

1: Introduction to WHO Classification of Tumors of the Central Nervous System, *David N. Louis, Pieter Wesseling, and David W. Ellison*

2: Gliomas, Glioneuronal, and Neuronal Tumors: Introduction, *Michael Weller, Andreas von Deimling, and Daniel Brat*

2.1.1: Adult-type diffuse gliomas: Astrocytoma, IDH-Mutant, *Martin J. van den Bent, Daniel J. Brat, Frederic Dhermain, and Walter Stummer*

2.1.2: Adult-type diffuse gliomas: Oligodendroglioma, IDH-mutant and 1p/19q-codeleted, *Wolfgang Wick and Guido Reifenberger*

2.1.3: Adult-type diffuse gliomas: Glioblastoma, IDH-wildtype, *Michael Weller, E. Antonio Chiocca, Sabine Mueller, Jennifer Yu, and Andreas von Deimling*

2.2: Pediatric-type diffuse low-grade gliomas, *Mariella Filbin, Christine Haberler, Daphne Haas-Kogan, Ian F. Pollack, David A. Reardon, and Sanda Alexandrescu*

2.3: Paediatric-type diffuse high-grade gliomas, *Michelle Monje, Steven Braunstein, Mitchell Berger, and Hannes Vogel*

2.4: Circumscribed astrocytic gliomas, *Mariella Filbin, Sanda Alexandrescu, Daphne Haas-Kogan, Ian F. Pollack, David A. Reardon, Christine Haberler*

2.5: Glioneuronal and neuronal tumours, *Riccardo Soffietti, Hugues Duffau, Anita Mahajan, Maria Luisa Garrè, and Jason Huse*

2.6: Ependymal Tumours, *Mark R. Gilbert, Christina Tsien, Anandani Nellan, Cynthia Campen, Terri S. Armstrong, Mark Souweidane, and Roger McLendon*

3: Choroid Plexus Tumours, *Didier Frappaz, Nikolaus Andratschke, Roberta Ruda, Manfred Westphal, and Christian Thomas*

4: Embryonal Tumours, *Samuel Cheshier, François Doz, David W. Ellison, Thomas E. Merchant, and Stefan M. Pfister*

5: Pineal tumours, *Roger E. Taylor, Felice Giangaspero, Catherine Han, Michael Jenkinson, and Nancy Tarbell*

6: Cranial and paraspinous nerve tumours, *Joerg Christian Tonn, Warren Mason, Alexander Muacevic, and David Reuss*

7: Meningioma, *Priscilla K. Brastianos, Roland Goldbrunner, Damien Charles Weber, and Felix Sahm*

8: Mesenchymal, non-meningothelial tumours involving the central nervous system, *Sith Sathornsumetee, Rakesh Jalali, Manfred Westphal, and Christian Mawrin*

9: Melanocytic tumors, *Patrick Roth, Loreto Yanez, Ying Mao, and Keith Ligon*

10: Haematolymphoid tumours involving the central nervous system: Introduction, *Tracy Batchelor*

10.1: Lymphomas, *Tracy Batchelor, Motoo Nagane, Tejpal Gupta, Lisa Roth, and Maurilio Ponzoni*

10.2: Histiocytic Tumors of the Central Nervous System, *Oussama Abla and Jennifer Picarsic*

11: Germ cell tumors, *Manmeet S. Ahluwalia, Matthew D. Hall, Hirokazu Takami, and Torsten Pietsch*

12: Tumors of the sellar region, *Joachim M. Baehring, Helen Shih, Zhong-Ping Chen, and Sandro Santagata*

13: Metastases to the CNS: Introduction, *Emilie Le Rhun and Dieta Brandsma*

13.1: Metastases to the brain and spinal cord parenchyma, *Dieta Brandsma, David Schiff, Susan Short, Marcos Maldaun, and Elisabeth Rushing*

13.2: Metastases to the meninges, *Emilie Le Rhun, Giuseppe Minniti, Adrienne Boire, and Pieter Wesseling*

13.3: Secondary involvement of the central nervous system by hematopoietic malignancies, *Tali Siegal,*

*Ofir Wolach, and Osnat Bairey*

14: Genetic tumour syndromes involving the CNS: Introduction, *Scott R. Plotkin*

14.1: Neurofibromatosis 1, *Scott R. Plotkin, D. Gareth Evans, Jay Loeffler, Sonia Partap, Shota Tanaka, and Anat Stemmer-Rachamimov*

14.2: NF2-related schwannomatosis (formerly known as neurofibromatosis type 2), *Scott R. Plotkin, D. Gareth Evans, Jay Loeffler, Sonia Partap, Shota Tanaka, and Anat Stemmer-Rachamimov*

14.3: Non-NF2-related schwannomatosis and rhabdoid tumour predisposition syndrome, *Scott R. Plotkin, D. Gareth Evans, Jay Loeffler, Sonia Partap, Shota Tanaka, and Anat Stemmer-Rachamimov*

14.4: Von Hippel Lindau Disease, *Joachim P. Steinbach, Hiroshi Kanno, Othon Iliopoulos, and Karl H. Plate*

14.5: Tuberous Sclerosis Complex, *Eleonora Aronica, Pradnya Gadgil, Nisha Giridharan, Howard Weiner, Peter B. Crino*

14.6: Central and Peripheral Nervous System Tumor Predisposition Syndromes, *Ana S. Guerreiro Stucklin, Uri Tabori, and Cynthia Hawkins*
