

Χαρακτηριστικά:

- Large format, double-page spread layouts – visually appealing and easy to read
- Text is concise and targeted to the needs of medical students, dermatology trainees, nurse specialists and general practitioners
- Covers basic molecular mechanisms of dermatological conditions
- Includes summaries of essential skin biology and associated basic sciences that underpin clinical practice
- Advice on established and emerging dermatological treatments, including dermatological emergencies
- Over 400 colour photographs and illustrations of conditions students might not otherwise come across
- Represents the cases that most commonly present in general practice
- Summary boxes aid quick review and effective revision of key topics
- Includes downloadable eBook version
- An expanded collection of pictures showing a range of skin tones
- New section on gene therapy for rare skin disorders
- Fully revised biologics sections, especially for eczema and psoriasis
- Expanded coverage of other important and emerging areas, including:
 - Dermoscopy
 - JAK inhibitors
 - Autoinflammatory diseases
 - Atopic dermatitis and psoriasis
 - Hidradenitis suppurativa
 - The treatment of psychocutaneous disorders

This beautifully illustrated and meticulously updated text is more than a study aid; it is an essential companion for anyone dedicated to mastering the essentials of dermatology in modern clinical practice.

This eighth edition has been thoroughly updated to incorporate the latest understanding of dermatological conditions, treatment and technologies, as well as increased representation of conditions on a range of skin tones to reflect diverse patient populations encountered in clinical dermatology.

Περιεχόμενα:

1 Basic principles

1. Microanatomy of the skin
2. Derivatives of the skin
3. Physiology of the skin
4. Biochemistry of the skin
5. Inflammation, immunity and the skin
6. Molecular genetics and the skin
7. Terminology of skin lesions
8. Taking a history
9. Examining the skin
10. Practical clinic procedures
11. Dermoscopy
12. Basics of medical therapy—topical treatments
13. Basics of medical therapy—systemic medication, other treatments, monitoring and scoring systems
14. Epidemiology of skin disease
15. Body image, the psyche and the skin

2 Diseases

Eruptions

16. Psoriasis—epidemiology, pathophysiology and presentation
17. Psoriasis—topical treatment and disease complications
18. Psoriasis—systemic treatments
19. Psoriasis— systemic treatments: biologics and small molecule inhibitor

Infections

29. Bacterial infection—staphylococcal and streptococcal
30. Other bacterial infections
31. Viral infections—warts and other viral infections

Disorders of specific skin structures

38. Sebaceous and sweat glands—acne
39. Sebaceous and sweat glands—rosacea and other disorders
40. Sebaceous and sweat glands—hidradenitis suppurativa
41. Disorders of hair—hair loss
42. Disorders of hair—excess hair, hair defects, scalp disorders and ethnic hair problems
43. Disorders of nails
44. Vascular and lymphatic diseases
45. Leg ulcers
46. Pigmentation—diseases showing hypo- and hyperpigmentary effects
47. Pigmentation—variations in people of colour

Allergy and autoimmunity

48. Urticaria
49. Blistering disorders

- 50. Connective tissue diseases—lupus erythematosus and systemic sclerosis
- 51. Vasculitis and the reactive erythemas

Internal medicine

- 52. Skin changes in internal conditions
- 53. Drug eruptions
- 54. Associations with malignancy

Inherited disorders

- 55. Keratinization and blistering syndromes
- 56. Neurocutaneous disorders and other syndromes

Skin tumours

- 57. Benign tumours—epidermal and dermal
- 58. Benign tumours—dermal structures and appendages
- 59. Naevi

3 Special topics in dermatology

- 66. Phototherapy
- 67. Basic dermatologic surgery
- 68. Advanced dermatologic surgery
- 69. Cosmetics and cosmetic procedures
- 70. Paediatric dermatology—childhood eczemas and other dermatoses
- 71. Paediatric dermatology—vascular naevi and dermatoses of the newborn
- 72. The skin in old age
- 73. The skin in pregnancy
- 74. Genitourinary infections
- 75. Female genital dermatoses
- 76. Male genital dermatoses and perianal skin diseases
- 77. Occupation and the skin
- 78. Immunologic tests
