1 Introduction 1

Birte Melsen and Athanasios E. Athanasiou

References 3

Part I Etiology 5

2 The Etiology of Dentofacial and Occlusal Asymmetries – An Overview 7

Birte Melsen

Introduction 7

Congenital 7

Postnatally 8

Thumb Sucking 8

Mandibular Fractures 8

Soft Tissue Burning 12

Iatrogenic Trauma 13

Late Maxillary Expansion 13

References 14

3 Congenital 15

3.1 Distortion/Malformation 16

Pertti Pirttiniemi

Etiology – Definition 16

Craniosynostosis 16

Plagiocephaly 17

Deformation Plagiocephaly 17

Muscular Torticollis 17

Developmental Dysplasia of the Hip 18

Scoliosis 18

Hemifacial Hyperplasia 18

References 19

3.2 Syndromes and Rare Diseases with Asymmetry in the Craniofacial and Dental Regions 21

Hans Gjørup and Dorte Haubek

Syndromes and Rare Diseases 21

Unilateral Overgrowth of Craniofacial or Dental Structures 22

Primary Condylar Hyperplasia 22

Craniofacial and Dental Characteristics 22

Congenital Infiltrating Lipomatosis of the Face (CIL-F)	23
Craniofacial and Dental Characteristics	23
Segmental Odontomaxillary Dysplasia	24
Craniofacial and Dental Characteristics	24
Proteus Syndrome and Klippel–Trenauneau Syndrome	25
Craniofacial and Dental Characteristics	25
Unilateral Underdevelopment of Craniofacial or Dental Structures	25
Oculo-Auriculo-Vertebral Spectrum	25
Craniofacial and Dental Characteristics	25
Saethre–Chotzen Syndrome (SCS)	26
Craniofacial and Dental Characteristics	27
Focal Dermal Hypoplasia (Goltz Syndrome)	27
Craniofacial and Dental Characteristics	27
Incontinentia Pigmenti	27
Craniofacial and Dental Characteristics	27
Hypohidrotic Ectodermal Dysplasia	28
Craniofacial and Dental Characteristics	29
Progressive Hemifacial Atrophy	30
Craniofacial and Dental Characteristics	31
Regional Odontodysplasia (ROD)	31
Craniofacial and Dental Characteristics	31
Oligodontia	31

4 Acquired 37

4.1 Acquired Dentofacial Deformity and Asymmetry 38

Peter B. Stoustrup and Thomas Klit Pedersen

Introduction	39
The Temporomandibular Joint (TMJ) and Its Association with Asymmetric Dentofacial Development	39
TMJ Prenatal Development	39
Temporomandibular Joint (TMJ) and Mandibular Postnatal Growth and Development	39
Dental Occlusion and Acquired Skeletal and Dental Asymmetries	40
Acquired Dentofacial and Dental Asymmetries	40
Autoimmune Conditions	41
Juvenile Idiopathic Arthritis (JIA)	42
Idiopathic Condylar Resorptions	43
Systemic Lupus Erythematosus (SLE), Mixed Connective Tissue Disease (MCTD), and Scleroderma	43
Chronic Recurrent Multifocal Osteomyelitis (CRMO)	44
Rheumatoid Arthritis (RA)	44
Osteoarthritis (OA)	44
Skeletal Growth Diseases	44
Conditions with Skeletal Undergrowth	44
Hemimandibular Hypoplasia	44
Fibrous Dysplasia	45
Conditions with Skeletal Overgrowth	45
Hemimandibular Hyperplasia (HMH)	45
Acromegaly	46
Soft-tissue Conditions	46
Parry–Romberg Syndrome	46
Tumors	46
Temporomandibular Joint (TMJ) Conditions	46
Temporomandibular Joint (TMJ) Ankyloses	46
Temporomandibular (TMJ) Disc Displacement (Internal Derangement)	47

Trauma	47
Management of Acquired Dentofacial Deformity and Asymmetry	47
From Diagnosis to Management	47
Imaging	48
Treatment of Dentofacial Deformity in Growing Individuals	48
Treatment of Nongrowing Individuals	49
Treatment of Individuals with Continuous Mandibular Overgrowth	50
Conclusion	50
Acknowledgment	50
References	51

Part II Localization and Problem List 53

5 Examination of Special Features in Patients with Dentofacial and Occlusal Asymmetries 55

Athanasios E. Athanasiou and Birte Melsen

Introduction	55
Head Posture	56
Functional Assessment	58
Photographic Assessment	61
Conclusion	61
References	67

6 Imaging: Craniofacial Asymmetries 69

David C. Hatcher and Vidhya Venkateswaran

Introduction	69
Asymmetry	70
Differential Diagnosis and Decision Tree for a Craniofacial Asymmetry	70
Imaging for Asymmetry	70
Choosing the Right Imaging Modality	70
Volume Preparation for Analysis	71
Analysis	71
Generalized Procrustes Analysis	72
Euclidian Distance Matrix Analysis (EDMA)	72
Principal Component Analysis	72
Examples of Asymmetrical Individuals	72
Overall Regional Changes Associated with the Developmental Onset of TMJ Disorders	72
Common Disorders and Associated Local and Regional Changes	74
Progressive Condylar Resorption (PCR)	74
Natural History	74
Differential Diagnosis	74
Condylar Hypoplasia	75
Hemifacial Microsomia (HFM)	76
Condylar Hyperplasia	77
Hemimandibular Elongation (HME)	78
Conclusions	78
References	81

7 Cephalometric Radiographic Assessment of Facial Asymmetry 82

Guilherme Janson and Aron Aliaga-Del Castillo

Introduction	82
Radiographic Methods for Diagnosis of Asymmetry	82
Posteroanterior Radiographs	83
Submentovertex Radiographs	83

Evaluation of Asymmetries in Class II Subdivision Malocclusions using Radiographic Methods	85
Concluding Remarks	89
References	89

8 EMG and Ultrasonography of Masticatory Muscles 91

Stavros Kiliaridis

Introduction 91

Understanding the Functional Profile of the Muscle 91

Clinical Methods to Record Masticatory Muscles Functional Capacity 92

Bite Force 92

Electromyography 93

Cross-section Surface and Thickness of Masticatory Muscles: Imaging Techniques – Ultrasonography of the Masticatory Muscles 93

Posterior Crossbite with Functional Shift. Effects on Masticatory Muscles? 95

References 96

9 Localization and Problem List – 3-D Face Reconstruction 99

Karine Evangelista, Camila Massaro, Antonio Carlos de Oliveira Ruellas, and Lucia H. Soares Cevdanes

Introduction 99

Facial Asymmetry Diagnosis and Complementary Exams for Facial Asymmetry Localization 100

Image Analysis in CBCT Scans for Skeletal Asymmetry 102

Head Orientation 102

Scroll Through All Cross-Sectional Slices 102

Assessment of the 3D Rendering Viewing from Different Perspectives 104

List of Problems in Skeletal Craniofacial Asymmetries Through 3D Assessment 104

Zygomatic and Maxillary Unilateral Hypertrophy 105

Sinus and Maxillary Hypoplasia 105

Unilateral Condylar Hyperplasia 107

Unilateral Condylar Resorption 109

Craniofacial Macrosomia 110

Asymmetry Localization and Quantification 110

Mirroring and Superimposition 111

Quantification 113

Determining the Asymmetry Directions 114

Final Considerations 114

Acknowledgments 114

References 114

Part III Management 117

10 Treatment Approaches 119

10.1 Very Early Treatment of Dentofacial Asymmetries: Why, When, and How? 120

Ute E.M. Schneider-Moser and Lorenz Moser

Introduction 120

Etiology 121

Diagnostic Evaluation 121

Clinical Examination 121

What About Radiographs? 121

Very Early Treatment for Unilateral Posterior Crossbite with Class I, II, III Malocclusion 123

Unilateral Posterior Crossbite and Class I Malocclusion 123

Unilateral Posterior Crossbite and Class III Malocclusion 128

Unilateral Posterior Crossbite and Class II Malocclusion	129
What if a Class II Subdivision Develops After Early Crossbite Correction?	132
What About Stability of Very Early Crossbite Correction?	141
Summary	141
References	142
10.2 Tooth Movement and Goal-oriented Mechanics in the Treatment of Patients Exhibiting Asymmetry	144
<i>Bhavna Shroff, Steven M. Siegel, Steven J. Lindauer, and Birte Melsen</i>	
Introduction	144
Diagnosis – Problem List	145
Molar Rotation (First Order)	147
Molar Tipping (Second Order)	149
Posterior Crossbite (Third Order)	150
Early Loss of Mandibular Deciduous Canines	150
Treatment	152
Correction of Unilateral Molar Rotation	152
Current Mechanics Used to Correct a Class II Subdivision Malocclusion	153
Unilateral Tip-back Mechanics	156
Conclusion	158
References	159
11 Treatment Principles	161
11.1 Dentofacial Orthopedics in the Management of Hemifacial Microsomia and Nager Syndrome Cases	162
<i>Birte Melsen and Athanasios E. Athanasiou</i>	
Introduction	162
Case Reports	163
Case Report 1	163
Case Report 2	168
Case Report 3	168
Discussion	171
Conclusion	173
References	173
11.2 Rational Diagnosis and Treatment of Dental Asymmetries	175
<i>Joseph Bouserhal, Nikhillesh Vaid, Ismaeel Hansa, Zakaria Bentahar, Lea J. Bouserhal, and Philippe J. Bouserhal</i>	
Introduction	175
Classification of Dental Asymmetries	176
Diagnosis of Dental Asymmetries	176
Management of Posterior Dental Asymmetries	179
Occlusal Plane	179
Sagittal Plane	180
Molar Tipping	180
Asymmetrical Class II	181
Asymmetrical Space Closure	181
Frontal Plane	181
Management of Anterior Dental Asymmetries	181
Axial Inclination	181
Closing Loops on a Continuous Archwire	188
Asymmetrical Directional Forces	188
Tooth-by-Tooth Movement	188

Anterior Rotational Control	191
Asymmetrical Extractions	193
Conclusions	195
Acknowledgment	195
References	195

12 Orthodontics, Maxillofacial Surgery, and Asymmetries 196

12.1 Dental Arch Shape in Relation to Class II Subdivision Malocclusion 197

Birte Melsen and Padhraig S. Fleming

Introduction	197
Dental Arch Form	197
Case 1	198
Case 2	199
Discussion	199
References	207

12.2 Asymmetric Application of Lingual Arches 208

Kwangchul Choy

Introduction	208
Color Code of the Wire and Force System	209
Shape-driven Concept	209
Force-driven Concept and Definition of Shapes	210
Unilateral Expansion	210
Designing Valid Force System	210
Simulation of Force System	211
Unilateral Tip-back and Unilateral Tip-forward	214
Summary	216
References	219

12.3 Skeletal Anchorage for the Correction of the Canted Occlusal Plane 220

George Anka and Athanasios E. Athanasiou

Treatment of the Canted Occlusal Plane	220
Biomechanics for the Correction of the Canted Occlusal Plane	225
The Trans-Palatal Arch (TPA) Plus Hooks	225
Details of TPA Plus Hooks	231
The Propeller	237
The Ulysses and the Anka-Jorge Plate	240
Extrusion	247
Conclusion	251
References	254

12.4 Managing the Class II Subdivision Malocclusion with Extraction Camouflage: Case Reports 256

Cesare Luzi and Emese Szabó

Introduction	256
Case 1	256
Case 2	259
Conclusions	264
References	268

12.5 The Use of Aligners for Correction of Asymmetries 269

Eugene Chan and M. Ali Darendeliler

Introduction	269
--------------	-----

Dental Corrections (Non-extraction Therapies)	270
Correction of Functional Shift in Mixed Dentition	270
Congenitally Missing Tooth in Teen Treatment	270
Dental Correction in Adult Treatment	276
Class II Correction	278
Class III Correction	278
Dental Implants	283
Dental Corrections (Extraction Therapies)	285
Canine Substitution	285
Single Premolar Extraction	288
Single Lower Incisor Extraction	288
Asymmetrical Premolar Extractions to Achieve Symmetry	292
Symmetrical Premolar Extractions in Asymmetrical Case	292
Skeletal Anchorage Therapies	294
Molar Mesialization	295
Unilateral Segmental Distalization	302
Correction of Occlusal Plane Canting	306
Surgical Intervention	309
Asymmetrical Class III Correction	315
Asymmetrical Class II Correction	318
Conclusions	321

12.6 TMJ Conditions Causing Facial Asymmetry: Diagnosis and Treatment 329

<i>Larry M. Wolford</i>	
Introduction	329
Overdevelopment	329
Condylar Hyperplasia Type 1	330
Condylar Hyperplasia Type 2	332
Unilateral Facial Under-development	335
Adolescent Internal Condylar Resorption (AICR)	336
Reactive Arthritis	338
Trauma	339
TMJ Ankylosis	339
Hemifacial Microsomia (HFM)	341
Connective Tissue/Autoimmune Diseases (CT/AI)	344
References	346

12.7 Distraction Osteogenesis in Maxillofacial Surgery 351

<i>Ioannis Iatrou and Nadia Theologie-Lygidakis</i>	
Introduction	351
Biological Basis	351
Staging of Distraction Osteogenesis	352
Indications for Distraction Osteogenesis	352
The Distractors and Their Function	353
Preoperative Patient Evaluation	353
Surgical Procedure	354
Mandibular Distraction Osteogenesis	354
Maxillary Distraction Osteogenesis	355
Postoperative Procedure – Activation of the Device	358
Complications	359
Orthodontic Collaboration	361

Distraction Osteogenesis and/or Conventional Orthognathic Surgery	362
Conclusion	362
References	362

12.8 Maxillo-mandibular Growth in Hemifacial (or Craniofacial) Microsomia 364

Maria Costanza Meazzini di Seyssel

Introduction – Clinical Appearance 364

Craniofacial Growth in Hemifacial Microsomia 364

Long-term Growth in Nontreated Hemifacial Microsomia Patients 364

Is Maxillary Growth in Hemifacial Microsomia Inhibited by Mandibular Growth? 366

Long-term Growth After Distraction Osteogenesis of the Mandible 368

Can Functional Appliances Increase Postsurgical Stability After Distraction Osteogenesis? 368

Final Considerations on Distraction Osteogenesis in Hemifacial Microsomia 368

Long-term Results After Costochondral Graft in Growing Patients with Hemifacial Microsomia 368

Final Considerations on Costochondral Graft in Hemifacial Microsomia 370

Clinical and Prognostic Differences in the Orthopedic and Surgical Treatment of Hemimandibular Hypoplasia in Hemifacial Microsomia versus Pseudo-hemifacial Microsomia (or Condylar Coronoid Collapse

Deformity) 371
