

SECTION 1 LIVER

- 1.1 Development of Liver
- 1.2 Development of Liver and Its Venous System
- 1.3 Prenatal and Postnatal Circulation
- 1.4 Topography of Liver
- 1.5 Surfaces and Bed of Liver
- 1.6 Lesser Omentum, Variations in Form of Liver
- 1.7 Cellular Elements of Liver
- 1.8 Liver Structure: Schema
- 1.9 Vascular Ductal Relations and Liver Lobules
- 1.10 Intrahepatic Vascular System
- 1.11 Vessel and Duct Distribution, Liver Segments
- 1.12 Arterial Blood Supply of Liver, Biliary System, and Pancreas
- 1.13 Hepatic Artery Variations
- 1.14 Cystic Artery and Its Variations
- 1.15 Portal Vein Tributaries, Portacaval Anastomoses
- 1.16 Portal Vein: Variations and Anomalies
- 1.17 Lymphatic Drainage of Liver and Bile Tract
- 1.18 Innervation of Liver and Bile Tract
- 1.19 Congenital and Familial Hyperbilirubinemias
- 1.20 Congenital Anomalies
- 1.21 Liver Functions
- 1.22 Innate Immune System and Liver
- 1.23 Prothrombin Formation
- 1.24 Physical Diagnosis of Liver Disease
- 1.25 Liver Function Tests
- 1.26 Bilirubin and Bile Acid Metabolism
- 1.27 Bilirubin and Bile Acid Metabolism (Continued)
- 1.28 Hepatic Protein and Bile Acid Metabolism: Normal Serum Protein and Clotting Factors and Cholestasis
- 1.29 Liver Biopsy
- 1.30 Noninvasive Assessments for Hepatic Fibrosis
- 1.31 Imaging Studies of Liver: Ultrasound
- 1.32 Imaging Studies of Liver: Computed Tomography and Magnetic Resonance Imaging
- 1.33 Liver Diseases Caused by Pregnancy and Incidental to Pregnancy
- 1.34 HELLP Syndrome and Eclampsia
- 1.35 Trauma to Liver
- 1.36 Jaundice in Neonatal Period: Causes
- 1.37 Jaundice in Neonatal Period: Manifestations of Kernicterus and Treatment
- 1.38 Congenital Malpositions of Liver
- 1.39 Pathologic Features of Liver Injury
- 1.40 Pathologic Features of Hepatic Regeneration and Atrophy
- 1.41 Pathologic Features of Hepatic Necrosis
- 1.42 Cirrhosis: Overview
- 1.43 Cirrhosis: Fundamental Vascular Changes
- 1.44 Cirrhosis: Clinical Manifestations
- 1.45 Portal Hypertension: Causes
- 1.46 Clinical Determination of Portal Hypertension
- 1.47 Portal Hypertension: Endoscopic Approach
- 1.48 Portal Hypertension: Transjugular Intrahepatic Portosystemic Shunt
- 1.49 Ascites: Pathogenesis
- 1.50 Renal Complications of Liver Disease
- 1.51 Hepatic Encephalopathy
- 1.52 Metabolic-Associated Steatotic Liver Disease
- 1.53 Alcohol-Associated Liver Disease
- 1.54 Hemosiderosis, Hemochromatosis: Overview of Iron Metabolism
- 1.55 Hemosiderosis, Hemochromatosis: Patterns of Iron Deposition in Secondary Iron Overload and Hereditary Hemochromatosis
- 1.56 Wilson Disease

- 1.57 Alpha-1 Antitrypsin Deficiency
- 1.58 Other Inherited Metabolic Disorders (von Gierke Disease, Galactosemia, Niemann-Pick Disease)
- 1.59 Hypoxic Conditions: Shock and Sickle Cell Anemia
- 1.60 Drug-Induced Hepatic Injuries
- 1.61 Acute Viral Hepatitis A and E
- 1.62 Acute Viral Hepatitis A and E (Continued)
- 1.63 Hepatitis B and Hepatitis D
- 1.64 Hepatitis B and Hepatitis D (Continued)
- 1.65 Hepatitis C: Clinical Picture
- 1.66 Hepatitis C: Proteins Encoded by the HCV Genome
- 1.67 Hepatitis Caused by Herpesviridae: Herpes Simplex Virus and Cytomegalovirus
- 1.68 Hepatitis Caused by Herpesviridae: Epstein-Barr Virus and Varicella-Zoster Virus
- 1.69 Spirochetal Infections (Weil Disease, Syphilis)
- 1.70 Granulomatous Liver Disease: Tuberculosis
- 1.71 Granulomatous Liver Disease: Sarcoidosis, Brucellosis, Histoplasmosis
- 1.72 Amebiasis
- 1.73 Echinococcus Cyst (Hydatid Disease)
- 1.74 Schistosomiasis
- 1.75 Primary Biliary Cholangitis: Histologic Features
- 1.76 Primary Biliary Cholangitis: Clinical Features
- 1.77 Primary Sclerosing Cholangitis: Pathologic Features
- 1.78 Primary Sclerosing Cholangitis: Clinical Manifestations
- 1.79 Autoimmune Hepatitis
- 1.80 Vascular Disturbances: Arterial
- 1.81 Vascular Disturbances: Portal Vein
- 1.82 Hepatic Vein Obstruction: Budd-Chiari Syndrome
- 1.83 Cardiac Liver (Congestive Hepatopathy)
- 1.84 Hematologic Malignant Disease and Liver: Hodgkin Disease, Leukemia, Venoocclusive Disease, GraftVersus-Host Disease
- 1.85 Benign Liver Tumors: Hemangioma
- 1.86 Benign Liver Tumors: Focal Nodular Hyperplasia
- 1.87 Benign Liver Tumors: Adenoma
- 1.88 Hepatocellular Carcinoma: Gross Features
- 1.89 Hepatocellular Carcinoma: Histologic Features, and Spread of Primary Carcinoma Within the Liver
- 1.90 Nonsurgical Therapies for Localized Hepatocellular Carcinoma: Percutaneous Ablation, Transarterial Embolization, and Radiotherapy
- 1.91 Cholangiocarcinoma
- 1.92 Metastatic Liver Cancer
- 1.93 Operative Procedures: Wedge Resection/Segmentectomy
- 1.94 Left Lobectomy: Steps 1, 2, and 3
- 1.95 Left Lobectomy: Steps 4, 5, and 6
- 1.96 Extended Right Lobectomy: Steps 1, 2, 3, and 4
- 1.97 Extended Right Lobectomy: Steps 5 and 6
- 1.98 Palliative Therapy in Inoperable Cases: Infusion of Chemotherapeutic Agents via Hepatic Artery Infusion Pump
- 1.99 Liver Transplantation
- 1.100 Liver Transplantation (Continued)

SECTION 2 GALLBLADDER AND BILE DUCTS

- 2.1 Development of Gallbladder and Bile Ducts
- 2.2 Anatomy and Histology of Gallbladder and Bile Ducts
- 2.3 Variations of Extrahepatic Bile Ducts; Accessory Hepatic Ducts
- 2.4 Choledochoduodenal Junction
- 2.5 Function of Gallbladder and Choledochoduodenal Sphincter
- 2.6 Function of Gallbladder and Choledochoduodenal Sphincter: HIDA Scan
- 2.7 Sphincter of Oddi Dysfunction

- 2.8 Sphincter of Oddi Dysfunction (Continued)
- 2.9 Noninvasive Imaging of Gallbladder and Bile Ducts
- 2.10 Invasive Imaging Modalities and Minimally Invasive Interventions of the Bile Duct: Percutaneous Cholangiography, ERCP, and MRCP
- 2.11 Invasive Imaging Modalities and Minimally Invasive Interventions of the Bile Duct: Choledocholithiasis and Cholangitis: Management of Stones
- 2.12 Congenital Anomalies: Gallbladder and Bile Ducts
- 2.13 Cholelithiasis: Stone Formation
- 2.14 Cholelithiasis: Clinical Aspects
- 2.15 Cholelithiasis: Pathologic Features, Choledocholithiasis
- 2.16 Hydrops and Empyema of Gallbladder
- 2.17 Interrelation of Gallbladder Diseases
- 2.18 Cholecystitis: Acute and Chronic
- 2.19 Cholecystitis: Later Stages and Complications
- 2.20 Perforation, Subphrenic Abscess
- 2.21 Bile Duct Fistulae
- 2.22 Biliary Injuries and Cholangitis: Extrahepatic Cholangitis, Strictures, Surgical Accidents
- 2.23 Biliary Injuries and Cholangitis: Open Cholecystectomy
- 2.24 Biliary Injuries and Cholangitis: Laparoscopic Cholecystectomy
- 2.25 Diagnosis of Biliary Tract Disease
- 2.26 Tumors of Gallbladder
- 2.27 Tumors of Bile Ducts
- 2.28 Ampullary Tumors
- 2.29 Postcholecystectomy Syndrome

SECTION 3 PANCREAS

- 3.1 Development of Pancreas
- 3.2 Arterial Blood Supply of Liver, Biliary System, and Pancreas
- 3.3 Anatomy and Histology of Pancreas
- 3.4 Pancreatic Ducts and Variations
- 3.5 Peritoneal Relations of Pancreas
- 3.6 Surgical Approaches to Pancreas
- 3.7 Lymphatic Drainage of Pancreas
- 3.8 Innervation of Pancreas
- 3.9 Normal Secretion of the Pancreas
- 3.10 Biochemical Changes in Acute Pancreatitis
- 3.11 Biochemical Changes in Pancreatic Obstruction
- 3.12 Laboratory Aids in Pancreatic Disease
- 3.13 Congenital Anomalies of Pancreas
- 3.14 Cystic Fibrosis of Pancreas
- 3.15 Acute Pancreatitis
- 3.16 Chronic Pancreatitis
- 3.17 Pancreatic Cysts
- 3.18 Malignant Tumors: Solid Tumors (Exocrine and Endocrine Neoplasms)
- 3.19 Malignant Tumors: Carcinoma, Gross Pathology, Clinical Features
- 3.20 Malignant Tumors: Histology, Metastases
