

Χαρακτηριστικά:

- **Tests are presented comprehensively and consistently**, in a sequence that best simulates priorities in clinical practice
- **UNIQUE! Tests for Most Common Clinical Problem section** highlights the integration of medical testing as it relates to a specific disease, clinical syndrome, or medical condition
- **UNIQUE! Clinical Priorities boxes** emphasize priorities and procedure considerations specific to understanding and performing tests
- **UNIQUE! Test Results and Clinical Significance sections** describe the significance of the test findings and discuss the pathophysiology of the disease process and how it relates to the test result
- **UNIQUE! Home Care Responsibilities boxes** focus on post-test factors for consideration
- **UNIQUE! Critical Values sections** indicate test values of particular significance
- **UNIQUE! Icons** indicate drugs that increase or decrease test values and patient teaching priorities
- **UNIQUE! Common Reference Range section** (for the most common tests) on the inside front cover offers quick access to this important information
- **Age-Related Concerns boxes** address pediatric and geriatric priorities
- **Results are provided in SI units** in addition to others, when applicable
