

SECTION 1 SHOULDER

Anatomy

- 1.1 Scapula and Humerus: Posterior View
- 1.2 Scapula and Humerus: Anterior View
- 1.3 Clavicle
- 1.4 Ligaments
- 1.5 Glenohumeral Arthroscopic Anatomy
- 1.6 Glenohumeral Arthroscopic Anatomy (Continued)
- 1.7 Anterior Muscles
- 1.8 Anterior Muscles: Cross Section
- 1.9 Posterior Muscles
- 1.10 Posterior Muscles: Cross Section
- 1.11 Muscles of Rotator Cuff
- 1.12 Muscles of Rotator Cuff: Cross Sections
- 1.13 Axilla Dissection: Anterior View
- 1.14 Axilla: Posterior Wall and Cord
- 1.15 Deep Neurovascular Structures and Intervals
- 1.16 Axillary and Brachial Arteries
- 1.17 Axillary Artery and Anastomoses Around Scapula
- 1.18 Brachial Plexus
- 1.19 Peripheral Nerves: Dermatomes
- 1.20 Peripheral Nerves: Sensory Distribution and Neuropathy in Shoulder

Clinical Problems and Correlations

Fractures and Dislocation

- 1.21 Proximal Humeral Fractures: Neer Classification
- 1.22 Proximal Humeral Fractures: Two-Part Tuberosity Fracture
- 1.23 Proximal Humeral Fractures: Two Part Surgical Neck Fracture and Humeral Head Dislocation
- 1.24 Proximal Humeral Fractures: Valgus-Impacted Four-Part Fracture
- 1.25 Proximal Humeral Fractures: Displaced Four-Part Fractures with Articular Head Fracture
- 1.26 Proximal Humeral Fractures: Reverse Total Shoulder Replacement
- 1.27 Anterior Dislocation of Glenohumeral Joint: Anterior Dislocation Types and Stimson Maneuver
- 1.28 Anterior Dislocation of Glenohumeral Joint: Pathologic Lesions
- 1.29 Anterior Dislocation of Glenohumeral Joint: Imaging
- 1.30 Posterior Dislocation of Glenohumeral Joint
- 1.31 Posterior Dislocation of Glenohumeral Joint (Continued)
- 1.32 Acromioclavicular and Sternoclavicular Dislocation
- 1.33 Fractures of the Clavicle
- 1.34 Fractures of the Clavicle and Scapula

Common Soft Tissue Disorders

- 1.35 Calcific Tendonitis
- 1.36 Frozen Shoulder: Clinical Presentation
- 1.37 Frozen Shoulder: Risk Factors and Diagnostic Tests
- 1.38 Biceps, Tendon Tears, and SLAP Lesions: Presentation and Physical Examination
- 1.39 Biceps, Tendon Tears, and SLAP Lesions: Types of Tears
- 1.40 Acromioclavicular Joint Arthritis
- 1.41 Impingement Syndrome and the Rotator Cuff: Presentation and Diagnosis
- 1.42 Impingement Syndrome and the Rotator Cuff: Radiologic and Arthroscopic Imaging
- 1.43 Rotator Cuff Tears: Physical Examination
- 1.44 Supraspinatus and Infraspinatus Rotator Cuff Tears: Imaging
- 1.45 Supraspinatus and Infraspinatus Rotator Cuff Tears: Surgical Management
- 1.46 Supraspinatus and Infraspinatus Cuff Tear: Surgical Management Superior Capsular Reconstruction and Balloon Arthroplasty
- 1.47 Supraspinatus and Infraspinatus Cuff Tear: Surgical Management Latissimus and Trapezius Transfers
- 1.48 Management of Subscapularis Rotator Cuff Tears
- 1.49 Management of Irreparable Subscapularis Tears: Pectoralis and Latissimus Transfers

- 1.50 Osteoarthritis of the Glenohumeral Joint
- 1.51 Osteoarthritis of the Glenohumeral Joint: Surgical Imaging
- 1.52 Avascular Necrosis of the Humeral Head
- 1.53 Rheumatoid Arthritis of the Glenohumeral Joint: Radiographic Presentations and Treatment Options
- 1.54 Rheumatoid Arthritis of the Glenohumeral Joint: Conservative Humeral Head Surface Replacement
- 1.55 Rotator Cuff-Deficient Arthritis (Rotator Cuff Tear Arthropathy): Physical Findings and Appearance
- 1.56 Rotator Cuff-Deficient Arthritis (Rotator Cuff Tear Arthropathy): Radiographic Findings
- 1.57 Rotator Cuff-Deficient Arthritis (Rotator Cuff Tear Arthropathy): Radiographic Findings (Continued)
- 1.58 Neurologic Conditions of the Shoulder: Suprascapular Nerve
- 1.59 Neurologic Conditions of the Shoulder: Long Thoracic and Spinal Accessory Nerves Amputation
- 1.60 Amputation of Upper Arm and Shoulder, 61
Injections, Basic Rehabilitation, and Surgical Approaches
- 1.61 Shoulder Injections
- 1.62 Basic, Passive, and Active-Assisted Range of Motion Exercises
- 1.63 Basic Shoulder-Strengthening Exercises
- 1.64 Basic Shoulder Strengthening Exercises (Continued)
- 1.65 Common Surgical Approaches to the Shoulder

SECTION 2 UPPER ARM AND ELBOW

Anatomy

- 2.1 Topographic Anatomy
- 2.2 Anterior and Posterior Views of Humerus
- 2.3 Elbow Joint: Bones
- 2.4 Elbow Joint: Radiographs
- 2.5 Elbow Ligaments: Anterior Views
- 2.6 Elbow Ligaments: Lateral and Medial Views
- 2.7 Muscles Origins and Insertions
- 2.8 Muscles: Anterior Views
- 2.9 Muscles: Posterior Views
- 2.10 Cross Sectional Anatomy of Upper Arm
- 2.11 Cross Sectional Anatomy of Elbow
- 2.12 Cutaneous Nerves and Superficial Veins
- 2.13 Cutaneous Innervation
- 2.14 Musculocutaneous Nerve of Upper Arm and Elbow
- 2.15 Radial Nerve
- 2.16 Brachial Artery In Situ
- 2.17 Brachial Artery and Anastomoses around Elbow
- Clinical Problems and Correlations
- 2.18 Physical Examination and Range of Motion
- Fractures and Dislocation
- 2.19 Humeral Shaft Fractures
- 2.20 Injury to the Elbow
- 2.21 Fracture of Distal Humerus
- 2.22 Fracture of Distal Humerus: Total Elbow Arthroplasty
- 2.23 Fracture of Distal Humerus: Capitellum
- 2.24 Fracture of Head and Neck of Radius
- 2.25 Fracture of Head and Neck of Radius: Imaging
- 2.26 Fracture of Olecranon
- 2.27 Dislocation of Elbow Joint
- 2.28 Dislocation of Elbow Joint (Continued)
- 2.29 Injuries in Children: Supracondylar Humerus Fractures
- 2.30 Injuries in Children: Elbow

- 2.31 Injuries in Children: Subluxation of Radial Head
- 2.32 Complications of Fracture
- Common Soft Tissue Disorders
- 2.33 Arthritis: Open and Arthroscopic Elbow Debridement
- 2.34 Arthritis: Elbow Arthroplasty Options
- 2.35 Arthritis: Imaging of Total Elbow Arthroplasty Designs
- 2.36 Cubital Tunnel Syndrome: Sites of Compression
- 2.37 Cubital Tunnel Syndrome: Clinical Signs and Treatment
- 2.38 Epicondylitis and Olecranon Bursitis
- 2.39 Rupture of Biceps and Triceps Tendon
- 2.40 Medial Elbow and Posterolateral Rotatory Instability Tests
- 2.41 Osteochondritis Dissecans of the Elbow
- 2.42 Osteochondrosis of the Elbow (Panner Disease)
- 2.43 Congenital Dislocation of Radial Head
- 2.44 Congenital Radioulnar Synostosis
- Injections, Basic Rehabilitation, and Surgical Approaches
- 2.45 Common Elbow Injections and Basic Rehabilitation
- 2.46 Surgical Approaches to the Upper Arm and Elbow
- 2.47 Surgical Approaches to the Upper Arm and Elbow (Continued)

SECTION 3 FOREARM AND WRIST

Anatomy

- 3.1 Topographic Anatomy
- 3.2 Bones of Forearm
- 3.3 Bones of Wrist
- 3.4 Radiologic Findings of Wrist
- 3.5 Ligaments of Wrist
- 3.6 Arthroscopy of Wrist
- 3.7 Muscles of Forearm (Superficial Layer): Anterior View
- 3.8 Muscles of Forearm (Intermediate and Deep Layers): Anterior View
- 3.9 Muscles of Forearm (Superficial and Deep Layers): Posterior View
- 3.10 Cross-Sectional Anatomy of Right Forearm
- 3.11 Cross-Sectional Anatomy of Wrist
- 3.12 Muscles of Forearm: Origins and Insertions
- 3.13 Blood Supply of Forearm
- 3.14 Median Nerve of Forearm
- 3.15 Ulnar Nerve of Forearm
- 3.16 Cutaneous Nerves of Forearm
- Clinical Problems and Correlations
- 3.17 Carpal Tunnel Syndrome
- 3.18 Cubital Tunnel Syndrome
- 3.19 Fracture of Distal Radius: Colles Fracture
- 3.20 Fracture of Distal Radius: Radiology
- 3.21 Fracture of Distal Radius: Closed Reduction and Plaster Cast Immobilization of Colles Fracture
- 3.22 Fracture of Distal Radius: Radiology of Open Reduction and Internal Fixation
- 3.23 Fracture of Scaphoid: Presentation and Classification
- 3.24 Fracture of Scaphoid: Blood Supply and Treatment
- 3.25 Fracture of Scaphoid: Radiology
- 3.26 Fracture of Hamulus of Hamate
- 3.27 Dislocation of Carpus: Presentation and Treatment
- 3.28 Dislocation of Carpus: Radiology
- 3.29 Fracture of Both Forearm Bones
- 3.30 Fracture of Shaft of Ulna
- 3.31 Fracture of Shaft of Radius
- 3.32 Ganglion of Wrist
- 3.33 De Quervain Disease
- 3.34 Rheumatoid Arthritis of Wrist

- 3.35 Arthritis of Wrist
- 3.36 Kienböck Disease
- 3.37 Radial Longitudinal Deficiency: Forearm Manifestations
- 3.38 Radial Longitudinal Deficiency: Type II Hypoplastic Thumb

SECTION 4 HAND AND FINGER

Anatomy

- 4.1 Topographic Anatomy: Anterior View
- 4.2 Topographic Anatomy: Posterior View
- 4.3 Metacarpophalangeal and Interphalangeal Ligaments
- 4.4 Definitions of Hand Motion
- 4.5 Flexor and Extensor Tendons in Fingers
- 4.6 Flexor and Extensor Zones and Lumbrical Muscles
- 4.7 Wrist and Hand: Deep Dorsal Dissection
- 4.8 Wrist and Hand: Intrinsic Muscles
- 4.9 Spaces, Bursae, and Tendon and Lumbrical Sheaths of Hand
- 4.10 Wrist and Hand: Palmar Dissections
- 4.11 Vascular Supply of the Hand and Finger
- 4.12 Ulnar Nerve of Hand
- 4.13 Median Nerve of Hand
- 4.14 Radial Nerve of Hand
- 4.15 Skin and Subcutaneous Fascia: Anterior View
- 4.16 Skin and Subcutaneous Fascia: Posterior View
- 4.17 Lymphatic Drainage
- 4.18 Digits: Sectional Anatomy
- 4.19 Thumb: Sectional Anatomy

Degenerative and Systemic Disorders

- 4.20 Hand Involvement in Osteoarthritis
 - 4.21 Hand Involvement in Rheumatoid Arthritis and Psoriatic Arthritis
 - 4.22 Hand Involvement in Gouty Arthritis and Reiter Syndrome
 - 4.23 Deformities of Thumb Joints: Metacarpophalangeal Deformities
 - 4.24 Deformities of Thumb Joints: Carpometacarpal Osteoarthritis
 - 4.25 Deformities of Thumb Joints: Ligament Replacement and Tendon Interposition
- ### Arthroplasty
- 4.26 Deformities of the Metacarpophalangeal Joints: Implant Resection Arthroplasty
 - 4.27 Deformities of the Metacarpophalangeal Joints: Implant Resection Arthroplasty (Continued)
 - 4.28 Deformities of the Metacarpophalangeal Joints: Implant Resection Arthroplasty (Continued)
 - 4.29 Deformities of the Metacarpophalangeal Joints: Modular versus Implant Resection Arthroplasty
 - 4.30 Deformities of Interphalangeal Joint: Radiographic Findings
 - 4.31 Deformities of Interphalangeal Joint: Swan Neck and Boutonniere
 - 4.32 Deformities of Interphalangeal Joint: Implant Resection Arthroplasty
 - 4.33 Deformities of Interphalangeal Joint: Modular Versus Implant Resection Arthroplasty
 - 4.34 Dupuytren Contracture: Presentation and Treatment
 - 4.35 Dupuytren Contracture: Surgical Approach to Finger
- ### Infections and Tendon Disorders
- 4.36 Cellulitis and Abscess
 - 4.37 Tenosynovitis and Infection of Fascial Space
 - 4.38 Tenosynovitis and Infection of Fascial Space (Continued)
 - 4.39 Infected Wounds
 - 4.40 Infection of Deep Compartments of Hand
 - 4.41 Lymphangitis
 - 4.42 Bier Block Anesthesia
 - 4.43 Thumb Carpometacarpal Injection, Digital Block, and Flexor Sheath Injection
 - 4.44 Tendon Disorders: Trigger Finger and Jersey Finger
 - 4.45 Tendon Disorders: Repair of Tendon

Fractures and Dislocations

- 4.46 Fracture of Metacarpal Neck and Shaft
 - 4.47 Fracture of Thumb Metacarpal Base
 - 4.48 Fracture of Proximal and Middle Phalanges
 - 4.49 Management of Fracture of Proximal and Middle Phalanges
 - 4.50 Special Problems in Fracture of Middle and Proximal Phalanges
 - 4.51 Thumb Ligament Injury and Dislocation
 - 4.52 Carpometacarpal and Metacarpophalangeal Joint Injury
 - 4.53 Dorsal and Palmar Interphalangeal Joint Dislocations
 - 4.54 Treatment of Dorsal Interphalangeal Joint Dislocation
 - 4.55 Injuries to the Fingertip
 - 4.56 Rehabilitation after Injury to Hand and Fingers
- ## Amputation and Replantation
- 4.57 Amputation of Phalanx
 - 4.58 Amputation of Thumb and Deepening of Thenar Web Cleft
 - 4.59 Thumb Lengthening Post Amputation
 - 4.60 Microsurgical Instrumentation for Replantation
 - 4.61 Debridement, Incisions, and Repair of Bone in Replantation of Digit
 - 4.62 Repair of Blood Vessels and Nerves
 - 4.63 Postoperative Dressing and Monitoring of Blood Flow
 - 4.64 Replantation of Avulsed Thumb and Midpalm
 - 4.65 Lateral Arm Flap for Defect of Thumb Web
 - 4.66 Transfer of Great Toe to Thumb Site
