Contents

Chapter 1:	Arrays and Montages	1
1.1	Arrays	1
1.1.1	International 10–20 System	1
1.1.2	Anatomical Position of Electrodes of the International 10–20 System	3
1.1.3	Modified Combinatorial 10–10 System	6
1.1.4	Supplemental Noninvasive Electrodes	8
1.2	Montages	8
1.2.1	Bipolar Montages	8
1.2.1.1	Longitudinal Bipolar Montages	9
1.2.1.2	Transverse Bipolar Montages	9
1.2.2	Ipsilateral Ear Referential Montages	11
1.2.3	Choosing Among Montages	12
	References	12
Chapter 2:	The Normal Adult EEG	15
2.1	Alpha Rhythm	15
2.1.1	General Characteristics	16
2.1.2	Reactivity	17
2.1.3	Alpha Variants	19
2.1.4	Abnormalities of the Alpha Rhythm	19
2.1.4.1	Attenuation and Slowing	19
2.1.4.2	The Bancaud Phenomenon	21

2.2	Beta Activity	22
2.3	The Desynchronized EEG	23
2.4	The Effect of Aging	24
2.4.1	Aging and the Alpha Rhythm	24
2.4.2	Aging and Focal Slowing	25
2.5	Mu Rhythm	25
2.6	Lambda Waves	28
2.7	Sleep	30
2.7.1	The Stages of Sleep	30
2.7.1.1	Stage N1	30
2.7.1.2	Stage N2	31
2.7.1.3	Stage N3	32
2.7.1.4	Stage R	32
2.7.2	Specific Electroencephalographic Features of Sleep	33
2.7.2.1	V Waves	33
2.7.2.2	Sleep Spindles	35
2.7.2.3	K Complexes	36
2.7.2.4	Sawtooth Waves	38
2.7.2.5	POSTS	39
2.7.2.6	Mittens	40
2.7.3	Sleep Deprivation	41
	References	42
Chapter 3: Activation Methods		47
3.1	Sleep and Sleep Deprivation	47
3.1.1	Sleep	47
3.1.2	Sleep Deprivation	48
3.2	Intermittent Photic Stimulation (IPS)	50
3.2.1	Methodology	50
3.2.2	The Photoparoxysmal Response (PPR)	52
3.2.3	Photomyoclonic Response	57
3.2.4	Photic Driving Response	58
3.3	Hyperventilation	61
3.3.1	Methodology	61
3.3.2	The Buildup	62
3.3.3	Activation	63
3.3.4	Contraindications and Safety	64
	References	65
Chapter 4: Patterns of Uncertain Significance		69
4.1	Small Sharp Spikes (Benign Sporadic Sleep Spikes, Benign Epileptiform Transients of Sleep)	69
4.2	Wickets	72
4.3	6 Hz Spike and Wave Bursts (“Phantom” Spike and Wave)	75

4.4	14- and 6-Hz Positive Bursts (14- and 6-Hz Positive Spike Discharges, “Ctenoids”)	78
4.5	Rhythmic Temporal Theta Burst of Drowsiness (Rhythmic Mid-temporal Discharges; Psychomotor Variant)	80
4.6	SREDA (Subclinical Rhythmic Electrographic Discharge of Adults)	81
4.6.1	Typical SREDA	83
4.6.2	Atypical SREDA	86
4.6.3	Concluding Remarks	86
4.7	Rhythmic Midline Theta	87
4.7.1	The Ciganek Rhythm	88
4.7.2	Frontal Midline Theta	89
4.7.3	Texting Rhythm	91
	References	92
Chapter 5:	Artifacts	97
5.1	Eye Movement	98
5.1.1	Vertical Eye Movements	98
5.1.2	Lateral Eye Movements	100
5.1.3	The Electro-oculogram	100
5.1.4	Prosthetic Eyes and Retinal Detachment	102
5.2	Muscle Artifact	102
5.3	Glossokinetic Artifact	104
5.4	Sweat Artifact	104
5.5	EKG Artifact	105
5.6	Ballistocardiographic Artifact	108
5.7	Pulse Artifact	108
5.8	Tremor Artifact	109
5.9	Shiver Artifact	111
5.10	Patient Movement	112
5.11	Alternating Current	116
5.12	Electrode Pop	116
5.13	Dental Amalgam Artifact	118
5.14	Drip Artifact	118
5.15	Photoelectric Artifact and Electroretinogram	119
5.16	Salt Bridge	121
5.17	Ventilator Artifact	122
5.18	Snoring Artifact	123
	References	124
Chapter 6:	The Breach Rhythm	125
	References	128
Chapter 7:	Slowing	129
7.1	Generalized Slowing	129
7.2	Lateralized Slowing	130

7.3	Focal Slowing	131
7.4	Zeta Waves	132
	References	133
Chapter 8:	Rhythmic Delta Activity (RDA)	135
8.1	Intermittent Rhythmic Delta Activity (IRDA)	136
8.1.1	Frontal Intermittent Rhythmic Delta Activity (FIRDA)	136
8.1.2	Occipital Intermittent Rhythmic Delta Activity (OIRDA)	137
8.1.3	Temporal Intermittent Rhythmic Delta Activity (TIRDA)	140
8.2	Generalized Rhythmic Delta Activity (GRDA) and Lateralized Rhythmic Delta Activity (LRDA)	143
8.2.1	GRDA	143
8.2.2	LRDA	144
8.3	Rhythmic Delta Activity in the Critically Ill	144
	References	145
Chapter 9:	Typical Triphasic Waves	147
	References	151
Chapter 10:	Sporadic Epileptiform Discharges	155
10.1	Typical Sporadic Epileptiform Discharges	155
10.2	Secondary Bilateral Synchrony and the Possible Development of a Mirror Focus	160
10.3	Capturing a Sporadic Epileptiform Discharge After a Seizure	165
10.4	Sporadic Epileptiform Discharges as Predictors of Relapse During Anti-seizure Medication Withdrawal	166
10.5	Sporadic Epileptiform Discharges Occurring in Normal Individuals and in Patients Without a History of Unprovoked Seizures	166
10.6	Transitory Cognitive Impairment Caused by a Sporadic Epileptiform Discharge	167
10.7	Music Hath Charms: The Mozart Effect	168
	References	168
Chapter 11:	Periodic Discharges	173
11.1	Generalized Periodic Discharges (GPDs)	174
11.1.1	Description of GPDs	174
11.1.2	Etiology of GPDs	174
11.1.3	GPDs and Seizures	174
11.2	Lateralized Periodic Discharges (LPDs)	176
11.2.1	Description of LPDs	177
11.2.2	Etiology of LPDs	177
11.2.3	LPDs and Seizures	179
11.2.4	Lateralized Periodic Discharges Plus Fast (LPDs+F) Activity	183
11.3	Bilateral Independent Periodic Discharges (BIPDs)	184
11.4	Unilateral Independent Periodic Discharges (UIPDs)	185
11.5	Multifocal Periodic Discharges (MfPDs)	186
	References	188

Chapter 12: SIRPIDs	191
12.1 Description of SIRPIDs	191
12.2 Etiology of SIRPIDs	192
12.3 Association of SIRPIDs with Spontaneously Occurring Seizures	194
References	194
Chapter 13: Background Attenuation or Suppression	197
13.1 Symmetric Background Attenuation or Suppression	197
13.2 Asymmetric Background Attenuation	198
Reference	199
Chapter 14: Burst-Suppression	201
14.1 Description of Burst-Suppression	201
14.2 Etiology of Burst-Suppression	205
References	205
Chapter 15: Disorders of Cognition and Consciousness	207
15.1 Dementia	207
15.2 Delirium	208
15.3 Coma	209
15.3.1 Typical Background Seen in Coma	209
15.3.2 Specific Electroencephalographic Patterns Seen in Coma	210
15.3.2.1 Alpha Coma	210
15.3.2.2 Spindle Coma	212
15.3.2.3 Beta Coma	214
15.3.3 Reactivity and the Prognostic Value of the EEG in Coma	214
15.3.4 Nonconvulsive Seizures in Coma	215
15.4 Persistent Vegetative State and Minimally Conscious State	216
15.4.1 Persistent Vegetative State	216
15.4.2 Minimally Conscious State	217
15.5 Akinetic Mutism	218
References	218
Chapter 16: The Locked-In Syndrome	221
16.1 The EEG in Classic Locked-In Syndrome	221
16.2 The EEG in Complete Locked-In Syndrome	222
References	222
Chapter 17: Brain Death	225
17.1 Clinical Criteria for the Diagnosis of Brain Death	226
17.2 Minimum Technical Standards for EEG Recording in Suspected Cerebral Death	227
17.3 Normothermia and an Absence of Drug Intoxication	228
17.4 Sensitivity and Specificity of Electrocerebral Inactivity for Death	229
References	229

Chapter 18:	Postanoxic Coma	231
18.1	The Background	232
18.1.1	Slowing	232
18.1.2	Suppressed Background	232
18.1.3	Background Reactivity	232
18.1.4	Alpha Coma Pattern	233
18.1.5	Spindle Coma Pattern	233
18.1.6	Electrocerebral Inactivity	233
18.2	Discharges and Burst-Suppression	234
18.2.1	Discharges	234
18.2.1.1	Sporadic Epileptiform Discharges	234
18.2.1.2	Periodic Discharges	234
18.2.2	Burst-Suppression	234
18.3	Seizures	235
18.3.1	Myoclonic Seizures	235
18.3.2	Burst-Suppression with Eye-Opening	236
18.3.3	Nonconvulsive Seizures	237
18.4	Stimulus-Induced Rhythmic, Periodic, or Ictal Discharges (SIRPIDs)	238
18.5	The EEG in Prognosis	238
	References	239
Chapter 19:	Head Trauma	243
19.1	Moderate to Severe Traumatic Brain Injury	243
19.1.1	The Background	244
19.1.2	Discharges and Rhythmic Delta Activity	244
19.1.3	Seizures	245
19.1.3.1	Early Seizures	245
19.1.3.2	Late Seizures, Including Post-traumatic Epilepsy	245
19.2	Mild Traumatic Brain Injury	246
19.2.1	Concussion	247
19.2.2	Post-concussion Syndrome	247
19.3	Blast and Whiplash Injuries	248
19.4	Chronic Traumatic Encephalopathy	248
19.5	Subdural Hematoma	249
	References	250
Chapter 20:	Stroke	253
20.1	Infarction	253
20.1.1	Supratentorial Infarction	253
20.1.1.1	Large Vessel Occlusions	253
20.1.1.2	Lacunae	254
20.1.2	Brainstem Infarction	255

20.2	Intracerebral Hemorrhage	256
20.2.1	Supratentorial, Nontraumatic, Non-aneurysmal Intracerebral Hemorrhage	256
20.2.2	Brainstem Hemorrhage	257
20.3	Aneurysmal Subarachnoid Hemorrhage	257
	References	258
Chapter 21:	Epilepsy and Seizures	263
21.1	Inherited or Idiopathic Epilepsies	263
21.1.1	Idiopathic Generalized Epilepsies	264
21.1.1.1	Childhood Absence Epilepsy	264
21.1.1.2	Juvenile Absence Epilepsy	271
21.1.1.3	Juvenile Myoclonic Epilepsy	272
21.1.1.4	Epilepsy with Generalized Tonic–Clonic Seizures Alone	277
21.1.2	Epilepsy with Eyelid Myoclonia (Jeavons Syndrome)	277
21.1.3	Typical Absence Status Occurring in Inherited Epilepsies	279
21.1.3.1	Childhood and Juvenile Absence Epilepsies	280
21.1.3.2	Juvenile Myoclonic Epilepsy	281
21.1.3.3	Jeavons Syndrome	281
21.1.4	Epilepsy with Myoclonic Absences	282
21.1.5	Self-Limited Focal Epilepsies of Childhood	283
21.1.5.1	Self-Limited Epilepsy with Centrottemporal Spikes	284
21.1.5.2	Self-Limited Epilepsy with Autonomic Seizures	285
21.1.5.3	Childhood Occipital Visual Epilepsy	286
21.1.6	Focal Epilepsies with Autosomal Dominant Inheritance	287
21.1.6.1	Sleep-Related Hyperkinetic Epilepsy (SHE)	288
21.1.6.2	Familial Mesial Temporal Lobe Epilepsy	288
21.1.6.3	Epilepsy with Auditory Features	289
21.1.6.4	Familial Focal Epilepsy with Variable Foci	289
21.1.7	Progressive Myoclonus Epilepsies	290
21.1.7.1	Unverricht–Lundborg Disease	290
21.1.7.2	Lafora Disease	290
21.1.7.3	Neuronal Ceroid Lipofuscinoses	291
21.1.7.4	Myoclonus Epilepsy with Ragged Red Fibers (MERRF)	292
21.2	Other Epilepsies Typically of Childhood Onset	293
21.2.1	Lennox–Gastaut Syndrome	294
21.2.1.1	The Electroencephalographic Background	294
21.2.1.2	Generalized Paroxysmal Fast Activity and Tonic Seizures	294
21.2.1.3	Bursts of Atypical Generalized Spike–Wave Complexes and Atypical Absence Seizures	296
21.2.1.4	Atypical Absence Status Epilepticus	298
21.2.2	Landau–Kleffner Syndrome	298
21.2.3	Rasmussen’s Syndrome	300

21.3	Localization-Related Epilepsies	300
21.3.1	Temporal Lobe Epilepsy	301
21.3.1.1	Medial Temporal Lobe Epilepsy	301
21.3.1.2	Lateral Temporal Lobe Epilepsy	306

25.6.1	Tertiary Neurosyphilis	449
25.6.2	Lyme Disease	450
25.7	Tuberculosis	450
	References	450
Chapter 26: Neurodegenerative, Movement, and Related Disorders		459
26.1	Alzheimer's Disease	459
26.1.1	The Alpha Rhythm	459
26.1.2	Slowing	460
26.1.3	Sporadic Epileptiform Discharges	460
26.1.4	Periodic Discharges	461
26.1.5	Other Abnormalities	461
26.1.6	The Electroencephalogram as a Differential Diagnostic Test	461
26.2	Pick's Disease	462

26.3	Frontotemporal Lobar Degeneration	463
26.4	Parkinson's Disease	463
26.5	Diffuse Lewy Body Disease	464
26.6	Progressive Supranuclear Palsy	465
26.7	Corticobasal Ganglionic Degeneration	466
26.8	Huntington's Disease	466
26.9	Choreoacanthocytosis	467
26.10	Wilson's Disease	468
26.11	Spinocerebellar Ataxia	469
26.12	Tourette's Syndrome	469
26.13	Myotonic Muscular Dystrophy	470
26.14	Metachromatic Leukodystrophy	471
26.15	Adrenoleukodystrophy	471
	References	472
Chapter 27: Vascular Dementia		479
27.1	Multi-Infarct Dementia	479
27.2	Lacunar Dementia	480
27.3	Binswanger's Disease	480
	References	481
Chapter 28: Developmental, Neurocutaneous, and Other Disorders		
	Typically Presenting in Childhood or Adolescence	483
28.1	Focal Cortical Dysplasia and Subependymal Heterotopia	483
	28.1.1 Focal Cortical Dysplasia	483
	28.1.2 Subependymal Heterotopia	486
28.2	Gelastic Seizures	487
	28.2.1 Gelastic Seizures and Hypothalamic Hamartomas	487
	28.2.2 Gelastic Seizures and Cortical Foci	489
28.3	Tuberous Sclerosis	489
28.4	Sturge–Weber Syndrome	489
28.5	von Recklinghausen's Disease (Neurofibromatosis Type 1)	490
28.6	Down's Syndrome	491
28.7	Klinefelter's Syndrome	492
28.8	Fragile X Syndrome	493
28.9	Velocardiofacial Syndrome	494
28.10	Prader–Willi Syndrome	494
28.11	Fetal Alcohol Syndrome	495
28.12	Rett's Syndrome	496
28.13	Pervasive Developmental Disorders	499
28.14	Attention-Deficit/Hyperactivity Disorder	501
28.15	Developmental Dysphasia	502
28.16	Developmental Dyslexia	504
	References	504

Chapter 29: Autoimmune and Demyelinating Diseases	513
29.1 Autoimmune Encephalitis	513
29.1.1 Anti-Hu	513
29.1.2 Anti-Ma2	514
29.1.3 Anti-GABA	514
29.1.4 Anti-AMPA	514
29.1.5 Anti-LGI1	514
29.1.6 Anti-NMDAR	516
29.2 Hashimoto's Encephalopathy	518
29.3 Systemic Lupus Erythematosus	518
29.4 Sjogren's Syndrome	519
29.5 Neurosarcoidosis	520
29.6 Sydenham's Chorea	520
29.7 Delayed Post-hypoxic/Ischemic Leukoencephalopathy	521
29.8 Acute Disseminated Encephalomyelitis	521
29.9 Multiple Sclerosis	522
29.10 Osmotic Demyelination Syndrome	523
References	524
Chapter 30: Vascular Disorders	531
30.1 Granulomatous Angiitis of the Central Nervous System	531
30.2 Polyarteritis Nodosa	531
30.3 Susac's Syndrome	532
30.4 Behçet's Syndrome	532
30.5 Antiphospholipid Syndrome	533
30.6 Thrombotic Thrombocytopenic Purpura	534
30.7 Cerebral Fat Embolism	534
30.8 Radionecrosis	535
30.9 Posterior Reversible Encephalopathy Syndrome	536
30.10 CADASIL	536
30.11 MELAS	537
References	538
Chapter 31: Prion Diseases	543
31.1 Creutzfeldt–Jakob Disease	543
31.2 New-Variant Creutzfeldt–Jakob Disease	550
31.3 Gerstmann–Straussler–Scheinker Disease	550
31.4 Fatal Familial Insomnia	551
References	551
Chapter 32: Hydrocephalus	557
References	558
Chapter 33: Brain Tumors	559
33.1 Cerebral Lobar Tumors	559
33.2 Diencephalic Tumors	561

33.3	Tumors of the Posterior Fossa	561
	References	561
Chapter 34: Amnesic Disorders		565
34.1	Transient Global Amnesia	565
34.2	Transient Epileptic Amnesia	566
34.3	Alcoholic Blackouts	567
34.4	Korsakoff's Syndrome	568
	References	569
Chapter 35: Stuporous Catatonia		571
	References	572
Chapter 36: Episodic Violence		573
36.1	Intermittent Explosive Disorder	574
36.2	Ictal Violence	575
36.3	Postictal Violence	576
36.4	Violence During Postictal Psychoses	577
	References	578
Chapter 37: Primary Psychiatric Disorders		579
37.1	Schizophrenia	579
37.2	Bipolar Disorder	580
37.3	Major Depressive Disorder	581
37.4	Post-traumatic Stress Disorder	582
37.5	Panic Disorder	583
37.6	Obsessive–Compulsive Disorder	584
37.7	Dissociative Disorders	585
	37.7.1 Depersonalization Disorder	586
	37.7.2 Dissociative Amnesia	587
	37.7.3 Dissociative Fugue	587
	37.7.4 Dissociative Identity Disorder	588
37.8	Borderline and Antisocial Personality Disorders	590
	37.8.1 Borderline Personality Disorder	590
	37.8.2 Antisocial Personality Disorder	591
37.9	Pyromania	592
37.10	Eating Disorders	592
	37.10.1 Anorexia Nervosa	592
	37.10.2 Bulimia Nervosa	593

Chapter 38: Sleep Disorders		597
38.1	Somnambulism	597
38.2	REM Sleep Behavior Disorder	599
38.3	Pavor Nocturnus	600
38.4	Nightmares	601

38.5	Confusional Arousal	601
38.6	Narcolepsy	601
38.7	Sleep Apnea	602
38.8	Pickwickian Syndrome (Obesity Hypoventilation Syndrome)	603
38.9	Kleine–Levin Syndrome	603
38.10	Idiopathic Hypersomnia	604
	References	604
Chapter 39:	Transcranial Stimulation	609
39.1	Electroconvulsive Therapy	609
39.1.1	The Ictal EEG	610
39.1.1.1	The Ictal EEG on a Multiple-Channel Recording	610
39.1.1.2	The Ictal EEG on a One- or Two-Channel Recording	612
39.1.2	Relationship of the Duration of the Motor Seizure and of the Electroencephalographic Seizure	613
39.1.3	Postictal Slowing	613
39.1.4	Nonconvulsive Status Epilepticus Following an ECT-Induced Tonic–Clonic Seizure	614
39.2	Repetitive Transcranial Magnetic Stimulation	614
39.3	Transcranial Direct Current Stimulation	615
	References	615
	Index	619
