

- 1: The normal postoperative cardiac patient, *Robyn Smith; Sarah Finlayson*
- 2: Risk Prediction and Outcome, *Vallish Bhardwaj; Stephen Webb*
- 3: Fast-tracking the low-risk patient, *Stefan Schraag*
- 4: Resuscitation in the cardiac intensive care setting, *Tim Strang; Dr Lajos Szentgyorgyi*
- 5: Myocardial ischaemia and infarction, *Robyn Smith*
- 6: Bleeding management reexploration, *Rajamiyer Venkatswaran; Stuart Grant*
- 7: Postoperative Hypotension, *Mark Thornton*
- 8: Glucose, lactate, and acid–base, *Alice Montalti; Rita Lopes*
- 9: Postoperative medications, *Ben Shelley; Jonathan Neil*
- 10: Information handover and care planning, *Andrew McGuire*
- 11: Left ventricle, *Robyn Smith*
- 12: Right ventricular failure, *Philip McCall*
- 13: Valvular heart disease, *Robyn Smith*
- 14: Common arrhythmias and their management, *Robyn Smith*
- 15: Lung, *Neil Brain*
- 16: Organ Dysfunction: Kidney, *Neal Padmadhaman*
- 17: Gastrointestinal, *Anton Buter*
- 18: Nervous system, *Geoffrey Warnock; Chris Hawthorne*
- 19: Haematology, *Lynne Anderson*
- 20: Heparin-Induced Thrombocytopenia (HIT) and cardiac surgery, *Tim Hayes*
- 21: The thoracic patient, *Adam Glass; Ben Shelley*
- 22: The adult patient with congenital heart disease, *Robyn Smith; Niki Walker*
- 23: The obstetric patient with cardiac disease, *Mark Thornton; Rachel Darling*
- 24: Heart failure resistant to standard medical therapy, *Yuran Zheng; Paul Callan*
- 25: The cardiac transplant patient, *Alice Brennan; Jonathan R Dalzell*
- 26: The transplant patient – lung transplant, *John Blaikley*
- 27: Acute cardiology, *Rachel Fraser; Kenneth McKinlay*
- 28: Central venous cannulation, pulmonary artery catheter, and minimally invasive cardiac output monitoring, *Ashleigh Taylor*
- 29: Airway management, *Martin Hughes; Lia Paton*
- 30: Respiratory management, *Martin Hughes; Kathryn Puxty*
- 31: Circulatory support: pharmacological, *Jennifer Willder*
- 32: Circulatory support: mechanical, *Sam Howitt; Alan Ashworth*
- 33: Epicardial pacing, *David A.W. Reid*
- 34: Sedation and pain relief, *Stefan Schragg*
- 35: Wound management, *Prashant Mohite; Doshi Harikrishna*
- 36: Infection control and prevention, *Tristan Banks; Stephanie Thomas*
- 37: Bedside echocardiography: transthoracic echocardiography, *Philip McCall*
- 38: Transoesophageal echocardiography, *Philip McCall*
