

Introduction, *Dawson W. Hedges, Shawn D. Gale, and Lance D. Erickson*

Part I - Viral Diseases in Neurocognitive and Neuropsychiatric Medicine

1: The Psychiatric Phenomena of Encephalitis Lethargica, *Paul Bernard Foley*

2: The Association between Herpes Simplex Virus (HSV) and Neurocognitive, Neuropsychiatric Disorders and Dementia, *Guy D. Eslick*

3: Neurobola, *Tshala-Katumbay D. Desire, Mbusa J. Kombi, and Michael J. Boivin*

4: Neurocognitive, Neuropsychiatric, and Neurological Aspects of Severe Acute Respiratory Syndrome - Coronavirus 2 (SARS-CoV2) (COVID-19), *Stuti Chakraborty*

5: The Association Between Human Cytomegalovirus and Neurocognitive Disorders and Dementia, *Guy D. Eslick*

6: Human Immunodeficiency Virus, *Martins Nweke, Shawn D. Gale, and Dawson W. Hedges*

7: Neurocognitive, Neuropsychiatric and Neurological Aspects of Human T-Cell Lymphotropic Virus - Type 1, *Lance D. Erickson and Dawson W. Hedges*

Part II - Bacterial Diseases in Neurocognitive and Neuropsychiatric Medicine

8: Syphilis, *Arielle P. Davis*

9: Post-Treatment Lyme Disease Neuropsychological and Neuropsychiatric Functioning, *Pegah Touradji*

10: Whipple's Disease: Neurology and Neuropsychiatry, *Peter K. Panegyres*

11: Helicobacter pylori and Cognitive Dysfunction, *May A. Beydoun and Ziad W. El-Haji*

12: Neurocognitive Dysfunction Associated with Tuberculous Meningitis, *Sofiati Dian and Paulus Anam Ong*

Part III - Parasitic Diseases in Neurocognitive and Neuropsychiatric Medicine

13: Cerebral Malaria and its Neuroinflammatory, Cognitive, and Neuropsychiatric Associations, *Michael J. Boivin and Jonathan K. Stiles*

14: Toxoplasmosis, Behaviour, and Cognition, *Jaroslav Flegr*

15: Neurocognitive and Neuropsychiatric Manifestations of Human African Trypanosomiasis, *Leonard Ngarka and Alfred K. Njamnshi*

16: Associations Between Toxocara and Neurocognitive Function, *Celia V. Holland*

17: Effects of Neurocysticercosis on Cognitive and Neuropsychiatric Function, *Shawn D. Gale and Dawson W. Hedges*

Part IV - Infectious Diseases and Clinical Conditions and Syndromes

18: Acute Necrotizing Encephalopathy of Childhood, *Rabporn Suntornlohanakul and E. Ann Yeh*

19: Dementia Risk Associated with Infectious Disease, *Thomas J. Farrer*

20: Multiple Sclerosis, *Nicky Dunn and Anna Fogdell-Hahn*

21: Infectious Diseases in Major Depressive Disorder, Bipolar Disorder, and Obsessive-Compulsive Disorder, *Chris H. Miller, Liz Pritchard, Marisol Duran, Martin Shapiro, Matthew D. Sacchet, and Ellen Woo*

22: The Possible Infectious Origins of Myalgic Encephalomyelitis/Chronic Fatigue Syndrome and Fibromyalgia and Other Infectious Diseases Causing Cognitive Consequences, *Kenneth J. Friedman, Ilene S. Ruhoy, Patricia A. Fennell, and Shane George*

Part V - The Microbiome and Neurocognitive and Neuropsychiatric Function

23:Associations Between the Microbiome and Neurocognitive and Neuropsychiatric Function, *Rebecca A. Lundwall*

Part VI - Global Issues of Infectious Disease and Neuropsychological and Neuropsychiatric Function

24:Effects of Infectious Disease on Childhood and Brain Development and Their Association with Poverty, *Shawn D. Gale and Dawson W. Hedges*
