

## **SECTION 1 SPINE**

### 1.1 Vertebral Column

#### **Cervical Spine**

### 1.2 Atlas and Axis

### 1.3 External Craniocervical Ligaments

### 1.4 Internal Craniocervical Ligaments

### 1.5 Suboccipital Triangle

### 1.6 Dens Fracture

### 1.7 Jefferson and Hangman's Fractures

### 1.8 Cervical Vertebrae

### 1.9 Muscles of Back: Superficial Layers

### 1.10 Muscles of Back: Intermediate and Deep Layers

### 1.11 Spinal Nerves and Sensory Dermatomes

### 1.12 Cervical Spondylosis

### 1.13 Cervical Spondylosis and Myelopathy

### 1.14 Cervical Disc Herniation: Clinical Manifestations

### 1.15 Surgical Approaches for the Treatment of Myelopathy and Radiculopathy

### 1.16 Extravascular Compression of Vertebral Arteries

#### **Thoracolumbar and Sacral Spine**

### 1.17 Thoracic Vertebrae and Ligaments

### 1.18 Lumbar Vertebrae and Intervertebral Discs

### 1.19 Sacral Spine and Pelvis

### 1.20 Lumbosacral Ligaments

### 1.21 Degenerative Disc Disease

### 1.22 Lumbar Disc Herniation

### 1.23 Lumbar Spinal Stenosis

### 1.24 Lumbar Spinal Stenosis (Continued)

### 1.25 Degenerative Lumbar Spondylolisthesis

### 1.26 Degenerative Spondylolisthesis: Cascading Spine

### 1.27 Adult Deformity

### 1.28 Three-Column Concept of Spinal Stability and Compression Fractures

### 1.29 Compression Fractures (Continued)

### 1.30 Burst, Chance, and Unstable Fractures

#### **Deformities of Spine**

### 1.31 Congenital Anomalies of Occipitocervical Junction

### 1.32 Congenital Anomalies of Occipitocervical Junction (Continued)

### 1.33 Synostosis of Cervical Spine (Klippel-Feil Syndrome)

### 1.34 Clinical Appearance of Congenital Muscular Torticollis (Wryneck)

### 1.35 Nonmuscular Causes of Torticollis

### 1.36 Pathologic Anatomy of Scoliosis

### 1.37 Typical Scoliosis Curve Patterns

### 1.38 Congenital Scoliosis: Closed Vertebral Types (MacEwen Classification)

### 1.39 Clinical Evaluation of Scoliosis

### 1.40 Determination of Skeletal Maturation, Measurement of Curvature, and Measurement of Rotation

### 1.41 Braces for Scoliosis

### 1.42 Scheuermann Disease

### 1.43 Congenital Kyphosis

### 1.44 Spondylolysis and Spondylolisthesis

### 1.45 Myelodysplasia

### 1.46 Lumbosacral Agenesis

## **SECTION 2 PELVIS, HIP, AND THIGH**

### **Anatomy**

### 2.1 Superficial Veins and Cutaneous Nerves

### 2.2 Lumbosacral Plexus

### 2.3 Sacral and Coccygeal Plexuses

### 2.4 Nerves of Buttock

- 2.5 Femoral Nerve (L2, L3, L4) and Lateral Femoral Cutaneous Nerve (L2, L3)
- 2.6 Obturator Nerve (L2, L3, L4)
- 2.7 Sciatic Nerve (L4, L5; S1, S2, S3) and Posterior Femoral Cutaneous Nerve (S1, S2, S3)
- 2.8 Muscles of Front of Hip and Thigh
- 2.9 Muscles of Hip and Thigh (Anterior and Lateral Views)
- 2.10 Muscles of Back of Hip and Thigh
- 2.11 Bony Attachments of Muscles of Hip and Thigh: Anterior View
- 2.12 Bony Attachments of Muscles of Hip and Thigh: Posterior View
- 2.13 Cross-Sectional Anatomy of Hip: Axial View
- 2.14 Cross-Sectional Anatomy of Hip: Coronal View
- 2.15 Cross-Sectional Anatomy of Thigh
- 2.16 Arteries and Nerves of Thigh: Anterior Views
- 2.17 Arteries and Nerves of Thigh: Deep Dissection (Anterior View)
- 2.18 Arteries and Nerves of Thigh: Deep Dissection (Posterior View)
- 2.19 Bones and Ligaments at Hip: Osteology of the Femur
- 2.20 Bones and Ligaments at Hip: Hip Joint

### **Physical Examination**

- 2.21 Physical Examination

### **Deformities of the Pelvis and Femur**

- 2.22 Proximal Femoral Focal Deficiency: Radiographic Classification
- 2.23 Proximal Femoral Focal Deficiency: Clinical Presentation
- 2.24 Congenital Short Femur with Coxa Vara
- 2.25 Recognition of Developmental Dislocation of the Hip
- 2.26 Clinical Findings in Developmental Dislocation of Hip
- 2.27 Radiologic Diagnosis of Developmental Dislocation of Hip
- 2.28 Adaptive Changes in Dislocated Hip That Interfere with Reduction
- 2.29 Device for Treatment of Clinically Reducible Dislocation of Hip
- 2.30 Blood Supply to Femoral Head in Infancy
- 2.31 Legg-Calvé-Perthes Disease: Pathogenesis
- 2.32 Legg-Calvé-Perthes Disease: Physical Examination
- 2.33 Legg-Calvé-Perthes Disease: Physical Examination (Continued)
- 2.34 Stages of Legg-Calvé-Perthes Disease
- 2.35 Legg-Calvé-Perthes Disease: Lateral Pillar Classification
- 2.36 Legg-Calvé-Perthes Disease: Conservative Management
- 2.37 Femoral Varus Derotational Osteotomy
- 2.38 Innominate Osteotomy
- 2.39 Innominate Osteotomy (Continued)
- 2.40 Physical Examination and Classification of Slipped Capital Femoral Epiphysis
- 2.41 Pin Fixation in Slipped Capital Femoral Epiphysis

### **Disorders of the Hip**

- 2.42 Hip Joint Involvement in Osteoarthritis
- 2.43 Total Hip Replacement: Prostheses
- 2.44 Total Hip Replacement: Steps 1 to 3
- 2.45 Total Hip Replacement: Steps 4 to 8
- 2.46 Total Hip Replacement: Steps 9 to 12
- 2.47 Total Hip Replacement: Steps 13 to 18
- 2.48 Total Hip Replacement: Steps 19 and 20
- 2.49 Total Hip Replacement: Dysplastic Acetabulum
- 2.50 Total Hip Replacement: Protrusio Acetabuli
- 2.51 Total Hip Replacement: Complications—Loosening of Femoral Component
- 2.52 Total Hip Replacement: Complications—Fractures of Femur and Femoral Component
- 2.53 Total Hip Replacement: Complications—Loosening of Acetabular Component and Dislocation of Total Hip Prosthesis
- 2.54 Total Hip Replacement: Infection
- 2.55 Total Hip Replacement: Bipolar Prosthesis Hemiarthroplasty of Hip
- 2.56 Hip Resurfacing
- 2.57 Rehabilitation After Total Hip Replacement
- 2.58 Femoroacetabular Impingement/Hip Labral Tears

- 2.59 Avascular Necrosis
- 2.60 Trochanteric Bursitis
- 2.61 Snapping Hip (Coxa Saltans)
- 2.62 Muscle Strains

#### **Trauma**

- 2.63 Injury to Pelvis: Stable Pelvic Ring Fractures
- 2.64 Injury to Pelvis: Straddle Fracture and Lateral Compression Injury
- 2.65 Injury to Pelvis: Open Book Fracture
- 2.66 Injury to Pelvis: Vertical Shear Fracture
- 2.67 Injury to Hip: Acetabular Fractures
- 2.68 Injury to Hip: Acetabular Fractures (Continued)
- 2.69 Injury to Hip: Posterior Dislocation of Hip
- 2.70 Injury to Hip: Anterior Dislocation of Hip, Obturator Type
- 2.71 Injury to Hip: Dislocation of Hip with Fracture of Femoral Head
- 2.72 Intracapsular Fracture of Femoral Neck
- 2.73 Intertrochanteric Fracture of Femur
- 2.74 Subtrochanteric Fracture of Femur
- 2.75 Fracture of Shaft of Femur
- 2.76 Fracture of Distal Femur
- 2.77 Amputation of Lower Limb and Hip (Disarticulation and Hemipelvectomy)

### **SECTION 3 KNEE**

#### **Anatomy**

- 3.1 Topographic Anatomy of the Knee
- 3.2 Osteology of the Knee
- 3.3 Lateral and Medial Views of the Knee
- 3.4 Anterior Views of the Knee
- 3.5 Posterior and Sagittal Views of the Knee
- 3.6 Interior View and Cruciate and Collateral Ligaments of the Knee
- 3.7 Arteries and Nerves of Knee

#### **Injury to the Knee**

- 3.8 Arthrocentesis of Knee Joint
- 3.9 Types of Meniscal Tears and Discoid Meniscus Variations
- 3.10 Tears of the Meniscus
- 3.11 Medial and Lateral Meniscus
- 3.12 Rupture of the Anterior Cruciate Ligament
- 3.13 Lateral Pivot Shift Test for Anterolateral Knee Instability
- 3.14 Rupture of Cruciate Ligaments: Arthroscopy
- 3.15 Rupture of Posterior Cruciate Ligament
- 3.16 Physical Examination of the Leg and Knee
- 3.17 Sprains of Knee Ligaments
- 3.18 Disruption of Quadriceps Femoris Tendon or Patellar Ligament
- 3.19 Dislocation of Knee Joint

#### **Disorders of the Knee**

- 3.20 Progression of Osteochondritis Dissecans
- 3.21 Osteonecrosis
- 3.22 Tibial Intercondylar Eminence Fracture
- 3.23 Synovial Plica
- 3.24 Synovial Plica (Arthroscopy), Bursitis, and Iliotibial Band Friction Syndrome
- 3.25 Pigmented Villonodular Synovitis and Meniscal Cysts
- 3.26 Rehabilitation After Injury to Knee Ligaments
- 3.27 Bipartite Patella and Baker Cyst
- 3.28 Subluxation and Dislocation of Patella
- 3.29 Fracture of the Patella
- 3.30 Osgood-Schlatter Lesion
- 3.31 Knee Arthroplasty: Osteoarthritis of the Knee
- 3.32 Knee Arthroplasty: Total Condylar Prosthesis and Unicompartamental Prosthesis
- 3.33 Knee Arthroplasty: Posterior Stabilized Knee Prosthesis

- 3.34 Total Knee Replacement Technique: Steps 1 to 5
- 3.35 Total Knee Replacement Technique: Steps 6 to 9
- 3.36 Total Knee Replacement Technique: Steps 10 to 14
- 3.37 Total Knee Replacement Technique: Steps 15 to 20
- 3.38 Medial Release for Varus Deformity of Knee
- 3.39 Lateral Release for Valgus Deformity of Knee
- 3.40 Rehabilitation After Total Knee Replacement
- 3.41 High Tibial Osteotomy for Varus Deformity of Knee
- 3.42 Below-Knee Amputation
- 3.43 Disarticulation of Knee and Above-Knee Amputation

## **SECTION 4 LOWER LEG**

### **Anatomy**

- 4.1 Topographic Anatomy of the Lower Leg
- 4.2 Fascial Compartments of Leg
- 4.3 Muscles of Leg: Superficial Dissection (Anterior View)
- 4.4 Muscles of Leg: Superficial Dissection (Lateral View)
- 4.5 Muscles, Arteries, and Nerves of Leg: Deep Dissection (Anterior View)
- 4.6 Muscles of Leg: Superficial Dissection (Posterior View)
- 4.7 Muscles of Leg: Intermediate Dissection (Posterior View)
- 4.8 Muscles, Arteries, and Nerves of Leg: Deep Dissection (Posterior View)
- 4.9 Common Peroneal Nerve
- 4.10 Tibial Nerve
- 4.11 Tibia and Fibula
- 4.12 Tibia and Fibula (Continued)
- 4.13 Bony Attachments of Muscles of Leg

### **Injury to Lower Leg**

- 4.14 Fracture of Proximal Tibia Involving Articular Surface
- 4.15 Fracture of Shaft of Tibia
- 4.16 Fracture of Tibia in Children
- 4.17 Fracture of Tibia in Children (Continued)

### **Congenital Deformities**

- 4.18 Bowleg and Knock-Knee
- 4.19 Blount Disease
- 4.20 Toeing In: Metatarsus Adductus and Internal Tibial Torsion
- 4.21 Toeing In: Internal Femoral Torsion
- 4.22 Toeing Out and Postural Torsional Effects on Lower Limbs

## **SECTION 5 ANKLE AND FOOT**

### **Anatomy**

- 5.1 Surface Anatomy and Muscle Origins and Insertions
- 5.2 Tendon Sheaths of Ankle
- 5.3 Ligaments and Tendons of Ankle
- 5.4 Dorsal Foot: Superficial Dissection
- 5.5 Dorsal Foot: Deep Dissection
- 5.6 Plantar Foot: Superficial Dissection
- 5.7 Plantar Foot: First Layer
- 5.8 Plantar Foot: Second Layer
- 5.9 Plantar Foot: Third Layer
- 5.10 Interosseous Muscles and Deep Arteries of Foot
- 5.11 Cross-Sectional Anatomy of Ankle and Foot
- 5.12 Cross-Sectional Anatomy of Ankle and Foot (Continued)
- 5.13 Bones of Foot
- 5.14 Bones of Foot (Continued)
- 5.15 Ligaments and Tendons of Foot: Plantar View
- 5.16 Lymph Vessels and Nodes of Lower Limb

## **Fractures and Dislocations**

- 5.17 Major Sprains and Sprain Fractures
- 5.18 Mechanisms of Ankle Sprains
- 5.19 Rotational Fractures
- 5.20 Repair of Fracture of Malleolus
- 5.21 Pilon Fracture
- 5.22 Talus Fracture
- 5.23 Extraarticular Fracture of Calcaneus
- 5.24 Intraarticular Fracture of Calcaneus
- 5.25 Fifth Metatarsal Fractures
- 5.26 Lisfranc Injury
- 5.27 Navicular Stress Fractures

## **Common Soft Tissue Disorders**

- 5.28 Achilles Tendon Rupture
- 5.29 Peroneal Tendon Injury
- 5.30 Osteochondral Lesions of the Talus
- 5.31 Turf Toe
- 5.32 Plantar Fasciitis
- 5.33 Posterior Tibial Tendonitis/Flatfoot

## **Deformities of the Ankle and Foot**

- 5.34 Congenital Clubfoot
- 5.35 Congenital Clubfoot (Continued)
- 5.36 Congenital Vertical Talus
- 5.37 Cavovarus Foot
- 5.38 Calcaneovalgus and Planovalgus
- 5.39 Tarsal Coalition
- 5.40 Tarsal Coalition (Continued)
- 5.41 Accessory Tarsal Navicular
- 5.42 Congenital Toe Deformities
- 5.43 Köhler Disease

## **Infections and Amputations**

- 5.44 Common Foot Infections
- 5.45 Deep Infections of Foot
- 5.46 Lesions of the Diabetic Foot
- 5.47 Clinical Evaluation of Patient with Diabetic Foot Lesion
- 5.48 Amputation of Foot
- 5.49 Syme Amputation (Wagner Modification)
