

## Χαρακτηριστικά:

- **NEW! Capstone exercise, *Scribe It***, helps you draw on what you've learned from *Exploring Medical Language* to transcribe information from a patient encounter
- **EXPANDED! *Practical Application* sections** at end of chapters 2-16, called *Use Medical Terms in Clinical Statements*, enhance review and retention of chapter content
- **EXPANDED! Focus on lab findings** includes a narrative explanation and identification of terms indicating lab findings
- **NEW! Added phonetic spelling** for abbreviations spoken as whole words
- **NEW! Introduction of the SOAP Note format** and associated abbreviations
- **ENHANCED! Behavioral health coverage** includes narrative introduction
- **Systematic presentation of medical terminology** provides a foundation of word parts, then builds words by combining the parts
- **Extensive review of word parts and terms** offers the practice needed to learn medical terminology
- **Accessible, interactive exercises and games** on the accompanying Evolve website provide extensive opportunities to practice building, hearing, and spelling terms
- **Medical Terminology Online (MTO)** companion course offers additional practice and interactivity to support comprehension. *Sold separately*
