

Chapter 1. Asymptomatic Outflow tract ventricular tachycardia

Chapter 2. Tuberous sclerosis with ventricular arrhythmia

Chapter 3. Salvos of atrial tachycardia with heart failure

Chapter 4. Multifocal atrial tachycardia in a newborn

Chapter 5. Junctional rhythm mimicking WPW pattern

Chapter 6. Nonsustained ventricular tachycardia in a patient with Dilated Cardiomyopathy

Chapter 7. Vagal Nerve Stimulation-Induced AV Block in an 11-Year-Old with Epilepsy Chapter

8. Complete AV block with prolonged QT interval and Ventricular Tachycardia

Chapter 9. Prolonged sinus pause in a child with breath-holding spells

Chapter 10. A Newborn with Progressive Atrioventricular Block

Chapter 11. Complete AV block with dizziness

Chapter 12. Low atrial rhythm in a 12-years old girl

Chapter 13. Blocked P waves and focal atrial tachycardia

Chapter 14. Sick sinus syndrome

Chapter 15. Monomorphic ventricular tachycardia

Chapter 16. Congenital Junctional ectopic tachycardia

Chapter 17. Low atrial rhythm in a newborn

Chapter 18. Corrected dTGA with pacemaker implantation and wide QRS tachycardia

Chapter 19. Asymptomatic Complete AV block

Chapter 20. High burden PVCs in a 7-years old football player

Chapter 21. Junctional escape rhythm in a patient with corrected Double outlet right ventricle

Chapter 22. Incessant focal atrial tachycardia originating from the crista terminalis

Chapter 23. Sinus node disease in a newborn with V141M mutation

Chapter 24. Arrhythmia in a patient with Pulmonary nodule

Chapter 25. WPW syndrome with orthodromic tachycardia in a newborn

Chapter 26. Focal atrial tachycardia

Chapter 27. Artifacts mimicking Ventricular Tachycardia

Chapter 28. Premature atrial contractions with RBBB aberrancy, LBBB aberrancy and salvos

Chapter 29. Atrial tachycardia with bundle branch aberrancy

Chapter 30. Accelerated idioventricular rhythm
