

1. Laboratory Design - *Tyl Taylor and Alison Campbell*. 2. IVF Cell Culture: VOCs and Air Quality - *Alicia Urrutia and Kathryn C. WorriLOW*. 3. Laboratory Equipment and Consumables - *Louise Best and Walid E Maalouf*. 4. Staffing in the IVF laboratory - *Alison Campbell*. 5. Evidence Based Practice in Reproductive Medicine - *Alison Richardson and Kanna Jayaprakasan*. 6. Quality Control and Management - *Amy Barrie*. 7. Analysis, Reporting and Presentation of Findings - *Amy Barrie*. 8. The Human Fertilisation and Embryology Authority (HFEA) - *Debra Bloor*. 9. Anatomy and physiology of mammalian reproductive system - *Ishita Mishra*. 10. Epigenetics and ARTs - *Walid Maalouf*. 11. Folliculogenesis and Oogenesis - *Juan Hernandez-Medrano and Marianna Belmpa*. 12. Spermatogenesis, spermiation and the human sperm - *Vipul Batra, Nader Eid, Hannah L. Morgan, and Adam J. Watkins*. 13. Fertilisation and pre-implantation embryo development - *Andrew Thomson, Lyndon Miles, and Kimberly Higgins*. 14. The Endometrium, Implantation and Placental Development - *Tom Bamford and Claudia Passaro*. 15. Fetal development and sex differentiation - *Juan Hernandez-Medrano*. 16. Recurrent Implantation Failure and Miscarriage - *Yealin Chung*. 17. Infertility: Definition, referral, and Initial Consultation - *Charlotte Palmer*. 18. Ovarian stimulation protocols - *Pedro Melo*. 19. Oocyte Retrieval and Evaluation - *Bryony Swift*. 20. Selection, Semen Analysis, and Preparation - *Sue Montgomery*. 21. Fertilisation Methods - *Sue Montgomery and Ruth Arnesen*. 22. Embryo culture methods and metabolic requirements - *Rachel Smith*. 23. Ethics and the law in embryology - *Gillian Lockwood*. 24. The patient experience through an IVF treatment cycle - *Charmian Short*. 25. Non-Invasive Markers of Gamete and Embryo Quality - *Catherine Pretty*. 26. Embryo Transfer procedures and decisions - *Kathryn Berrisford*. 27. Data and Patient Management in the IVF Laboratory - *Rebecca Oakley and Louise Best*. 28. Genomics and Genetic Counselling: considerations and challenges with IVF patients - *Karen Sage and Valerie Shaikly*. 29. Third Party Reproduction - *Selina Wilkinson and Louise Kellam*. 30. Add-ons: critical evaluation of supplementary treatments - *Charlotte Palmer*. 31. Cryobiology and cryopreservation of oocytes and embryos - *Louise Best*. 32. In Vitro Maturation (IVM) And Artificial Oocyte Activation (AOA) - *Walid E Maalouf and Juan Hernandez Medrano*. 33. ICSI: micromanipulation setup, consumables, and operational procedure - *Louise Best*. 34. Embryo Biopsy and Preimplantation Genetic Testing (PGT) - *Lucy Jenner and Colleen Lynch*. 35. Computer Assisted Sperm Analysis (CASA) - *Walid E Maalouf and Mathew Tomlinson*. 36. Time-Lapse Embryo Culture Systems and Morphokinetics in Clinical Embryology: A brief overview on the evolution of embryo scoring system - *Rachel Smith and Walid E Maalouf*. 37. Abnormal cleavage, self-correction of aneuploidy and decision-making regarding embryo fate - *Natalie Davis and Alison Campbell*. 38. Artificial intelligence application in the ART laboratory - *Walid E Maalouf and Rachel Smith*.
