and Histologic Evaluation
- 3.5 Bowen Disease

- 3.6 Bowenoid Papulosis
- 3.7 Cutaneous Metastases
- 3.8 Dermatofibrosarcoma Protuberans
- 3.9 Mammary and Extramammary Paget Disease
- 3.10 Kaposi Sarcoma
- 3.11 Keratoacanthoma
- 3.12 Melanoma: Mucocutaneous Malignant Melanoma
- 3.13 Melanoma: Metastatic Melanoma
- 3.14 Melanoma: Therapeutics
- 3.15 Merkel Cell Carcinoma
- 3.16 Mycosis Fungoides: Clinical Subtypes of Cutaneous T-Cell Lymphoma
- 3.17 Mycosis Fungoides: Histologic Analysis of Cutaneous T-Cell Lymphoma
- 3.18 Sebaceous Carcinoma
- 3.19 Squamous Cell Carcinoma: Genital Squamous Cell Carcinoma
- 3.20 Squamous Cell Carcinoma: Clinical and Histologic Evaluation

#### **SECTION 4 RASHES**

- 4.1 Acanthosis Nigricans
- 4.2 Acne: Vulgaris
- 4.3 Acne: Variants
- 4.4 Acne: Keloidalis Nuchae
- 4.5 Acute Febrile Neutrophilic Dermatitis (Sweet Syndrome)
- 4.6 Allergic Contact Dermatitis: Morphology
- 4.7 Allergic Contact Dermatitis: Patch Testing and Type IV Hypersensitivity
- 4.8 Atopic Dermatitis: Infants and Children
- 4.9 Atopic Dermatitis: Adolescents and Adults
- 4.10 Autoinflammatory Syndromes: Pathophysiology
- 4.11 Autoinflammatory Syndromes: Clinical Manifestations
- 4.12 Bug Bites: Brown Recluse Spiders and Scabies Mites
- 4.13 Bug Bites: Arthropods and Diseases They Carry
- 4.14 Calciphylaxis
- 4.15 Cutaneous Lupus: Band Test
- 4.16 Cutaneous Lupus: Systemic Manifestations of Systemic Lupus Erythematosus
- 4.17 Cutaneous Lupus: Manifestations
- 4.18 Cutis Laxa
- 4.19 Dermatomyositis: Manifestations
- 4.20 Dermatomyositis: Cutaneous and Laboratory Findings
- 4.21 Disseminated Intravascular Coagulation
- 4.22 Elastosis Perforans Serpiginosa
- 4.23 Eruptive Xanthomas: Congenital Hyperlipoproteinemia
- 4.24 Eruptive Xanthomas: Acquired Hyperlipoproteinemia
- 4.25 Erythema Ab Igne
- 4.26 Erythema Annulare Centrifugum
- 4.27 Erythema Multiforme, Stevens-Johnson Syndrome, and Toxic Epidermal Necrolysis
- 4.28 Erythema Multiforme, Stevens-Johnson Syndrome, and Toxic Epidermal Necrolysis (Continued)
- 4.29 Erythema Nodosum
- 4.30 Fabry Disease
- 4.31 Fixed Drug Eruption
- 4.32 Gout: Gouty Arthritis
- 4.33 Gout: Tophaceous Gout
- 4.34 Graft-Versus-Host Disease
- 4.35 Granuloma Annulare
- 4.36 Graves Disease and Pretibial Myxedema
- 4.37 Hidradenitis Suppurativa (Acne Inversa)
- 4.38 Infantile Hemangiomas
- 4.39 Irritant Contact Dermatitis
- 4.40 Keratosis Pilaris

- 4.41 Langerhans Cell Histiocytosis: Presentation in Childhood
- 4.42 Langerhans Cell Histiocytosis: Eosinophilic Granuloma
- 4.43 Leukocytoclastic Vasculitis
- 4.44 Lichen Planus
- 4.45 Lichen Simplex Chronicus
- 4.46 Lower Extremity Vascular Insufficiency
- 4.47 Mast Cell Disease
- 4.48 Mast Cell Disease: Degranulation Blockers
- 4.49 Morphea
- 4.50 Myxedema
- 4.51 Necrobiosis Lipoidica
- 4.52 Necrobiotic Xanthogranuloma
- 4.53 Neutrophilic Eccrine Hidradenitis
- 4.54 Ochronosis: Metabolic Pathway and Cutaneous Findings
- 4.55 Ochronosis: Systemic Findings
- 4.56 Oral Manifestations in Blood Dyscrasias
- 4.57 Phytophotodermatitis
- 4.58 Pigmented Purpura
- 4.59 Pityriasis Rosea
- 4.60 Pityriasis Rubra Pilaris
- 4.61 Polyarteritis Nodosa
- 4.62 Pruritic Urticarial Papules and Plaques of Pregnancy
- 4.63 Pseudoxanthoma Elasticum
- 4.64 Psoriasis: Histopathologic Features and Typical Distribution
- 4.65 Psoriasis: Inverse Psoriasis and Psoriasis in the Genital Area
- 4.66 Psoriasis: Psoriatic Arthritis
- 4.67 Radiation Dermatitis
- 4.68 Reactive Arthritis (Reiter Syndrome)
- 4.69 Rosacea
- 4.70 Sarcoid: Cutaneous Manifestations
- 4.71 Sarcoid: Systemic Manifestations
- 4.72 Scleroderma (Systemic Sclerosis)
- 4.73 Seborrheic Dermatitis
- 4.74 Skin Manifestations of Inflammatory Bowel Disease: Mucocutaneous Manifestations
- 4.75 Skin Manifestations of Inflammatory Bowel Disease: Cutaneous Manifestations
- 4.76 Stasis Dermatitis
- 4.77 Urticaria
- 4.78 Vitiligo

## **SECTION 5 AUTOIMMUNE BLISTERING DISEASES**

- 5.1 Basement Membrane Zone, Hemidesmosome, and Desmosome
- 5.2 Basement Membrane Zone, Hemidesmosome, and Desmosome (Continued)
- 5.3 Bullous Pemphigoid
- 5.4 Mucous Membrane Pemphigoid
- 5.5 Dermatitis Herpetiformis
- 5.6 Epidermolysis Bullosa Acquisita
- 5.7 Linear Immunoglobulin A Bullous Dermatosis
- 5.8 Paraneoplastic Pemphigus
- 5.9 Pemphigus Foliaceus
- 5.10 Pemphigus Vulgaris

## **SECTION 6 INFECTIOUS DISEASES**

- 6.1 Actinomycosis
- 6.2 Blastomycosis
- 6.3 Chancroid
- 6.4 Coccidioidomycosis
- 6.5 COVID-19

- 6.6 Cryptococcosis
- 6.7 Cutaneous Larva Migrans
- 6.8 Dermatophytoses: Tinea Faciei and Tinea Corporis
- 6.9 Dermatophytoses: Tinea Cruris and Tinea Capitis
- 6.10 Dermatophytoses: Tinea Pedis and Tinea Unguium
- 6.11 Herpes Simplex Virus: Lesions
- 6.12 Herpes Simplex Virus: Lesions (Continued)
- 6.13 Herpes Simplex Virus: Encephalitis
- 6.14 Histoplasmosis
- 6.15 Leprosy (Hansen Disease)
- 6.16 Lice: Clinical Manifestations
- 6.17 Lice: Clinical Findings and Management
- 6.18 Lyme Disease
- 6.19 Lymphogranuloma Venereum
- 6.20 Meningococemia: Acute Adrenal Insufficiency (Waterhouse-Friderichsen Syndrome)
- 6.21 Meningococemia: Bacterial Meningitis
- 6.22 Molluscum Contagiosum
- 6.23 Paracoccidioidomycosis
- 6.24 Scabies
- 6.25 Sporotrichosis
- 6.26 Staphylococcus aureus Skin Infections: Types of Skin Infections
- 6.27 Staphylococcus aureus Skin Infections: Toxic Shock Syndrome
- 6.28 Syphilis: Genitalia
- 6.29 Syphilis: Oral Cavity
- 6.30 Syphilis: Pregnancy
- 6.31 Varicella
- 6.32 Herpes Zoster (Shingles): Clinical Presentation
- 6.33 Herpes Zoster (Shingles): Varicella Zoster With Keratitis
- 6.34 Verrucae (Warts): Human Papillomavirus (HPV) Infection
- 6.35 Verrucae (Warts): Condylomata Acuminata (Genital Warts)

## **SECTION 7 HAIR AND NAIL DISEASES**

- 7.1 Normal Structure and Function of the Hair Follicle Apparatus
- 7.2 Normal Structure and Function of the Nail Unit
- 7.3 Alopecia Areata
- 7.4 Androgenic Alopecia
- 7.5 Common Nail Disorders: Fingernail Disorders
- 7.6 Common Nail Disorders: Toenail Disorders
- 7.7 Common Nail Disorders (Continued)
- 7.8 Hair Shaft Abnormalities
- 7.9 Telogen Effluvium and Anagen Effluvium
- 7.10 Trichotillomania

## **SECTION 8 NUTRITIONAL AND METABOLIC DISEASES**

- 8.1 Beriberi: Sources and Metabolism of Thiamine (Vitamin B1)
- 8.2 Beriberi: Clinical Manifestations of Dry and Wet Beriberi
- 8.3 Hemochromatosis
- 8.4 Metabolic Diseases: Niemann-Pick Disease, von Gierke Disease, and Galactosemia
- 8.5 Pellagra: Main Sources, Causes, and Skin Findings
- 8.6 Pellagra: Mucosal and Central Nervous System Manifestations
- 8.7 Phenylketonuria: Normal and Abnormal Metabolism
- 8.8 Phenylketonuria: Clinical Manifestations and Hereditary Patterns
- 8.9 Porphyria Cutanea Tarda
- 8.10 Scurvy: Dietary Sources of Vitamin C and Classic Cutaneous Manifestations
- 8.11 Scurvy: Bony and Skin Abnormalities
- 8.12 Vitamin A Deficiency
- 8.13 Vitamin K Deficiency and Vitamin K Antagonists: Potential Clinical Consequences of

Warfarin Use

8.14 Vitamin K Deficiency and Vitamin K Antagonists: Anticoagulation Effects on the Clotting Cascade

8.15 Wilson Disease

## **SECTION 9 GENODERMATOSES AND SYNDROMES**

9.1 Addison Disease

9.2 Amyloidosis

9.3 Basal Cell Nevus Syndrome

9.4 Carney Complex

9.5 Cushing Syndrome and Cushing Disease

9.6 Cushing Syndrome: Pathophysiology

9.7 Down Syndrome

9.8 Ehlers-Danlos Syndrome

9.9 Marfan Syndrome

9.10 Muir-Torre Syndrome

9.11 Neurofibromatosis: Cutaneous Manifestations

9.12 Neurofibromatosis: Cutaneous and Skeletal Manifestations

9.13 Tuberous Sclerosis
