About the Companion Website	<i>xxxi</i>

1	Advancing Veterinary Pain Management into a New Era	1
	<i>Mary Ellen Goldberg</i>	
1.1	Introduction	1
1.2	Brief History of Human Pain Management	1
1.3	Veterinary Pain Management Through the Centuries	3
1.4	Animal Research Contributions	3
1.5	History of Animal Nursing Staff	4
1.5.1	National Association of Veterinary Technicians in America Recognized Veterinary Technician Specialty Academies	4
1.6	Eyewitness to 50 Years of Changes for Veterinary Technicians	5
1.7	Veterinary Technician Pioneers in Pain Management	6
1.8	Future Directions for Veterinary Technician Pain Management	7
1.9	Conclusion	7
	References	7
2	Careers in Animal Pain Management	9
	<i>Tasha McNerney and Stephen Niño Cital</i>	
2.1	Introduction	9
2.2	Pain Management Certifications Available for Veterinary Technicians/Nurses	9
2.2.1	Certified Veterinary Pain Practitioner (CVPP)	9
2.2.2	Veterinary Technician Specialist (Anesthesia and Analgesia), and Veterinary Technician Specialist (Laboratory Animal Medicine – Research Anesthetist)	10
2.2.3	Veterinary Technician Specialist (Physical Rehabilitation)	11
2.2.4	Surgical Research Anesthetist (SRA)	11
2.2.5	The University of Tennessee Companion Animal Pain Management Certificate Program	11
2.2.6	AAHA Pain Management Guidelines Certificate Course (AAHA Pain Management Champion)	11
2.2.7	WSAVA Certificate in Pain Management	12
2.2.8	Canine Rehabilitation Veterinary Technician Certifications	12

- 2.2.9 Equine Rehabilitation Veterinary Technician Certifications 12
- 2.2.10 Certified Equine Massage Therapist 12
- 2.2.11 Animal Acupressure and Massage 12
- 2.2.12 TCVM Veterinary Technician Programs Offered by the Chi Institute 12
- 2.2.13 Animal Acupuncture 13
- 2.2.14 Low-Stress Certifications 13
- 2.2.15 Veterinary Anaesthesia and Analgesia (MSc), (PgDip), (PgCert), or (PgProfDev) 13
- 2.2.16 Canine Arthritis Management Practitioner (CAMP) 14
- 2.2.17 Certified Companion Animal Rehabilitation Therapist (CCAT) 14
- 2.3 Leveraging Veterinary Technicians in Pain Management 14
- 2.4 Conclusion 15

3 Pain Physiology and Psychology 17

Stephen Niño Cital, Tasha Mc Nerney, and Robin Saar

- 3.1 Introduction 17
- 3.2 What Is “Pain” 17
 - 3.2.1 The Negative Effects of Pain 18
- 3.3 Breaking Down the Nociceptive Pathway 18
 - 3.3.1 Transduction 18
 - 3.3.2 Transmission 20
 - 3.3.3 Modulation 20
 - 3.3.4 Perception 20
 - 3.3.5 The Dorsal Horn 21
 - 3.3.6 Ventral Horn and Intermediate Zone 23
 - 3.3.7 White Matter 23
 - 3.3.8 Descending Pathways 23
 - 3.3.9 Spinothalamic Tract 23
 - 3.3.10 Spinoreticular Tract 24
 - 3.3.11 Peripheral Sensitization 24
 - 3.3.12 Central Sensitization 24
- 3.4 The Endocannabinoid System and Pain 27
- 3.5 The Gate Control Theory 28
- 3.6 Psychological Aspects of Pain 29
 - 3.6.1 Personality and the Pain Experience 29
 - 3.6.2 Stress and Anxiety on Pain 29
 - 3.6.3 Pain Catastrophizing 29
 - 3.6.4 Boredom and Pain 30
 - 3.6.5 Neuroplasticity and the Memory of Pain 31
 - 3.6.6 Caregiver Placebo 31
- 3.7 Types of Pain 32
 - 3.7.1 Somatic, Visceral, and Referred Pain 32
 - 3.7.2 Physiological/Adaptive/Acute Pain 32
 - 3.7.3 Pathological/Maladaptive/Chronic Pain 33
 - 3.7.4 Neuropathic Pain 33
 - 3.7.5 Radicular Pain 34
 - 3.7.6 Chronic/Persistent Postsurgical Pain 34
 - 3.7.7 Complex Regional Pain Syndrome 35

- 3.7.8 Social Resilience and Pain 35
- 3.8 The Microbiome and Pain Pathophysiology 35
 - 3.8.1 What Is a Microbiome? 36
 - 3.8.2 Determining “Healthy” in a Microbiome 37
 - 3.8.3 Gut Microbiome Imbalance or Dysbiosis 37
 - 3.8.4 The Gut-Brain Axis 38
 - 3.8.5 Microbial Derived Mediators 38
 - 3.8.6 Pathogen-Associated Molecular Patterns (PAMPs) 38
 - 3.8.7 Microbial-Derived Metabolites 39
 - 3.8.8 Neurotransmitters or Neuromodulators 39
 - 3.8.9 Endocannabinoid Axis 41
 - 3.8.10 Pain Medication and the Microbiome 42
- References 42

4 Integrating Pain Recognition and Scoring in Companion, Equine, Food and Fiber Species, and Exotic/Lab Animal Species 47

Stephen Niño Cital, Ian Kanda, Taly Reyes, Jessica Birdwell, and Mary Ellen Goldberg

- 4.1 Introduction 47
- 4.2 Pain Domains 48
 - 4.2.1 Pain Intensity and Affect 48
 - 4.2.2 Temporal Dimensions 48
 - 4.2.3 Location and Bodily Distribution of Pain 48
- 4.3 Disposition and Personality 48
- 4.4 Breed or Species Bias 50
- 4.5 Dysphoria, Emergence Agitation, and Emergence Delirium 51
- 4.6 Placebo, Caregiver Placebo, and Placebo-by-Proxy 52
- 4.7 Non-species-specific Assessments 52
 - 4.7.1 Quantitative Sensory Testing (QST) 52
 - 4.7.2 Temporal Summation (TS) 53
 - 4.7.3 Nociceptive Withdrawal Reflex (NWR) 53
 - 4.7.4 Gait Analysis 53
 - 4.7.5 Pain Biomarkers 53
 - 4.7.6 Machine Learning and Artificial Intelligence (AI) 54
 - 4.7.7 Activity Monitors (AMs) 54
 - 4.7.8 Facial Expression or Grimace Scales 55
- 4.8 Clinical Pain Scoring Tools (Canine and Feline) 55
 - 4.8.1 Canine Acute Pain Scoring 56
 - 4.8.1.1 Glasgow Composite Measure Pain Scale – Short and Long Forms (CMPS) (Validated) 56
 - 4.8.1.2 French Association for Animal Anesthesia and Analgesia Pain Scoring System (4A-Vet) (Validated) 58
 - 4.8.1.3 University of Melbourne Pain Scale (UMPS) (Validated) 58
 - 4.8.2 Canine Chronic Pain Scoring 58
 - 4.8.2.1 Canine Brief Pain Inventory (CBPI) (Validated) 58
 - 4.8.2.2 Helsinki Chronic Pain Index (HCPI) (Validated) 59
 - 4.8.2.3 Liverpool Osteoarthritis in Dogs (LOAD) (Validated) 59
 - 4.8.3 Feline Acute Pain Scoring 59

- 4.8.3.1 Glasgow Composite Measure Pain Scale-Short-Form (CMPS-SF) (Validated) 59
- 4.8.3.2 Feline Grimace Scale (FGS) (Validated) 60
- 4.8.4 Feline Chronic Pain Scoring 60
 - 4.8.4.1 Client-specific Outcome Measures – Feline (CSOMf) (Validated) 60
 - 4.8.4.2 Montreal Instrument for Cat Arthritis Testing-caretaker (MI-CAT-(c)) (Validated) 60
 - 4.8.4.3 Feline Musculoskeletal Pain Index (FMPI) (Not Validated) 60
 - 4.8.4.4 Oral Pain Scale – Canine/Feline (COPS–C/F) (Validated) 62
 - 4.8.4.5 Cincinnati Orthopedic Disability Index (CODI) (Not Validated) 62
 - 4.8.4.6 HHHHHMM Scale (Not Validated) 62
 - 4.8.4.7 VetMetrica™ Health-related Quality of Life (HRQoL) (Validated) 62
 - 4.8.4.8 Food and Fiber Species Pain Recognition and Scoring 63
- 4.9 Bovids 63
 - 4.9.1 Indications of Pain in Cattle 71
- 4.10 Small Ruminants and Camelids 71
- 4.11 Swine 73
 - 4.11.1 Normal Behavioral Observations in Swine 73
- 4.12 Equid Pain Recognition and Scoring 73
 - 4.12.1 Horses 74
 - 4.12.1.1 Appearance of the Normal Horse 74
 - 4.12.1.2 Somatic Pain Indicators 75
 - 4.12.1.3 Signs of Laminitis Pain Vary with the Progression of the Disease 75
 - 4.12.1.4 Visceral Pain Indicators 75
 - 4.12.1.5 Horse Grimace Scale 75
 - 4.12.2 Donkeys 77
- 4.13 Exotic Species Pain Recognition and Scoring 77
 - 4.13.1 Birds 77
 - 4.13.2 Appearance of a Non-painful Bird 78
 - 4.13.3 Appearance of a Painful Bird 78
 - 4.13.4 Developing a Pain Score in Birds 81
 - 4.14 Reptiles 82
 - 4.14.1 Appearance of a Nonpainful Reptile 82
 - 4.14.2 Appearance of a Reptile in Pain 82
 - 4.14.3 Developing a Pain Score in Reptiles 83
 - 4.15 Amphibians and Fish 84
 - 4.15.1 Appearance of a Nonpainful Fish and Amphibian 84
 - 4.15.2 Appearance of a Painful Fish and Amphibian 84
 - 4.15.3 Developing a Pain Scoring Assessments in Fish and Amphibians 84
 - 4.16 Small Exotic Mammals 85
 - 4.16.1 Appearance of Nonpainful Small Exotic Mammals 85
 - 4.16.2 Appearance of Painful Small Exotic Mammals 85
 - 4.16.3 Developing a Pain Score in Small Exotic Mammals 85
- References 89

5 Analgesia Pharmacology 95

Darci Palmer and Stephen Niño Cital

- 5.1 Introduction 95
- 5.2 Definitions 95

5.3	Analgesic Drugs	96
5.4	Opioids	97
5.4.1	Full Opioid Agonists	97
5.4.2	Individual Drug Facts	99
5.4.2.1	Morphine	99
5.4.2.2	Meperidine (Pethidine)	99
5.4.2.3	Methadone	99
5.4.2.4	Hydromorphone	100
5.4.2.5	Oxymorphone	100
5.4.2.6	Fentanyl, Remifentanyl, Sufentanyl, Alfentanyl, Carfentanyl	100
5.4.2.7	Fentanyl Patches	100
5.4.2.8	Codeine	101
5.4.2.9	Hydrocodone and Oxycodone	101
5.4.2.10	Tramadol	101
5.4.2.11	Tapentadol	102
5.4.3	Partial Agonist Opioids	102
5.4.3.1	Buprenorphine	102
5.4.3.2	Simbadol	104
5.4.3.3	Zorbiuim	104
5.4.3.4	Sustained or Extended Release (SR or ER) Buprenorphine	104
5.4.3.5	Buprenorphine Patches	105
5.4.4	Agonist/Antagonist Opioids: Butorphanol and Nalbuphine	105
5.4.5	Opioid Antagonists: Naloxone, Nalmefene, Naltrexone	105
5.4.6	Mixing Opioids	106
5.5	Non-steroidal Anti-inflammatory Drugs (NSAIDs)	106
5.5.1	Washout	108
5.5.2	Piprant Class	108
5.6	Corticosteroids	109
5.7	Cannabinoids	109
5.8	Local Anesthetics	110
5.8.1	Nocita	110
5.8.2	Systemic Toxicity	110
5.8.3	Lidocaine as a CRI	111
5.9	Gabapeninooids	111
5.9.1	Gabapentin	111
5.9.2	Pregabalin	112
5.10	Alpha-2 Agonists	112
5.10.1	Xylazine, Medetomidine, Dexmedetomidine, Romifidine, Detomidine	112
5.10.2	Zenalpha® (Medetomidine and Vatinoxan)	113
5.11	<i>N</i> -Methyl-D-Aspartate (NMDA) Antagonists	114
5.11.1	Ketamine and Tiletamine	114
5.11.2	Precautions/Contraindications	115
5.11.3	Amantadine and Memantine	115
5.12	Neurokinin-1 Inhibitors	115
5.13	Bisphosphonates	116
5.14	Acetaminophen (Paracetamol)	116
5.15	Frunevetmab (Solensia®) and Bedinvetmab (Librela®)	117
5.16	Polysulfated Glycosaminoglycans (PSGAGs)	117

- 5.17 Dipyrone (Metamizole) 117
- 5.18 Tricyclic Antidepressants (TCAs), Selective Serotonin Reuptake Inhibitors (SSRIs), and Serotonin–Norepinephrine Reuptake Inhibitors (SNRIs) 118
- 5.19 Acepromazine 119
- 5.20 Trazodone 119
- References 119

6 Regional Anesthesia and Local Blocks 127

Imeldo Laurel, Jeanette M. Eliason, Amy Dowling, Tasha McNerney, and Stephen Niño Cital

- 6.1 Introduction 127
- 6.2 Current Drug Options for Regional Anesthesia and Nerve Blocks 128
 - 6.2.1 Mixing Local Anesthetics 129
 - 6.2.2 Adjunctive Agents 129
 - 6.2.3 Volume Expansion, Onset Time, and Buffering 129
 - 6.2.4 Maximum Recommended Dose (MRD) 130
 - 6.2.5 Equipment Selection 131
- 6.3 Dental and Facial Regional/Local Anesthesia 133
- 6.4 Dentistry and Facial Blocking Techniques 133
 - 6.4.1 Inferior (Caudal) Alveolar Nerve Block (Extraoral/Intraoral) 133
 - 6.4.2 Middle Mental Foramen Nerve Block 135
 - 6.4.3 Infraorbital Nerve Block 136
 - 6.4.4 Major Palatine Block: Small Animal 137
 - 6.4.5 Caudal Maxillary Block 138
 - 6.4.6 Auriculopalpebral Nerve Block: Motor Blockade of the Eyelid 138
 - 6.4.7 Retrobulbar Block 140
 - 6.4.8 Frontal Nerve (Supraorbital Foramen) Block 140
 - 6.4.9 Auriculotemporal Block + Greater Auricular Block 142
- 6.5 Common Regional and Local Anesthetic Techniques: Less Specified 143
 - 6.5.1 Intraperitoneal Lavage Technique for Dogs and Cats 143
 - 6.5.2 Incisional Line Block 143
 - 6.5.3 Circumferential Block 144
- 6.6 Regional and Local Blocks of the Thorax and Abdomen 144
 - 6.6.1 Intercostal Blocks 144
 - 6.6.2 Interpleural Block 146
 - 6.6.3 Intratesticular and Spermatic Cord Block 147
 - 6.6.4 Sacrococcygeal Block 147
 - 6.6.5 Epidural 149
 - 6.6.6 Spinal Anesthesia 153
 - 6.6.7 Epidural Catheter 153
 - 6.6.8 Erector Spinae Plane Block (ESP) 156
 - 6.6.9 Thoracic Paravertebral Block 157
 - 6.6.10 Transversus Abdominis Plane (TAP) Block 158
- 6.7 Blocks of the Limbs 160
 - 6.7.1 Femoral-Saphenous Nerve Complex Block 160
 - 6.7.2 Sciatic Nerve Block 162
 - 6.7.3 Brachial Plexus Block 164
 - 6.7.4 Radial, Ulnar, Median, and Musculocutaneous (RUMM) Nerve Blocks 166

- 6.8 Common Equine Techniques 167
- 6.8.1 Local Analgesia for Horse Castration 167
- 6.8.2 Caudal Epidural in the Horse 167
- 6.9 Common Production Animal Techniques 168
- 6.9.1 Analgesia for Castration 168
- 6.9.2 Cornual Nerve Block 170
- 6.9.3 Analgesia for Livestock Epidural 171
- 6.9.4 Local Anesthetic Blocks for Exotics and Laboratory Animals 174
- References 175

7 Analgesia for Acute Pain 179

Tasha McNerney, Melissa Streicher, and Karen Maloa Roach

- 7.1 Introduction 179
- 7.2 Fear, Anxiety, and Stress in the Acute Pain Response 180
- 7.3 Multimodal Therapies 180
- 7.4 Types of Acute Pain 181
 - 7.4.1 Surgical Pain 181
 - 7.4.1.1 Premedication 182
 - 7.4.1.2 Induction 183
 - 7.4.1.3 Maintenance 183
 - 7.4.1.4 Postoperative Analgesic Medications 183
 - 7.4.1.5 Pain Vacation 184
 - 7.4.1.6 Take-home Analgesics 184
 - 7.4.1.7 Local Anesthesia Techniques 185
 - 7.5 Creating an Effective Acute Pain Analgesic Plan 185
 - 7.5.1 Continuous Rate Infusions 185
 - 7.6 Analgesia Plans for Painful Procedures 186
 - 7.6.1 Reproductive Tract Surgery 186
 - 7.6.1.1 Premedication 187
 - 7.6.1.2 Regional Anesthesia 187
 - 7.6.1.3 Maintenance 187
 - 7.6.1.4 Postoperative Analgesic Plan 187
 - 7.6.1.5 Home Medications 187
 - 7.6.2 Analgesia for Surgery Involving the Eye 188
 - 7.6.2.1 Premedication 188
 - 7.6.2.2 Regional Anesthesia 188
 - 7.6.2.3 Maintenance 188
 - 7.6.2.4 Postoperative Analgesic Plan 188
 - 7.6.2.5 Home Medications 188
 - 7.6.3 Analgesia Techniques for Surgery Involving the Ear 189
 - 7.6.3.1 Premedication 189
 - 7.6.3.2 Regional Anesthesia 189
 - 7.6.3.3 Maintenance 189
 - 7.6.3.4 Postoperative Analgesic Plan 189
 - 7.6.3.5 Home Medications 189
 - 7.6.4 Gastrointestinal Procedures or Acute Abdominal Pain 190
 - 7.6.4.1 Premedication 190

- 7.6.4.2 Maintenance 190
- 7.6.4.3 Regional Anesthesia 190
- 7.6.4.4 Postoperative Analgesic Plan 191
- 7.6.4.5 Home Medications 191
- 7.6.5 Thoracic Procedures 191
- 7.6.5.1 Premedication 191
- 7.6.5.2 Maintenance 192
- 7.6.5.3 Regional Anesthesia 192
- 7.6.5.4 Postoperative Analgesic Plan 192
- 7.6.5.5 Home Medications 192
- 7.6.6 Protocols for Patients with Cranial Disease, Injury, or Neurosurgery 193
- 7.6.6.1 Premedication 194
- 7.6.6.2 Maintenance 194
- 7.6.6.3 Regional Anesthesia 194
- 7.6.6.4 Postoperative Analgesic Plan 194
- 7.6.6.5 Home Medications 194
- 7.6.7 Analgesia Protocols for the Patient with Urinary Disease 194
- 7.6.7.1 Premedication 194
- 7.6.7.2 Regional Anesthesia 195
- 7.6.7.3 Maintenance 195
- 7.6.7.4 Postoperative Analgesic Plan 195
- 7.6.7.5 Home Medications 195
- 7.6.8 Minimally Invasive Procedures 195
- 7.6.8.1 Premedication 195
- 7.6.8.2 Regional Analgesia 196
- 7.6.8.3 Maintenance 196
- 7.6.8.4 Postoperative Analgesic Plan 196
- 7.6.8.5 Home Medications 196
- 7.7 Orthopedic Procedures 196
- 7.7.1 Orthopedic Procedures of the Forelimb 196
- 7.7.1.1 Premedication 196
- 7.7.1.2 Maintenance 196
- 7.7.1.3 Regional Anesthesia 196
- 7.7.1.4 Postoperative Analgesic Plan 197
- 7.7.1.5 Home Medications 197
- 7.7.2 Hindlimb Amputation, Spinal Disease, Spinal Surgery, and Pelvic Fracture Repair 197
- 7.7.2.1 Premedication 198
- 7.7.2.2 Maintenance 198
- 7.7.2.3 Regional Anesthesia 198
- 7.7.2.4 Postoperative Analgesic Plan 198
- 7.7.2.5 Home Medications 198
- 7.7.3 Surgery of the Tail 198
- 7.7.4 Mandibulectomy/Maxillectomy 200
- 7.7.4.1 Inferior Alveolar (Mandibular) Blocks 200
- 7.7.4.2 Maxillary Blocks 200
- 7.8 Postoperative Patient Evaluation 201
- 7.9 Management of Painful Dermatologic Conditions 201

- 7.9.1 Sensory Perception in the Skin 202
- 7.9.2 Recognizing Cutaneous Discomfort 202
- 7.9.3 Painful and Pruritic Cutaneous Conditions 203
 - 7.9.3.1 Allergic Skin Disease 204
 - 7.9.3.2 Skin Infections 204
 - 7.9.3.3 Autoimmune and Immune-mediated Dermatopathies 206
 - 7.9.3.4 Cutaneous Burns 207
- 7.9.4 Treatment of Cutaneous Pain and Pruritus 211
- 7.10 Conclusion 212

8 Analgesia for the Pregnant, Neonatal, and Pediatric Patient 217

Darci Palmer and Natalie Pedraja

- 8.1 Introduction 217
 - 8.1.1 Pain Management During Pregnancy 217
 - 8.1.2 Analgesic Drugs Used During Pregnancy and C-Sections 218
 - 8.1.2.1 Nonsteroidal Anti-inflammatory Drugs (NSAIDs) 219
 - 8.1.2.2 Opioids 219
 - 8.1.2.3 Alpha-2 Agonists 221
 - 8.1.2.4 Dissociative Agents 222
 - 8.1.2.5 Local and Regional Blocks 222
- 8.2 Postoperative Analgesia 224
- 8.3 Anesthesia and Analgesia Case Management for a Cesarean Section 224
- 8.4 Pain Management for Neonates and Pediatrics 227
 - 8.4.1 Insulting the Neonatal Pain Pathways 227
 - 8.4.1.1 NMDA Receptors 228
 - 8.4.1.2 Cutaneous Receptors 228
 - 8.4.2 Treatment of Pain in Neonatal and Pediatric Patients 228
 - 8.4.2.1 Opioids 228
 - 8.4.2.2 Nonsteroidal Anti-inflammatory Drugs (NSAIDs) 229
 - 8.4.2.3 Alpha-2 Agonists 229
 - 8.4.2.4 Local and Regional Blocks 229

9 Analgesia in the Emergency and Critical Care Setting 233

Heather Ann Scott and Rachel Stauffer

- 9.1 Introduction 233
- 9.2 Treating Pain in the Emergency and Critical Care Veterinary Patient 233
- 9.3 Evaluating Pain in ER and ICU Patients 234
- 9.4 Nursing Care and the Role of Pain Management in Kirby's Rule of 20 239
- 9.5 Pain and the Physiological Stress Response: A Summary 240
- 9.6 Sleep Deprivation 241
- 9.7 Windup Pain in the ER 242
- 9.8 Techniques and Nuances for Analgesic Delivery in the Emergency Room 242
 - 9.8.1 Pain Vacations (Acute Pain) 243
 - 9.8.2 Lidocaine Use in ECC 243
 - 9.8.3 Opioid Analgesia for Emergency and Critical Care Patients 244

- 9.8.4 Local/Regional Analgesia in ECC 244
- 9.8.5 NSAIDs 245
- 9.8.6 Maropitant 245
- 9.8.7 Physical Rehabilitation Methods in ECC 245
- 9.9 Common Painful Conditions in the ER/ICU Setting 246
 - 9.9.1 Fractures 246
 - 9.9.2 Acute Soft Tissue Injuries 247
 - 9.9.3 Feline Lower Urinary Tract Obstruction 247
 - 9.9.4 Trauma Patients 247
 - 9.9.5 Abdominal Pain in ECC Patients 247
 - 9.9.6 Acute Swelling and Edema 248
- 9.10 Conclusion 248
 - References 249

10 Chronic Pain Management for the Companion Animal 253

Taly Reyes, Jessica Birdwell, and Stephen Niño Cital

- 10.1 Introduction 253
- 10.2 The Complexity of Chronic Pain 253
- 10.3 Neuropathic Pain 255
- 10.4 Common Chronic Pain Conditions 255
 - 10.4.1 Chronic Joint Pain-Osteoarthritis (OA) 255
 - 10.4.2 Oncologic/Malignant Pain 257
 - 10.4.3 Chiari Malformation Pain 257
 - 10.4.4 Headaches and Migraines in Animals 259
 - 10.4.5 Meningitis 259
 - 10.4.6 Chronic Wounds 260
- 10.5 Assessing Chronic Pain 261
- 10.6 Goals and Modalities for Treating Chronic Pain 261
- 10.7 Pharmacological Interventions 261
 - 10.7.1 Pain Vacation (Chronic Pain) 262
 - 10.7.2 Mesotherapy 262
 - 10.7.3 Transdermal Medications 263
 - 10.7.4 Non-steroidal Anti-Inflammatory Drugs (NSAIDs) 264
 - 10.7.5 Acetaminophen 265
 - 10.7.6 Corticosteroids 265
 - 10.7.7 Opioids 266
 - 10.7.8 Atypical Opioids: Tramadol and Tapentadol 266
 - 10.7.9 Tricyclic Antidepressants (TCAs), Selective Serotonin Reuptake Inhibitors (SSRIs), and Serotonin–Norepinephrine Reuptake Inhibitors (SNRIs) 267
 - 10.7.10 Gabapentinoids: Gabapentin and Pregabalin 268
 - 10.7.11 N-Methyl-D-Aspartate Antagonists 269
 - 10.7.12 Neurokinin-1 Inhibitors 269
 - 10.7.13 Bisphosphonates 270
 - 10.7.14 Anti-NGF, Monoclonal Antibodies 270
 - 10.7.15 Nutraceuticals and Animal Health Supplements 270
