

Χαρακτηριστικά:

- Features **concise, practical chapters** that help you find key information quickly
- Includes **new chapters** on Personal and Professional Development for the Urologist, MRI Introduction, Occupational Health in Urology, Fundamentals of Intraoperative Patient Safety, Sutures and Suturing, Urethral Stricture Disease, Renal Transplantation, Surgical Management of Upper Urinary Tract Calculi, Prevention of Urinary Stone Disease, Male to Female Gender Affirming Surgery, and Special Considerations for Transmasculine Individuals
- Covers **hot topics** such as new technologies in robotic urologic surgery; infections of the urinary tract; neoplasms of the testis; benign prostatic hyperplasia; urologic evaluation of the child; urinary lithiasis; inflammatory and pain conditions of the male genitourinary tract; cutaneous diseases of the external genitalia; and more
- Incorporates **current AUA/EAU guidelines** in each chapter as appropriate
- Updates all chapters with **new content, new advances**, current readings and references, and best practices
- Features **more than 175 video clips**, including all-new lectures that accompany select chapters
- Serves as the cornerstone title for the Campbell-Walsh-Wein Urology product suite, which includes the *Campbell-Walsh-Wein Urology Review* and the *Campbell-Walsh-Wein Handbook of Urology*
- Written and edited by **key opinion leaders in urology**, with **four new associate editors** who contribute additional knowledge and expertise on essential changes in the field
- Chapters serve as the source material for an all-new **podcast series**, *Campbell's Urology: Expert Insights*, found on all major podcast platforms, including Spotify and Apple Podcasts
- **An eBook version is included with purchase.** The eBook allows you to access all of the text, figures and references, with the ability to search, customize your content, make notes and highlights, and have content read aloud. Additional digital ancillary content may publish up to 6 weeks following the publication date

Περιεχόμενα:

Volume I

PART I: Clinical Decision Making

1. Personal and Professional Development of the Urologist
2. Evaluation of the Urologic Patient: History and Physical Examination
3. Indications and Interpretation of Laboratory Testing
4. Urinary Tract Imaging: Basic Principles of Urologic Ultrasonography
5. Principles of CT and Radiographic Imaging
6. Magnetic Resonance Imaging
7. Genitourinary Tract Imaging: Basic Principles of Nuclear Medicine

8. Evaluation and Management of Hematuria

PART II: Basics of Urologic Surgery

9. Occupational Health in Urology
10. Ethics and Informed Consent
11. Perioperative Care in Urologic Surgery
12. Fundamentals of Intraoperative Patient Safety
13. Incisions, Exposure, and Drains
14. Sutures and Suturing
15. Lower Urinary Tract Catheterization
16. Fundamentals of Upper Urinary Tract Drainage
17. Principles of Urologic Endoscopy
18. Fundamentals of Laparoscopic and Robotic Urologic Surgery
19. Energy Modalities in Urology
20. Complications of Urologic Surgery
21. Urologic Considerations in Pregnancy
22. Intraoperative Consultations
23. Assessment of Urologic and Surgical Outcomes

PART III: Molecular and Cellular Biology

24. Basic Principles of Immunology and Immunotherapy in Urologic Oncology
25. Molecular Genetics and Cancer Biology

PART IV: Infections and Inflammation

26. Infections of the Urinary Tract
27. Inflammatory and Pain Conditions of the Lower Genitourinary Tract: Prostatitis and Related Pain Conditions, Orchitis, and Epididymitis
28. Interstitial Cystitis/Bladder Pain Syndrome and Related Disorders
29. Sexually Transmitted Diseases
30. Cutaneous Diseases of the External Genitalia
31. Tuberculosis and Parasitic Infections of the Genitourinary Tract

PART V: Pediatric Urology

SECTION A: Developmental and Prenatal Urology

32. Embryology of the Human Genitourinary Tract
33. Urologic Aspects of Pediatric Nephrology
34. Perinatal Urology

SECTION B: Basic Principles

35. Urologic Evaluation of the Child
36. Pediatric Urogenital Imaging
37. Infection and Inflammation of the Pediatric Genitourinary Tract
38. Core Principles of Perioperative Management in Children
39. Principles of Laparoscopic and Robotic Surgery in Children

SECTION C: Lower Urinary Tract Conditions

40. Clinical and Urodynamic Evaluation of Lower Urinary Tract Dysfunction in Children
41. Management Strategies for Vesicoureteral Reflux
42. Bladder Anomalies in Children
43. Exstrophy-Epispadias Complex
44. Prune-Belly Syndrome
45. Posterior Urethral Valves
46. Neuromuscular Dysfunction of the Lower Urinary Tract in Children
47. Functional Disorders of the Bladder and Bowel in Children
48. Lower Urinary Tract Reconstruction in Children

SECTION D: Upper Urinary Tract Conditions

49. Anomalies of the Kidney and Collecting System
50. Renal Dysgenesis and Cystic Disease of the Kidney
51. Pathophysiology of Urinary Tract Obstruction
52. Ectopic Ureter, Ureterocele, and Ureteral Anomalies
53. Surgery of the Ureter in Children: Ureteropelvic Junction, Megaureter, and Vesicoureteral Reflux
54. Management of Pediatric Kidney Stone Disease

SECTION E: Genitalia

55. Management of Abnormalities of the External Genitalia in Males
56. Hypospadias
57. Etiology, Diagnosis, and Management of the Undescended Testis
58. Management of Abnormalities of the Genitalia in Girls
59. Differences of Sexual Development: Etiology, Evaluation, and Medical Management

SECTION F: Reconstruction and Trauma

60. Surgical Management of Differences of Sexual Differentiation and Cloacal and Anorectal Malformations
61. Urologic Considerations in Pediatric Renal Transplantation
62. Pediatric Genitourinary Trauma

SECTION G: Oncology

63. Pediatric Urologic Oncology: Renal and Adrenal
64. Pediatric Urologic Oncology: Pelvis, Bladder, Testis, and Genitalia

SECTION H: Transitional Urology

65. Adolescent and Transitional Urology

Volume II

PART VI: Reproductive and Sexual Function

66. Surgical, Radiographic, and Endoscopic Anatomy of the Male Reproductive System

67. Male Reproductive Physiology
68. Integrated Men's Health: Androgen Deficiency, Cardiovascular Risk, and Metabolic Syndrome
69. Male Infertility
70. Surgical Management of Male Infertility
71. Physiology of Penile Erection and Pathophysiology of Erectile Dysfunction
72. Evaluation and Management of Erectile Dysfunction
73. Priapism
74. Disorders of Male Orgasm and Ejaculation
75. Surgery for Erectile Dysfunction
76. Diagnosis and Management of Peyronie Disease
77. Sexual Function and Dysfunction in the Female

PART VII: Male Genitalia

78. Surgical, Radiographic, and Endoscopic Anatomy of the Retroperitoneum
79. Neoplasms of the Testis
80. Surgery of Testicular Tumors
81. Minimally Invasive Retroperitoneal Lymph Node Dissection
82. Tumors of the Penis
83. Tumors of the Urethra
84. Inguinal Node Dissection
85. Benign Disorders of the Penis and Urethra
86. Urethral Stricture Disease
87. Surgery of the Scrotum and Seminal Vesicles

PART VIII: Renal Physiology and Pathophysiology

88. Surgical, Radiologic, and Endoscopic Anatomy of the Kidney and Ureter
89. Physiology and Pharmacology of the Renal Pelvis and Uretera
90. Fundamentals of Nephrology
91. Renal Transplantation
92. Urologic Complications of Renal Transplantation

PART IX: Upper Urinary Tract Obstruction and Trauma

93. Management of Upper Urinary Tract Obstruction
94. Upper Urinary Tract Trauma

PART X: Urinary Lithiasis and Endourology

95. Urinary Lithiasis: Etiology, Epidemiology, and Pathogenesis
96. Acute Care of Urinary Lithiasis
97. Surgical Management of Ureteral Calculi
98. Surgical Management of Upper Urinary Tract Calculi
99. Prevention of Urinary Stone Disease
100. Lower Urinary Tract Calculi

PART XI: Urine Transport, Storage, and Emptying

101. Surgical, Radiographic, and Endoscopic Anatomy of the Female Pelvis
102. Surgical, Radiographic, and Endoscopic Anatomy of the Male Pelvis
103. Physiology and Pharmacology of the Bladder and Urethra
104. Pathophysiology and Classification of Lower Urinary Tract Dysfunction
105. Evaluation and Management of Women With Urinary Incontinence and Pelvic Organ Prolapse
106. Evaluation and Management of Males With Urinary Incontinence
107. Urodynamic and Videourodynamic Evaluation of the Lower Urinary Tract
108. Urinary Incontinence and Pelvic Prolapse: Epidemiology and Pathophysiology
109. Neuromuscular Dysfunction of the Lower Urinary Tract
110. Overactive Bladder
111. Underactive Detrusor
112. Nocturia
113. Pharmacologic Management of Lower Urinary Tract Storage and Emptying Failure
114. Conservative Management of Urinary Incontinence: Behavioral and Pelvic Floor Therapy, Urethral and Pelvic Devices
115. Electrical Stimulation and Neuromodulation in Storage and Emptying Failure
116. Retropubic Suspension Surgery for Incontinence in Females
117. Vaginal and Abdominal Reconstructive Surgery for Pelvic Organ Prolapse
118. Slings: Autologous, Biologic, Synthetic, and Mid-Urethral
119. Genitourinary Complications of Mesh and Their Repair
120. Aging and Geriatric Urology
121. Urinary Tract Fistulae
122. Bladder and Female Urethral Diverticula
123. Surgical Procedures for Sphincteric Incontinence in the Male: The Artificial Urinary Sphincter and Perineal Sling Procedures

Volume III

PART XII: Benign and Malignant Bladder Disorders

124. Bladder Surgery for Benign Disease
125. Genital and Lower Urinary Tract Trauma
126. Management and Considerations in Transgender and Nonbinary Individuals
127. Male-to-Female Gender-Affirming Surgery: Vaginoplasty
128. Special Urologic Considerations in Transmasculine Individuals
129. Tumors of the Urinary Bladder
130. Management Strategies for Non–Muscle-Invasive Bladder Cancer (Ta, T1, and CIS)
131. Management of Muscle-Invasive and Metastatic Bladder Cancer
132. Surgical Management of Bladder Cancer: Transurethral, Open, and Robotic
133. Use of Intestinal Segments in Urinary Diversion
134. Continent Urinary Diversion
135. Minimally Invasive Urinary Diversion

PART XIII: Neoplasms of the Upper Urinary Tract

136. Benign Renal Tumors
137. Malignant Renal Tumors
138. Urothelial Tumors of the Upper Urinary Tract and Ureter
139. Surgical Management of Upper Urinary Tract Urothelial Tumors
140. Retroperitoneal Tumors
141. Contemporary Open Surgery of the Kidney
142. Laparoscopic and Robotic Surgery of the Kidney
143. Focal Therapy for Renal Tumors
144. Treatment of Advanced Renal Cell Carcinoma

PART XIV: The Adrenals

145. Surgical and Radiographic Anatomy of the Adrenals
146. Pathophysiology, Evaluation, and Medical Management of Adrenal Disorders
147. Surgery of the Adrenal Glands

PART XV: The Prostate

148. Anatomy and Development of the Prostate
149. Benign Prostatic Hyperplasia: Etiology, Pathophysiology, Epidemiology, and Natural History
150. Evaluation and Nonsurgical Management of Benign Prostatic Hyperplasia
151. Minimally Invasive and Endoscopic Management of Benign Prostatic Hyperplasia
152. Simple Prostatectomy—Open, Laparoscopic, and Robotic Approaches
153. Epidemiology, Etiology, and Prevention of Prostate Cancer
154. Prostate Cancer Biomarkers
155. Prostate Biopsy: Techniques and Imaging
156. Pathology of Prostatic Neoplasia
157. Diagnosis and Staging of Prostate Cancer
158. Active Management Strategies for Localized Prostate Cancer
159. Active Surveillance of Prostate Cancer
160. Open Radical Prostatectomy
161. Laparoscopic and Robotic-Assisted Laparoscopic Radical Prostatectomy and Pelvic Lymphadenectomy
162. Radiation Therapy for Prostate Cancer
163. Focal Therapy of Prostate Cancer
164. Treatment of Locally Advanced Prostate Cancer
165. Management of Recurrent and Newly Metastatic Prostate Cancer
166. Management of Castration-Resistant Prostate Cancer
