

## **SECTION 1 CRANIAL NERVE AND NEURO-OPHTHALMOLOGIC DISORDERS**

### Overview of Cranial Nerves

- 1.1 Distribution of Motor and Sensory Fibers
- 1.2 Overview of Cranial Nerves
- 1.3 Nerves and Nuclei Viewed in Phantom From Behind
- 1.4 Nerves and Nuclei in Lateral Dissection

### Cranial Nerve I: Olfactory Nerve

- 1.5 Olfactory Pathways
- 1.6 Olfactory Receptors
- 1.7 Olfactory Bulb and Nerve

### Cranial Nerve II: Optic Nerve

- 1.8 Eye
- 1.9 Cranial Nerve II and Visual Pathways
- 1.10 Optic Nerve Appearance
- 1.11 Retinal Projections to Thalamus, Midbrain, and Brainstem
- 1.12 Pupillary Light Reflex and the Accommodation Reflex

### Cranial Nerves III, IV, and VI (Oculomotor, Trochlear, and Abducens)

- 1.13 Oculomotor (III), Trochlear (IV), and Abducens Nerves (VI)
- 1.14 Nerves of Orbit and Cavernous Sinus
- 1.15 Damage to Cranial Nerve III
- 1.16 Control of Eye Movements
- 1.17 Control of Eye Movements: Pathology
- 1.18 Control of Eye Movements: Pathology (Continued)
- 1.19 Autonomic Innervation of the Eye

### Cranial Nerve V: Trigeminal Nerve

- 1.20 Trigeminal Nerve (V)
- 1.21 Trigeminal Nuclei: Afferent and Central Connections
- 1.22 Trigeminal Nuclei: Central and Peripheral Connections
- 1.23 Ophthalmic (V1) and Maxillary (V2) Nerves
- 1.24 Mandibular Nerve (V3)
- 1.25 Trigeminal Nerve Disorders

### Cranial Nerve VII: Facial Nerve

- 1.26 Pons: Level of the Genu of the Facial Nerve
- 1.27 Facial Nerve (VII)
- 1.28 Muscles of Facial Expression: Lateral View
- 1.29 Central Versus Peripheral Facial Paralysis
- 1.30 Facial Palsy

### Taste Receptors and Pathways

- 1.31 Anatomy of Taste Buds and Their Receptors
- 1.32 Tongue

### Cranial Nerve VIII: Vestibulocochlear Nerve

- 1.33 Vestibulocochlear Nerve (VIII)
- 1.34 Pathway of Sound Reception
- 1.35 Pathologic Causes of Vertigo
- 1.36 Canalith Repositioning (Epley Maneuver)
- 1.37 Afferent Auditory Pathways
- 1.38 Centrifugal Auditory Pathways
- 1.39 Vestibular Receptors
- 1.40 Cochlear Receptors

### Cranial Nerve IX: Glossopharyngeal Nerve and Otic Ganglion

- 1.41 Glossopharyngeal Nerve (IX)
- 1.42 Otic Ganglion

### Cranial Nerve X: Vagus Nerve

- 1.43 Vagus Nerve (X)
- 1.44 Motor and Sensory Branches From the Vagus Nerve
- 1.45 Neurogenic Disorders of Mouth and Pharynx (X and XII)

### Cranial Nerve XI: Accessory Nerve

- 1.46 Accessory Nerve (XI)
- 1.47 Clinical Findings in Cranial Nerve XI Damage

- Cranial Nerve XII: Hypoglossal Nerve
- 1.48 Hypoglossal Nerve Intermedullary Course
- 1.49 Hypoglossal Nerve (XII)
- 1.50 Disorders of Hypoglossal Nucleus and Nerve

## **SECTION 2 SPINAL CORD: ANATOMY AND MYELOPATHIES**

- 2.1 Spinal Cord
- 2.2 Spinal Membranes and Nerve Roots
- 2.3 Arteries of Spinal Cord and Nerve Roots
- 2.4 Arteries of Spinal Cord: Intrinsic Distribution
- 2.5 Veins of Spinal Cord, Nerve Roots, and Vertebrae
- 2.6 Principal Fiber Tracts of Spinal Cord
- 2.7 Somesthetic System of Body
- 2.8 Corticospinal (Pyramidal) System: Motor Component
- 2.9 Rubrospinal Tract
- 2.10 Vestibulospinal Tracts
- 2.11 Reticulospinal and Corticoreticular Pathways
- 2.12 Spinal Origin or Termination of Major Descending Tracts and Ascending Pathways
- 2.13 Cytoarchitecture of Spinal Cord Gray Matter
- 2.14 Spinal Effector Mechanisms
- 2.15 Spinal Reflex Pathways
- 2.16 Spinal Cord Dysfunction
- 2.17 Sensory Impairment Related to Level of Spinal Cord Injury
- 2.18 Incomplete Spinal Cord Syndromes
- 2.19 Acute Spinal Cord Syndromes
- 2.20 Acute Spinal Cord Syndromes: Pathology, Etiology, and Diagnosis
- 2.21 Spinal Tumors
- 2.22 Extramedullary and Intramedullary Spinal Cord Tumors
- 2.23 Neuroimaging (MRI) Characteristics of Spinal Tumors
- 2.24 Syringomyelia
- 2.25 Subacute Combined Degeneration
- 2.26 Spinal Dural Fistulas and Arteriovenous Malformations
- 2.27 Cervical Spondylosis
- 2.28 Cervical Disk Herniation Causing Cord Compression
- 2.29 Infectious and Hereditary Myelopathies

## **SECTION 3 SPINAL TRAUMA**

- 3.1 Spinal Column
- 3.2 Atlas and Axis
- 3.3 Cervical Vertebrae
- 3.4 External Craniocervical Ligaments
- 3.5 Internal Craniocervical Ligaments
- 3.6 Thoracic Vertebrae
- 3.7 Lumbar Vertebrae and Intervertebral Disk
- 3.8 Sacrum and Coccyx
- 3.9 Ligaments of Sacrum and Coccyx
- 3.10 Biomechanics of Spine and Spinal Cord Injuries: Distractive Flexion
- 3.11 Biomechanics of Spine and Spinal Cord Injuries: Compressive Flexion
- 3.12 Biomechanics of Spine and Spinal Cord Injuries: Distractive Extension
- 3.13 Cervical Spine Injury: Prehospital, Emergency Department, and Acute Management
- 3.14 Traction and Bracing
- 3.15 Anterior Cervical Spine Decompression and Stabilization
- 3.16 Posterior Cervical Stabilization and Fusion
- 3.17 Spinal Cord Injury Medical Issues

## **SECTION 4 NERVE ROOTS AND PLEXUS DISORDERS**

- 4.1 Cervical Disk Herniation

- 4.2 Radiographic Diagnosis of Radiculopathy
- 4.3 Back Pain and Lumbar Disk Disease
- 4.4 Lumbar Disk Herniation: Clinical Manifestations
- 4.5 L4–5 Disk Extrusion
- 4.6 Lumbosacral Spinal Stenosis
- 4.7 Spinal Nerves
- 4.8 Dermal Segmentation
- 4.9 Thoracic Nerves
- 4.10 Thoracic Spinal Nerve Root Disorders
- 4.11 Diabetic Lumbosacral Radiculoplexus Neuropathy
- 4.12 Lumbar, Sacral, and Coccygeal Plexuses
- 4.13 Brachial Plexus
- 4.14 Brachial Plexus and Cervical Nerve Root Injuries at Birth
- 4.15 Brachial Plexopathy
- 4.16 Lumbosacral Plexopathy
- 4.17 Cervical Plexus

## **SECTION 5 MONONEUROPATHIES**

- 5.1 Compression Neuropathies
- 5.2 Chronic Nerve Compression
- 5.3 Evaluation of Mononeuropathies
- 5.4 Radiologic Studies in Compression Neuropathy
- 5.5 Proximal Nerves of the Upper Extremity
- 5.6 Suprascapular and Musculocutaneous Nerves
- 5.7 Median Nerve
- 5.8 Proximal Median Neuropathies
- 5.9 Distal Median Neuropathies: Carpal Tunnel Syndrome
- 5.10 Distal Median Neuropathies: Carpal Tunnel Syndrome (Continued)
- 5.11 Ulnar Nerve
- 5.12 Ulnar Mononeuropathies: Potential Entrapment Sites
- 5.13 Radial Nerve
- 5.14 Radial Nerve Compression and Entrapment Neuropathies
- 5.15 Femoral and Lateral Femoral Cutaneous Nerves
- 5.16 Iliohypogastric, Ilioinguinal, Genitofemoral, and Obturator Nerves
- 5.17 Sciatic and Gluteal Nerves
- 5.18 Sciatic and Posterior Femoral Cutaneous Nerves
- 5.19 Fibular (Peroneal) and Tibial Nerves
- 5.20 Peroneal Nerve Compression
- 5.21 Tibial Nerve
- 5.22 Dermatomal and Cutaneous Nerve Patterns
- 5.23 Dermatomes

## **SECTION 6 PERIPHERAL NEUROPATHIES**

- 6.1 Peripheral Nerve
- 6.2 Histology of Peripheral Nerve
- 6.3 Cell Types of Nervous System
- 6.4 Resting Membrane Potential
- 6.5 Ion Channel Mechanics and Action Potential Generation
- 6.6 Neurophysiology and Peripheral Nerve Demyelination
- 6.7 Impulse Propagation
- 6.8 Conduction Velocity
- 6.9 Visceral Efferent Endings
- 6.10 Cutaneous Receptors
- 6.11 Pacinian Corpuscle
- 6.12 Muscle and Joint Receptors
- 6.13 Proprioceptive Reflex Control of Muscle Tension
- 6.14 Charcot-Marie-Tooth Disease Overview (Hereditary Motor and Sensory Neuropathy)

- 6.15 Charcot-Marie-Tooth Disease: Common Types
- 6.16 Early Onset and Other Rare Forms of Charcot-Marie-Tooth Disease and Inherited Neuropathies
- 6.17 Hereditary Sensory and Autonomic Neuropathy
- 6.18 Guillain-Barré Syndrome
- 6.19 Guillain-Barré Syndrome (Continued)
- 6.20 Chronic Inflammatory Demyelinating Polyradiculoneuropathy
- 6.21 Diabetic Neuropathies
- 6.22 Monoclonal Protein–Associated Neuropathies
- 6.23 Distal Acquired Demyelinating Symmetric (DADS) Neuropathy
- 6.24 Vasculitic Neuropathy and Other Connective Tissue Disorders Associated With Neuropathy
- 6.25 Sjögren Syndrome
- 6.26 Immunopathogenesis of Guillain-Barré Syndrome
- 6.27 Peripheral Neuropathy Caused by Heavy Metal Poisoning
- 6.28 Metabolic, Toxic, and Nutritional Peripheral Neuropathies
- 6.29 Leprosy and Other Infections Sometimes Causing Peripheral Neuropathy

## **SECTION 7 AUTONOMIC NERVOUS SYSTEM AND ITS DISORDERS**

- 7.1 General Topography of Autonomic Nervous System
- 7.2 General Topography of Autonomic Nervous System (Continued)
- 7.3 Autonomic Reflex Pathways
- 7.4 Cholinergic and Adrenergic Nerves
- 7.5 Autonomic Nerves in Head and Neck
- 7.6 Autonomic Nerves in Neck
- 7.7 Autonomic Innervation of Eye
- 7.8 Autonomic Innervation of Eye (Continued)
- 7.9 Autonomic Nerves in Thorax
- 7.10 Innervation of Heart
- 7.11 Innervation of Blood Vessels
- 7.12 Carotid Body and Carotid Sinus
- 7.13 Autonomic Nerves and Ganglia in Abdomen
- 7.14 Innervation of Stomach and Proximal Duodenum
- 7.15 Innervation of Intestines
- 7.16 Autonomic Innervation of Small Intestine
- 7.17 Enteric Plexuses
- 7.18 Innervation of Liver and Biliary Tract
- 7.19 Innervation of Adrenal Glands
- 7.20 Autonomic Nerves and Ganglia in Pelvis
- 7.21 Innervation of Kidneys, Ureters, and Urinary Bladder
- 7.22 Innervation of Urinary Bladder and Lower Ureter
- 7.23 Innervation of Reproductive Organs
- 7.24 Female Reproductive Organs
- 7.25 Autonomic Testing
- 7.26 Cardiovagal Testing and Head-up Tilting
- 7.27 Abnormal Pupillary Conditions
- 7.28 Clinical Presentation of Autonomic Disorders
- 7.29 Multiple System Atrophy

## **SECTION 8 PAIN**

- 8.1 Neuroanatomy of the Ascending Pain Pathways
- 8.2 Neuroanatomy of the Ascending Pain Pathways (Continued)
- 8.3 Descending Nociceptive Pathways and Neurochemical Foundations of Descending Pain Modulation
- 8.4 Endorphin System
- 8.5 Nociceptive Processing and Central Nervous System Correlates of Pain
- 8.6 Central Nervous System Neurotransmitters, Receptors, and Drug Targets

- 8.7 Thalamic Pain Syndrome
- 8.8 Clinical Manifestations Related to Thalamus Site in Intracerebral Hemorrhage
- 8.9 Complex Regional Pain
- 8.10 Herpes Zoster
- 8.11 Occipital Neuralgia
- 8.12 Myofascial Factors in Low Back Pain
- 8.13 Posterior Abdominal Wall: Internal View
- 8.14 Lumbar Zygapophyseal Joint Back Pain
- 8.15 Low Back Pain and Effects of Lumbar Hyperlordosis and Flexion on Spinal Nerves
- 8.16 Examination of the Patient With Low Back Pain
- 8.17 Osteoporosis
- 8.18 Diagnosis of Low Back, Buttock, and Hip Pain
- 8.19 Hip Joint Involvement in Osteoarthritis
- 8.20 Painful Peripheral Neuropathy
- 8.21 Peripheral Neuropathies: Clinical Manifestations
- 8.22 Functional Neurologic Disorders
- 8.23 Somatoform Conversion Reactions

## **SECTION 9 FLOPPY INFANT**

- 9.1 Neonatal Hypotonia
- 9.2 Congenital Myopathies
- 9.3 Spinal Muscular Atrophy
- 9.4 Treatment for Spinal Muscular Atrophy
- 9.5 Infantile Neuromuscular Junction Disorders
- 9.6 Arthrogryposis Multiplex Congenita

## **SECTION 10 MOTOR NEURON AND ITS DISORDERS**

- 10.1 Peripheral Nervous System: Overview
- 10.2 Spinal Cord and Neuronal Cell Body With Motor, Sensory, and Autonomic Components of the Peripheral Nerve
- 10.3 Motor Unit
- 10.4 Motor Unit Potentials
- 10.5 Primary Motor Neuron Disease
- 10.6 Amyotrophic Lateral Sclerosis
- 10.7 Clinical Manifestations of Amyotrophic Lateral Sclerosis (Continued)
- 10.8 Mimics of Amyotrophic Lateral Sclerosis
- 10.9 Diagnosis of Amyotrophic Lateral Sclerosis
- 10.10 Treatment of Amyotrophic Lateral Sclerosis
- 10.11 Spinal Muscular Atrophy and Spinal Bulbar Muscular Atrophy

## **SECTION 11 NEUROMUSCULAR JUNCTION AND ITS DISORDERS**

- 11.1 Neuromuscular Junction
- 11.2 Physiology of Neuromuscular Junction
- 11.3 Synaptic Transmission
- 11.4 Synaptic Transmission (Continued)
- 11.5 Repetitive Motor Nerve Stimulation
- 11.6 Patient With Lambert-Eaton Myasthenic Syndrome
- 11.7 Myasthenia Gravis
- 11.8 Myasthenia Gravis (Continued)
- 11.9 Immunopathology of Myasthenia Gravis
- 11.10 Presynaptic Neuromuscular Junction Transmission Disorders: Lambert-Eaton Myasthenic Syndrome and Infantile Botulism
- 11.11 Congenital Myasthenic Syndromes
- 11.12 Foodborne Neurotoxins

## **SECTION 12 MUSCLE AND ITS DISORDERS**

- 12.1 Muscle Fiber Anatomy: Basic Sarcomere Subdivisions
- 12.2 Muscle Fiber Anatomy: Biochemical Mechanics of Contraction
- 12.3 Muscle Membrane, T Tubules, and Sarcoplasmic Reticulum
- 12.4 Muscle Response to Nerve Stimulation
- 12.5 Metabolism of Muscle Cell
- 12.6 Muscle Fiber Types
- 12.7 Overview of Myopathies: Clinical Approach
- 12.8 Dystrophinopathies
- 12.9 Duchenne Muscular Dystrophy
- 12.10 Dystrophinopathies (Continued)
- 12.11 Myotonic Dystrophy and Other Myotonic Disorders
- 12.12 Myotonic Dystrophy and Other Myotonic Disorders (Continued)
- 12.13 Other Types of Muscular Dystrophy
- 12.14 Polymyositis and Dermatomyositis
- 12.15 Polymyositis and Dermatomyositis (Continued)
- 12.16 Inclusion Body Myositis
- 12.17 Immunopathogenesis of Inflammatory Myopathies
- 12.18 Endocrine, Toxic, and Critical Illness Myopathies
- 12.19 Myopathies: Hypokalemia/Hyperkalemia and Periodic Paralysis Channelopathies
- 12.20 Metabolic and Mitochondrial Myopathies
- 12.21 Myoglobinuric Syndromes Including Malignant Hyperthermia
