

Χαρακτηριστικά:

- Provides **step-by-step guidance** on today's full range of procedures to help you achieve optimal outcomes
- Features **evidence-based surgical coverage** throughout to aid in making informed clinical choices for each patient
- Covers **multiple procedures for all body regions** to provide comprehensive coverage, and includes **key topics** such as minimally invasive and percutaneous techniques, 3D printing and custom implants, and robotic-assisted surgery
- Keeps you up to date by providing even more **high-quality procedural videos**, new decision-making treatment algorithms, a complete list of orthopaedic procedures, and **new clinical photos and cases**
- Includes **all-new Campbell's Concept boxes** that impart essential, expert knowledge from the Campbell Clinic team, allowing for best possible outcomes
- Follows a **standard template for every chapter** that features highlighted techniques, numerous high-quality illustrations for clear visual guidance, and bulleted text
- **An eBook version is included with purchase.** The eBook allows you to access all of the text, figures, and references, with the ability to search, customize your content, make notes and highlights, and have content read aloud. Additional digital ancillary content may publish up to 6 weeks following the publication date

Περιεχόμενα:

1. Surgical Techniques
2. Perioperative Patient Optimization and Overview of Tendon-to-Bone Fixation and Bone Grafting
3. Advanced Imaging in Orthopaedics
4. Arthroplasty of the Hip
5. Surface Replacement Hip Arthroplasty
6. Arthrodesis of the Hip
7. Hip Pain in the Young Adult and Hip Preservation Surgery
8. Arthroplasty of the Knee
9. Arthrodesis of the Knee
10. Knee Preservation Surgery
11. Total Ankle Arthroplasty
12. Ankle Arthrodesis
13. Shoulder Arthroplasty
14. Open Reconstructive Procedures of the Shoulder
15. Reconstructive Procedures of the Elbow
16. General Principles of Amputations
17. Amputations of the Foot
18. Amputations of the Lower Extremity

19. Amputations of the Hip and Pelvis
20. Major Amputations of the Upper Extremity
21. Amputations of the Hand
22. General Principles of Infection
23. Osteomyelitis
24. Infectious Arthritis
25. Tuberculosis and Other Unusual Infections
26. General Principles of Tumor
27. Benign Bone Tumors and Nonneoplastic Conditions Simulating Bone Tumors
28. Benign / Aggressive Tumors of Bone
29. Malignant Tumors of Bone
30. Soft-Tissue Tumors
31. Congenital Anomalies of the Lower Extremity
32. Congenital and Developmental Abnormalities of the Hip and Pelvis
33. Congenital Anomalies of the Trunk and Upper Extremity
34. Osteochondrosis or Epiphysitis and Other Miscellaneous Affections
35. Cerebral Palsy
36. Paralytic Disorders
37. Neuromuscular Disorders
38. Fractures and Dislocations in Children
39. Pediatric Cervical Spine
40. Scoliosis
41. Kyphosis
42. Spondylolisthesis (Adolescent)
43. Anatomy of the Spine
44. Approaches to the Cervical, Thoracic, and Lumbar Spine
45. Degenerative Disorders of the Cervical Spine
46. Degenerative Disorders of the Thoracic and Lumbar Spine
47. Adult Spinal Deformity
48. Fractures, Dislocations, and Fracture-Dislocations of the Spine
49. Infections and Tumors of the Spine
50. Knee Injuries
51. Shoulder and Elbow Injuries
52. Recurrent Dislocations
53. Traumatic Disorders
54. General Principles of Arthroscopy
55. Arthroscopy of the Foot And Ankle
56. Arthroscopy of the Lower Extremity
57. Arthroscopy of the Upper Extremity
58. General Principles of Fracture Treatment
59. Fractures of the Lower Extremity
60. Fractures and Dislocations of the Hip
61. Fractures of the Acetabulum and Pelvis
62. Fractures of the Shoulder, Arm, and Forearm

63. Malunited Fractures
64. Delayed Union and Nonunion of Fractures
65. Acute Dislocations
66. Old Unreduced Dislocations
67. Peripheral Nerve Injuries
68. Microsurgery
69. Basic Surgical Technique and Postoperative Care
70. Acute Hand Injuries
71. Flexor and Extensor Tendon Injuries
72. Fractures, Dislocations, and Ligamentous Injuries of the Hand and Wrist
73. Nerve Injuries at the Level of the Hand and Wrist
74. Wrist Disorders
75. Special Hand Disorders
76. Paralytic Hand
77. Cerebral Palsy of the Hand
78. Arthritic Hand
79. Compartment Syndromes and Volkmann Contracture
80. Dupuytren Contracture
81. Stenosing Tenosynovitis of the Wrist and Hand
82. Compressive Neuropathies of the Hand, Forearm, and Elbow
83. Tumors and Tumorous Conditions of the Hand
84. Hand Infections
85. Congenital Anomalies of the Hand
86. Surgical Techniques of the Foot and Ankle
87. Disorders of the Hallux
88. Disorders of the Tendons and Fascia and Adolescent and Adult Acquired Flatfoot Deformity
89. Lesser Toe Abnormalities and Disorders of Nails
90. Arthritis of the Foot
91. Neuropathic Foot
92. Neurogenic Disorders
93. Fractures and Dislocations of the Foot
94. Sports Injuries of the Ankle
