

## Χαρακτηριστικά:

- Presents each CHD lesion-oriented chapter in a **consistently templated format** covering incidence, genetics, morphology, presentation, investigations and imaging, and treatment and intervention(s)
- Focuses on clinically practical and actionable content and an **all-new, freely accessible section with basic information for ACHD patients and non-ACHD caregivers on individual CHD lesions**
- Contains **350 illustrations** featuring ECGs, echocardiograms, CTs, MRIs, full-color anatomic drawings, and graphic diagrams
- Discusses **key topics** such as pregnancy, arrhythmia and heart failure management, psychosocial issues in ACHD, supportive and palliative care for end-stage ACHD, cardiac rehab, liver interactions, ventricular mechanical support, transplantation, and advice regarding patients undergoing non-cardiac surgery
- Provides **content specifically for nurses, nurse practitioners, and other allied professionals** who, now more than ever, play an important role in the care of the adult with CHD
- **An eBook version is included with purchase.** The eBook allows you to access all of the text, figures, and references, with the ability to search, customize your content, make notes and highlights, and have content read aloud. Additional digital ancillary content may publish up to 6 weeks following the publication date

## Περιεχόμενα:

### PART I General Principles

- 1 Adults With Congenital Heart Disease: A Growing Population
- 2 Cardiac Morphology and Nomenclature
- 3 Adults With Congenital Heart Disease: A Genetic Perspective
- 4 Clinical Assessment
- 5 Echocardiography
- 6 Cardiovascular Magnetic Resonance Imaging
- 7 Cardiac Computed Tomography
- 8 Exercise and Exercise Training
- 9 Heart Failure in Adults With Congenital Heart Disease
- 10 Catheter Interventions in Adult Congenital Heart Disease
- 11 Late Repair and Reoperations in Adult Congenital Heart Disease
- 12 Venous Shunts and the Fontan Circulation in Adult Congenital Heart Disease
- 13 Cardio-Liver and Other Organ Interactions in Adult Congenital Heart Disease
- 14 Mechanical Circulatory Support in Adult Congenital Heart Disease
- 15 Heart and Lung Transplantation in Adult Congenital Heart Disease
- 16 Noncardiac Surgery in Adult Congenital Heart Disease
- 17 Critical Care for Adult Congenital Heart Disease

- 18 Arrhythmias in Adults With Congenital Heart Disease
- 19 Invasive Electrophysiology
- 20 Pacemakers and Internal Cardioverter-Defibrillators in Adult Congenital Heart Disease
- 21 Infective Endocarditis
- 22 Transition and Transfer of Care From Paediatrics to Adult Care Settings
- 23 Pregnancy and Contraception
- 24 Anaesthesia in Adult Congenital Heart Disease, Including Obstetrics and Non-cardiac Interventions
- 25 Psychosocial Issues in Adult Congenital Heart Disease
- 26 Supportive and Palliative Care for Adult Congenital Heart Disease
- 27 Artificial Intelligence, Technology and Remote Monitoring in Adults With Congenital Heart Disease
- PART II Septal Defects
- 28 Atrial Septal Defect (Interatrial Communication)
- 29 Ventricular Septal Defect
- 30 Atrioventricular Septal Defect: Complete and Partial (Ostium Primum Atrial Septal Defect)
- PART III Diseases of the Mitral Valve
- 31 Cor Triatriatum and Congenital Mitral Stenosis
- 32 Mitral Valve Prolapse, Mitral Regurgitation
- 33 Partial Anomalous Pulmonary Venous Connections and the Scimitar Syndrome
- PART IV Diseases of the Left Ventricular Outflow Tract
- 34 Valvular Aortic Stenosis
- 35 Subvalvar and Supravalvar Aortic Stenosis
- 36 Aortic Regurgitation
- 37 Sinus of Valsalva Aneurysms
- PART V Diseases of Aorta
- 38 Persistent Ductus Arteriosus and Aortopulmonary Window
- 39 Aortic Coarctation and Interrupted Aortic Arch
- 40 Truncus Arteriosus
- 41 Tracheoesophageal Compression in Congenital Heart Disease: Vascular Rings, Pulmonary Slings, and Other Vascular Abnormalities
- PART VI Diseases of Tricuspid Valve
- 42 Ebstein Anomaly
- 43 Tricuspid Stenosis and Regurgitation
- PART VII Diseases of the Right Ventricular Outflow Tract
- 44 Pulmonary Stenosis
- 45 Double-Chambered Right Ventricle
- PART VIII Cyanotic Conditions
- 46 Tetralogy of Fallot
- 47 Pulmonary Atresia With Ventricular Septal Defect
- 48 Absent Pulmonary Valve Syndrome
- 49 Pulmonary Atresia With Intact Ventricular Septum
- 50 Transposition of the Great Arteries
- 51 Congenitally Corrected Transposition of the Great Arteries
- 52 Double-Outlet Right Ventricle
- 53 Eisenmenger Syndrome

PART IX Univentricular Hearts

54 Double-Inlet Ventricle

55 Atrioventricular Valve Atresia

56 Isomerism (Heterotaxia)

PART X Coronary Artery Abnormalities

57 Congenital Anomalies of the Coronary Arteries

58 Kawasaki Disease

PART XI Other Lesions

59 Myocarditis and Dilated Cardiomyopathy

60 Hypertrophic Cardiomyopathy

61 Constrictive Pericarditis and Restrictive Cardiomyopathy

62 Arrhythmogenic Cardiomyopathy

63 Rheumatic Fever

64 Cardiac Tumours

65 Marfan Syndrome: A Cardiovascular Perspective

66 Primary Pulmonary Hypertension

67 Cardiac Rehabilitation
