About the companion website x

Part 1

Basics 1

- 1 Liver and biliary anatomy and structure 2
- 2 Liver metabolism and function 4
- 3 Coagulation in liver disease 6
- 4 Liver fibrosis 8

Part 2

Evaluation of liver disease 11

- 5 Clinical history 12
- 6 Liver examination 14
- 7 Liver blood tests 16
- 8 Diagnostic radiology in liver disease 18
- 9 Interventional radiology in liver disease 20
- 10 Liver biopsy 22
- 11 Non-invasive markers of fibrosis 24

Part 3

Clinical scenarios 27

- 12 Asymptomatic abnormal LBTs 28
- 13 Jaundice 30
- 14 Portal hypertension 32
- 15 Variceal bleeding 34
- 16 Ascites 36
- 17 Management of complications of ascites 38
- 18 Renal dysfunction in cirrhosis 40
- 19 Cardiopulmonary complications 42
- 20 Hepatic encephalopathy 44
- 21 Acute liver failure 46
- 22 Liver disease in pregnancy 48
- 23 Liver disease in adolescents 50
- 24 Indications for liver transplantation 52
- 25 Drug-induced liver injury 54
- 26 Focal liver lesions 56
- 27 Palliative care and symptom control in liver disease 58

Part 4

Diseases 61

- 28 Alcohol-related liver disease 62
- 29 Management of alcohol misuse 64

30	Metabolic dysfunction-associated steatotic liver disease	66
31	Hepatitis A and hepatitis E viruses	70
32	Hepatitis B virus and hepatitis delta	72
33	Hepatitis C virus	76
34	Autoimmune hepatitis	80
35	Primary biliary cholangitis	82
36	Sclerosing cholangiopathies	84
37	Overlap syndromes	86
38	IgG4-related disease	88
39	Congenital liver disease	90
40	Haemochromatosis and iron overload	94
41	Wilson's disease	98
42	Metabolic disorders	100
43	Multisystemic diseases	102
44	Vascular disorders	104
45	Pancreaticobiliary disorders	106
46	Hepatocellular carcinoma	108
47	Cholangiocarcinoma	112
48	Advanced endoscopy in liver disease	114
49	Surgical procedures	116
50	Liver transplant surgery	118
51	Post-liver transplantation: general considerations	120
52	Post-liver transplantation: disease recurrence	122
53	Tropical liver disease: parenchymal	124
54	Tropical liver disease: hepatobiliary	126
55	Nutrition and liver disease	128
