

Introduction

Mohammad Adeel Zafar and Javed N Agrewala

Chapter 1: Tolerance

Sidhanta Nanda, Jonaid Ahmad Malik

Chapter 2: Breakdown of Tolerance

Mohammad Adeel Zafar

Chapter 3: Autoimmunity

Jonaid Ahmad Malik

Chapter 4: Current Strategies to Treat Autoimmune Diseases and Their Drawbacks

Mohammad Adeel Zafar

Chapter 5: Immunotherapeutic Approaches

Mohd Affan Khan and Javed N Agrewala

Chapter 6: Treg Generation and Their Role in Immunosuppression

Sanpreet Singh, Taruna Lamba

Chapter 7: Vaccines for Autoimmune Diseases

Hilal Bashir

Chapter 8: The Significance of Myeloid-Derived Suppressor Cells (MDSC) in Autoimmune Disorders

Jonaid Ahmad Malik

Chapter 9: Revolutionizing Autoimmune Diseases Treatment by CAR-T Cell Therapy

Jonaid Ahmad Malik, Parminder Kaur, Prashant Kumar

Chapter 10: Unlocking the Nexus of Gut Microbiomes and Autoimmune Disorders

Muskan, Jonaid Ahmad Malik, Parminder Kaur

Chapter 11: Exploring the Therapeutic Potential of Nutraceuticals in Autoimmune Disease Management

Manvir Singh Dadwal, Jonaid Ahmad Malik, Parminder Kaur

Chapter 12: Advancing Therapeutic Frontiers with Innovative Drug Delivery

Mohd Affan Khan

Chapter 13: Comprehensive Exploration of T Follicular Regulatory (Tfr) Cells in Autoimmunity

Taruna Lamba

Chapter 14: Future Therapies for Autoimmune Diseases

Deep Kumar Das

Chapter 15: Orchestrating Autoimmune Diseases through Nuclear Receptors and Orphan GPCRs

Rahul Sharma^{1,2}, [Saumyata Kumawat](#)^{1,2}, Pawan Gupta^{1,2}

Concluding Remarks

Gurpreet Kaur, Jonaid Ahmad Malik
