

Χαρακτηριστικά:

- Brings the **child's perspective** into focus through the use of numerous children's drawings and quotes
- Contains a **new chapter** on the juvenile justice system and school-to-prison pipeline, as well as **updates to topics and language** that are inclusive of BIPOC families, LGBT families, those experiencing poverty and related material insecurities, children experiencing foster care, and community partnerships to help families under stress
- Draws upon the **knowledge and experience** of experts in the field and includes **new guidance on** addressing social determinants of health, promoting parent-child attachment, promoting equitable school readiness, and supporting families through traumatic experiences
- Provides Observational, Interview, and Examination points for each age, and presents a "**Heads Up**" **section in each chapter**, alerting clinicians to certain behaviors that may be present
- Discusses **key topics** such as childhood depression, digital and social media, educational opportunity, community violence, bullying, learning disabilities, and much more
- Includes **data gathering sections** at the end of each chapter that demonstrate how to apply information in clinical settings by using age-appropriate interview techniques and activities
- **An eBook version is included with purchase.** The eBook allows you to access all of the text, figures and references, with the ability to search, customize your content, make notes and highlights, and have content read aloud. Additional digital ancillary content may publish up to 6 weeks following the publication date
