

SECTION 1: EMERGING AND ESTABLISHED TECHNOLOGIES

Section Editors: Eric J. Nestler and Kafui Dzirasa

1. Genetic Methodologies and Applications

Ben Neale

2. Multiscale Network Approaches to Decode the Complexity

of Common Human Diseases

Minghui Wang, Yiyuan Liu, Eric Schadt, and Bin Zhang

3. The Role of the Epigenome in Brain Development, Function, and Disease

Schahram Akbarian, John F. Fullard, Kiran Girdhar, and Panos Roussos

4. Methods for In Vivo Gene Manipulation

Lisa M. Monteggia and Wei Xu

5. Application of Stem Cells to Understanding

Psychiatric Disorders

Marcella, Burtelle, Giorgia Quadrato, and Kristen Brennand

6. Optogenetics and Related Technologies for Psychiatric Disease Research: Current Status and Challenges

Lief E. Fenno and Karl Deisseroth

7. Methods for In Vivo Circuit Analysis

Micah Johnson, Yassine Filali, Radha Velamuri, Kafui Dzirasa, and Rainbo Hultman

8. Magnetic Resonance Methodologies

Hanzhang Lu and Peter A. Bandettini

9. PET Brain Imaging Methodologies

Ansel Hillmer, Kelly P. Cosgrove, and Richard E. Carson

10. Neuromodulation and Psychiatric Disorders

Andrew Smith, Martijn Figee, and Helen Mayberg

SECTION 2: SCHIZOPHRENIA

Section Editors: Judy Ford and Dan Mathalon

11. Diagnosis and Epidemiology of Schizophrenia

Julie Walsh-Messinger, Ariella Farzan Nikou, and Dolores Malaspina

12. Genetics of Schizophrenia

Sophie E. Legge, Antonio F. Pardiñas, and Michael C. O'Donovan

13. Neuroimaging and Circuit Mechanisms of Schizophrenia

Neil D. Woodward, Stephan Heckers, Dost Ongur, and Julia M. Sheffield

14. Animal and Cellular Models for the Study of Schizophrenia

Joshua A. Gordon

15. Neural and Circuit Mechanisms of Schizophrenia

Samuel J. Diemel and David A. Lewis

16. Glial-Immune Mechanisms of Schizophrenia: Animal and Human Studies

Kowsar Teymouri, Mahbod Ebrahimi, Jennie G. Pouget, and James L. Kennedy

17. Translational Models for Psychotic Symptoms

Phil Corlett

18. Current Treatments for Schizophrenia

Donald C. Goff

19. Novel Approaches for Treating Schizophrenia

Steve M. Paul and Alan Breier

SECTION 3: BIPOLAR DISORDER

Section Editor: Alex Charney

20. Diagnosis and Epidemiology of Bipolar Disorder

Kathleen R. Merikangas and Emma K. Stapp

21. Genetics of Bipolar Disorder

Dongjing Liu and Niamh Mullins

22. Neuroimaging and Circuit Mechanisms of Bipolar Disorder

E. Kale Edmiston, Michele A. Bertocci, Merage Ghane-Ezabadi, and Mary L. Phillips

23. Animal and Cellular Models for the Study of Bipolar Disorder

Michael J. McCarthy and Jared W. Young

24. Molecular and Cellular Mechanisms of Bipolar Disorder: Animal and Human Studies

Colleen A. McClung and Hilary P. Blumberg

25. Current Treatments for Bipolar Disorder

Nicole W. Simons and Alexander W. Charney

26. Novel Approaches for Treating Bipolar Disorder

Nefize Yalin, Allan H. Young, and Carlos A. Zarate, Jr.

SECTION 4: DEPRESSION

Section Editor: John Krystal

27. Diagnosis and Epidemiology of Depression

James W. Murrough

28. Genetics of Depression

Daniel Levey and Joel Gelernter

29. Neuroimaging and Circuit Mechanisms of Depression

Adrienne L. Romer, Michele A. Bertocci, Mary L. Phillips, and Diego A. Pizzagalli

30. Animal Models for the Study of Depression

Lyonna F. Parise, Astrid M. Cardona-Acosta, Eric M. Parise, and Carlos A. Bolaños-Guzmán

31. Neurotrophic Mechanisms of Depression: Animal and Human Studies

Lisa M. Monteggia

32. Glial-Immune Mechanisms of Depression: Animal and Human Studies

Georgia E. Hodes, Caroline Ménard, Madeline L. Pfau, and Scott J. Russo

33. Neuroendocrine Mechanisms of Depression: Animal and Human Studies

Elisabeth B. Binder and Jan M. Deussing

34. Current Treatments for Depression

Maurizio Fava and John Krystal

35. Novel Approaches for Treating Depression

Eric J. Nestler, Dennis S. Charney, John H. Krystal, and James W. Murrough

SECTION 5: ANXIETY AND TRAUMA-RELATED DISORDERS

Section Editor: Kerry J. Ressler

36. Diagnosis and Epidemiology of Anxiety, Obsessive-Compulsive, and Trauma- and Other Stress-Related Disorders

Murray B. Stein, Meghan E. Keough, and Peter P. Roy-Byrne

37. Genetics of Anxiety and Trauma-Related Disorders

Sarah E. Benstock and John M. Hettema

38. Neuroimaging and Circuit Mechanisms of Anxiety and Trauma-Related Disorders

Gregory A. Fanzo

39. Animal Models for the Study of Anxiety Disorders

Caroline Jia, Hao Li, and Kay Tye

40. Biological Mechanisms of Anxiety Disorders: Animal and Human Studies

Danielle M. Gerhard, Anfei Li, Francis S. Lee, and Heidi C. Meyer

41. Biological Mechanisms of Stress Resilience: Animal and Human Studies

Saren H. Seeley, Sarah Boukezzi, Jonathan DePierro, Dennis S. Charney, and Adriana Feder

42. Current Treatments for Anxiety and Trauma-Related Disorders

Kristin L. Szuhany, Benjamin Feldman, Matteo Malgaroli, and Naomi M. Simon

43. Novel Approaches for Treating Anxiety and Trauma-Related Disorders

Alfred P. Kaye, Sarah Jefferson, and John H. Krystal

SECTION 6: SUBSTANCE USE DISORDERS

Section Editors: Nora Volkow and Yavin Shaham

44. Epidemiology of Substance Use Disorders

Denise B. Kandel, Pamela C. Griesler, Mei-Chen Hu, Philippe A. Melas, Bradley T. Kerridge, and Bridget F. Grant

45. Genetics of Substance Use Disorders

David Goldman and Danielle Sambo

46. Neuroimaging and Circuit Mechanisms of Substance Use Disorders

Edythe D. London, Chelsea L. Robertson, and Terry J. Prins

47. Animal Models for the Study of Substance Use Disorders

Christopher J. Evans, J. David Jentsch, Brigitte L. Kieffer, Rafael J. Maldonado, and Catherine M. Cahill

48. Cellular and Molecular Mechanisms of Substance Use Disorders: Animal and Human Studies

Kathryn J. Reissner

49. Brain Development and the Risk for Substance Use Disorders

Sonia G. Ruiz, B.J. Casey, and Arielle Baskin-Sommers

50. Current Treatments for Substance Use Disorders

Adam D'Sa, Andrew L. Gaddis, and Eric C. Strain

51. Novel Approaches for Treating Substance Use Disorders

Matthew L. Banks

SECTION 7: DEMENTIA

Section Editor: Alison M. Goate

52. Diagnosis and Epidemiology of Dementia

William C. Kreisl and Christiane Reitz

53. Genetics of Alzheimer's Disease, Parkinson's Disease, and Lewy Body Dementia

Alan E. Renton, Brian Fulton-Howard, Shea J. Andrews, Edoardo Marcora, and Alison M. Goate

54. Neuroimaging and Fluid Biomarkers of Alzheimer's Disease

Brian A. Gordon and Suzanne Schindler

55. Molecular and Cellular Mechanisms of Alzheimer's Disease: Animal and Human Studies

Gareth R. Howell and Gregory W. Carter

56. Molecular and Cellular Mechanisms of Primary Tauopathies: Animal and Human Studies

Shiaoching Gong and Li Gan

57. Neurobiology of Lewy Body Dementias: Animal and Human Studies

James E. Galvin and Jose Tomas Bras

58. Current Treatments for Alzheimer's Disease and Other Dementias

Mary Sano and Judith Neugroschil

59. Novel Approaches for Treating Alzheimer's Disease and Other Dementias

M. Catarina Silva, David C. Butler, Sally Temple, and Steve J. Haggarty

SECTION 8: PEDIATRIC PSYCHIATRIC DISORDERS

Section Editor: Joseph D. Buxbaum

60. Diagnosis and Epidemiology of Pediatric Psychiatric Disorders

Magdalena Janecka, Artemis Briasouli, Vahe Khachadourian, and Abraham Reichenberg

61. Genetics of Pediatric-Onset Psychiatric Disorders

Tess Levy and Joseph D. Buxbaum

62. Neuroimaging in Pediatric Psychiatric Disorders

Timothy P.L. Roberts and Luke Bloy

63. Neurobiology of Autism Spectrum Disorders and Intellectual Disability: Animal and Human Studies

Alexandra Massa, Jesse Costales, Silvia De Rubeis, Jennifer Foss-Feig, Patrick R. Hof, and Alexander Kolevzon

64. Neurobiology of Attention Deficit Hyperactivity Disorder: Animal and Human Studies

Tess Levy and Joseph D. Buxbaum

65. Neurobiology of Tic Disorders and Obsessive-Compulsive Disorder: Animal and Human Studies

Christopher Pittenger

66. Neurobiology of Eating Disorders: Animal and Human Studies

Thomas Hildebrandt and Annabel Susanin

67. Current Treatments for Pediatric Psychiatric Disorders

Paige M. Siper, M. Pilar Trelles, Yael Kufert, and Dorothy E. Grice

68. Novel Approaches for Treating Pediatric Psychiatric Disorders

Niki P. Sabetfakhri and Edwin H. Cook, Jr.

SECTION 9: FUTURE DIRECTIONS OF PSYCHIATRY

Section Editor: Dennis S. Charney

69. The Present and Future of Psychiatric Diagnoses

Steven E. Hyman

70. The NIMH Research Domain Criteria Project: Toward Precision Medicine in Psychiatry

Bruce N. Cuthbert

71. Computational Psychiatry and the Bayesian Brain

Karl J. Friston and Xiaosi Gu

72. Digital Assessments of Psychiatric Disorders

Rachel E. Quist, Sukanya Bhattacharya, Sarah M. Chacko, and Nicholas C. Jacobson

73. Digital Therapies of Psychiatric Disorders: Focus on Depression Symptoms

Bruno Biagiante, Mor Nahum, Neta Yitzhak, and Sofia Vinogradov

74. Psychedelic Drugs as Treatment Agents

Rachel Yehuda, Lauren A. Lepow, Philip A. Bonnano, Tamar Glatman Zaretsky, Josimar Hernandez Antonio, and Kathleen M. Jagodnik

75. Psychiatry's Past Challenges and Future Opportunities

Ryan E. Lawrence and Jeffrey A. Lieberman
