<b>Preface</b>	<b>xxxiii</b>
<b>List of Abbreviations</b>	<b>xxxv</b>
<b>About the Companion Website</b>	<b>xxxix</b>

## **1 Liver Enzymes and Liver Function Testing** **1**

---

*Nick Bexfield*

Liver Enzymes, 1
Introduction, 1
Hepatocellular Enzymes: ALT and AST, 1
Cholestatic or Inducible Enzymes: ALP and GGT, 2
Conclusion and Clinical Relevance, 2
Liver Function Testing, 3
Introduction, 3
Albumin, 3
Blood Urea Nitrogen, 3
Cholesterol, 3
Glucose, 3
Total Serum Bile Acids, 4
Ammonia, 4
Total Serum Bilirubin, 4
Coagulation Proteins, 5
Conclusions and Clinical Relevance, 5

## **2 Diagnostic Imaging of the Hepatobiliary System** **6**

---

*Angela Marolf*

Introduction, 6
Normal Ultrasound of the Liver and Biliary System, 6
MR and CT of the Normal Liver and Biliary System, 7
Abnormal Conditions of the Liver and Biliary System, 7
Neoplasia of the Liver and Biliary Tract, 7
Inflammation of the Liver and Biliary Tract, 7
Gallbladder Mucoceles, 9
Extrahepatic Biliary Obstruction, 9
Vascular and Ductal Plate Anomalies, 10

**3 Hepatic Cytology**

12

*Shannon D. Dehghanpir*

- Introduction, 12
- Indications and Limitations, 12
- Sample Submission, 13
- Hepatobiliary Neoplasia, 14
- Nodular Hyperplasia and Regeneration, 14
- Inflammation, 15
- Fibrosis, 16
- Amyloidosis, 16
- Metabolic Disease, 16

**4 Histopathology of the Liver**

18

*Rebecca Smedley*

- Introduction, 18
- Recommendations for Liver Sampling, 18
- Normal Hepatic Histology, 20
- Trimming of Liver Biopsies, 21
- Histopathologic Evaluation, 22
  - Staining and Immunohistochemistry, 22
  - Sample Quality, 23
- Histopathologic Lesions of Common Liver Diseases, 23

**5 Other Liver Diagnostic Tests**

27

*Agostino Buono*

- Coagulation Testing, 27
- Primary Hemostasis, 27
- Secondary Hemostasis, 28
  - Prothrombin Time and Activated Partial Thromboplastin Time, 28
  - Fibrinogen/FDPs, 28
- Viscoelastic Testing, 28
- Coagulation Screening Summary, 29
- Common Findings in Dogs and Cats with Hepatobiliary Disease, 30
  - Acute Liver Injury, 30
  - Canine Chronic Hepatitis, 30
  - Cholestatic Disease, 30
  - Congenital Portosystemic Shunts, 30
  - Feline Hepatobiliary Disease, 30
- Protein C, 31
- MicroRNAs, 31
- Urine Isoprostanes, 31

**6 Congenital Portosystemic Shunts****33***Mandy L. Wallace*

- Introduction, 33
- Anatomy, 33
- Pathophysiology, 34
- Signalment, 34
- Clinical Signs, 34
- Diagnosis, 34
- Treatment, 37
  - Medical Management, 37
  - Surgical Treatment, 37
  - Medical Versus Surgical Treatment Outcomes, 39
  - Postoperative Management, 39
  - Postoperative Complications, 40

**7 Microvascular Dysplasia/Portal Vein Hypoplasia****42***Andrew Kent*

- Introduction, 42
- Signalment, 42
- Clinical Signs, 43
- Diagnosis, 43
  - Laboratory Testing, 43
  - Diagnostic Imaging, 44
  - Histopathology, 44
- Treatment, 45
  - Nutrition, 45
  - Antifibrotics, 45
  - Hepatoprotective Therapies, 45
- Monitoring, 46
- Prognosis, 46

**8 Hepatic Encephalopathy****47***Mickey Tivers and Vicky Lipscomb*

- Introduction, 47
- Pathophysiology, 47
  - Ammonia, 47
  - Inflammation, 48
  - Manganese, 48
  - Neurosteroids, 48
  - False Neurotransmitters, 48
  - Other Factors, 49

Astrocytes, Acute and Chronic HE,	49
Causes of HE,	49
Clinical Signs,	50
Diagnosis,	50
Medical Treatment (Acute and Chronic),	51
Diet,	51
Lactulose,	52
Antimicrobials,	52
Emergency Medical Management,	52
Other Medications,	53
Conclusion,	54

## 9 Portal Hypertension and Acquired Portosystemic Shunts

56

*Joshua Sparago and Andrea N. Johnston*

Hepatic Blood Flow,	56
Portal Hypertension,	56
Complications of PH,	57
Peritoneal Effusion,	57
Multiple Acquired Portosystemic Shunts,	58
Hepatic Encephalopathy,	58
Coagulopathy,	58
Portal Hypertensive Gastropathy,	58
Diagnosis of PH and MAPSS,	58
Clinical Signs and Physical Examination Findings,	59
Clinical Pathology,	59
Liver Function,	60
Diagnostic Imaging,	60
Liver Histopathology,	60
Treatment of PH,	61
Managing Complications,	61
Prognosis,	62

## 10 Ductal Plate Malformations

64

*Sarah Shropshire*

Introduction,	64
Clinical Signs,	66
Diagnosis,	67
Treatment,	67
Prognosis,	68
Conclusions,	68

**11 Acute Liver Injury**

70

*Jessica Kerley and Vincent Thawley*

- Introduction, 70
- Etiology, 71
- Pathophysiology, 71
  - Hepatic Encephalopathy, 72
- Initial Evaluation of Physical Exam, 72
- Diagnostic Approach, 73
  - Serum Biochemistry Panel, 73
  - Complete Blood Count, 74
  - Urinalysis, 74
  - Coagulation Testing, 75
  - Diagnostic Imaging, 75
  - Cytology and Histopathology, 76
- Therapeutic Approach, 76
- Prognosis, 78

**12 Chronic Hepatitis**

79

*Jonathan A. Lidbury*

- Introduction, 79
- Etiology, 79
  - Drugs and Toxins, 79
  - Infectious Agents, 80
  - Copper, 80
  - Immune-mediated Injury, 80
- Pathogenesis, 80
- Signalment and Clinical Findings, 81
- Diagnosis, 82
  - Laboratory Testing, 82
  - Abdominal Ultrasound, 82
  - Liver/Histopathology, 82
- Management, 84
  - Biopsy-guided Therapy, 84
  - Immunomodulatory Therapy, 85
  - Cytoprotective Agents, 85
  - Managing the Complications of Liver Disease, 86
- Prognosis, 86

**13 Copper-associated Hepatopathy****89***Daniel K. Langlois*

- Background, 89
- Etiology, 89
- Clinical Features, 90
- Diagnosis, 91
- Management, 92
- Copper Associated Hepatopathy in Cats, 94

**14 Hepatocutaneous Syndrome****96***Rommaneeya Leela-arporn and Cynthia R. L. Webster*

- Introduction, 96
- Etiology and Pathophysiology, 96
- Clinical Presentation, 97
- Diagnostic Imaging, 98
- Histopathology, 98
- Diagnosis, 98
- Treatment, 99
  - Parenteral Infusions, 100
  - Enteral Supplements, 100
  - Nutritional Management, 101
- Monitoring, 101
- Prognosis, 101

**15 Vacuolar Hepatopathy****103***Sharon A. Center and Andrea N. Johnston*

- Introduction, 103
- Etiology and Risk Factors, 104
- Clinical Diagnosis of Glycogen-type Vacuolar Hepatopathy, 105
  - Signalment, 105
  - Clinical Signs and Physical Examination Findings, 105
  - Clinicopathologic Abnormalities, 106
  - Diagnostic Imaging, 106
  - Hepatic Cytopathology and Histopathology, 106
- Treatment and Monitoring, 108

**16 Infectious Biliary Tract and Gallbladder Disease****110***Emma J. O'Neill*

- Introduction, 110
- Biliary Defense Mechanisms, 111
  - Is there a Normal Gallbladder Flora?, 111

Overview of Neutrophilic Cholangitis and Cholecystitis, 112	
Histopathological Descriptions, 112	
Descriptions in the Literature, 113	
Etiopathogenesis, 113	
Approach to a Case, 120	
Signalment and History, 121	
Clinical Pathology, 121	
Diagnostic Imaging, 121	
Abdominal Ultrasound, 122	
Diagnostic Sampling, 123	
Management, 124	
Summary, 125	

## 17 Gallbladder Mucoceles

128

*Jared A. Jaffey*

Introduction, 128	
Etiology and Risk Factors, 128	
Clinical Diagnosis of Gallbladder Mucocele, 129	
Gallbladder Mucocele Treatment and Prognosis, 131	

## 18 Other Non-infectious Biliary Tract and Gallbladder Diseases

133

*Frederik William Scott Allan*

Cholelithiasis, 133	
Introduction, 133	
Etiology and Risk Factors, 133	
Diagnosis, 133	
Clinical Manifestations, 134	
Incidentally Detected Cholelithiasis, 134	
Symptomatic Cholelithiasis, 135	
Treatment, 135	
Summary, 136	
Gallbladder Sludge, 136	
Canine, 136	
Feline, 137	
Gallbladder Wall Edema, 137	
Chronic Cholecystitis, 137	
Polypoid Gallbladder Lesions, 137	
Hemocholecyst, 138	

**19 Hepatobiliary Neoplasia***Autumn Dutelle*

- Introduction, 140
  - Hepatocellular Tumors, 140
  - Bile Duct Tumors, 141
  - Neuroendocrine Neoplasms, 141
  - Mesenchymal Tumors, 141
- Presenting Complaints, 141
- Diagnostic Testing, 142
  - Diagnostic Imaging, 142
  - Cytology, 142
  - Biopsy, 142
- Staging Tests, 142
  - Laboratory Tests, 142
  - Thoracic Radiographs, 143
  - Abdominal Ultrasound, 143
  - CT Scan, 143
- Therapeutic Options, 144
  - Surgery, 144
  - Radiation Therapy, 145
  - Chemotherapy, 145
  - Chemoembolization, 145
  - Oral Targeted Therapy, 145
- Prognosis, 146

**20 Nutritional Management of Common Hepatobiliary Disorders***Jonathan Stockman*

- Introduction, 148
- Nutritional Considerations for Patients with Advanced Hepatic Disease and Failure, 149
  - Energy, 149
  - Protein and Amino Acids, 149
- Protein Intake Reduction is Only Indicated in Hepatic Encephalopathy or Urate Urolithiasis, 150
  - Fat, 150
  - Vitamins, Minerals, and Antioxidants, 151
- Nutritional Management of Specific Liver Associated Diseases, 152
  - Hepatic Vascular Shunts, Encephalopathy, and Shunt-associated Urate Urolithiasis, 152
  - Feline Hepatic Lipidosis, 153
  - Copper-associated Hepatitis, 156
  - Commercial Veterinary Therapeutic Diets for the Management of Liver Disease, 158

**21 Laboratory Assessment of the Exocrine Pancreas****161***Sue Yee Lim and Jörg Steiner*

- Pancreatitis, 161
  - Serum Amylase, 161
  - Serum Pancreatic Lipase, 162
  - Immunological Lipase Assays, 162
  - Catalytic Lipase Assays, 163
- Exocrine Pancreatic Insufficiency, 165
  - Trypsin and Trypsinogen, 165
  - Fecal Elastase, 167
  - Others, 167

**22 Diagnostic Imaging of the Exocrine Pancreas****171***Angela Marolf*

- Introduction, 171
- Radiographic Imaging of the Pancreas, 171
- Ultrasound Imaging of the Pancreas, 172
  - Acute Pancreatitis, 172
  - Chronic Pancreatitis, 172
  - Pancreatic Fluid Accumulations (e.g., Abscesses/Pseudocysts), 173
  - Pancreatic Neoplasia, 173
- Computed Tomographic Imaging of the Pancreas, 174
  - Acute Pancreatitis and Sequelae, 174
  - Pancreatic Neoplasia, 175
- MRI Imaging of the Pancreas, 176

**23 Cytology of the Exocrine Pancreas****178***Francisco O. Conrado and Leslie C. Sharkey*

- Introduction, 178
- Sample Collection, 178
- Normal Cytologic Findings, 179
- Abnormal Cytologic Findings, 179
  - Inflammation and Tissue Injury, 179
  - Cystic Lesions, 181
  - Hyperplasia, 181
  - Neoplasia, 181

**24 Histopathology of the Exocrine Pancreas**

185

*Victoria Watson, DVM, PhD, Diplomate ACVP*

- Introduction, 185
- Acute Pancreatic Necrosis and Inflammation, 185
  - Acute Pancreatic Necrosis, 187
- Zinc Toxicity, 187
  - Acute Pancreatitis, 187
- Chronic Pancreatitis, 188
- Exocrine Pancreatic Insufficiency, 189
- Pancreatic Hyperplasia and Neoplasia, 189

**25 Acute Pancreatitis in Dogs**

192

*Harry Cridge*

- Introduction, 192
- Etiology and Risk Factors, 192
- Clinical Diagnosis of AP, 193
  - Clinical Signs and Physical Examination Findings, 193
  - Routine Bloodwork, 193
  - Pancreatic Lipase Testing, 194
  - Diagnostic Imaging, 195
  - Additional Comments, 195
- Five Pillars of AP Treatment, 195
  - Analgesia, 195
  - Anti-emetics, 196
  - Fluid Therapy, 196
  - Nutrition, 196
  - Targeted Therapeutics, 197
- Conflict of Interest, 197

**26 Chronic Pancreatitis in Dogs**

199

*Penny Watson*

- Introduction, 199
- Prevalence, Signalment, and Causes, 199
- Signalment, 199
- Diagnosis, 200
  - Clinical Presentation, 200
  - Clinical Pathology, 200
  - Diagnostic Imaging, 200
  - Histology, 201
  - Overall Criteria for Diagnosis of CP, 201

- Treatment, 201
  - Analgesia and Diet, 201
  - Treatment of Suspected Autoimmune CP, 201
  - Treatment of Long-term Sequelae: EPI and DM, 202

## **27 Pancreatitis Complications**

204

*Melissa Bucknoff*

- Introduction, 204
- Local Complications, 204
- Systemic Complications, 205
- Chronic Pancreatitis, 206

## **28 Pancreatitis in Cats**

208

*Betty Chow and Marnin Forman*

- Introduction, 208
- Pathophysiology, 208
- Clinical Presentation, 209
- Diagnostic Evaluation, 209
- Treatment, 212
- Prognosis/Complications, 213

## **29 Exocrine Pancreatic Insufficiency in Dogs**

215

*Patrick C. Barko and David A. Williams*

- Introduction, 215
- Etiopathogenesis, Genetics, and Pathophysiology, 216
- Diagnosis of Exocrine Pancreatic Insufficiency, 217
  - Diagnostic Criteria, 217
  - Clinical Presentation, 217
  - Trypsin-like Immunoreactivity, 218
  - Ancillary Diagnostics, 218
- Treatment, 219
  - Pancreatic Enzyme Replacement Therapy, 219
  - Dietary Modification, 220
  - Managing Cobalamin Deficiency, 220
  - Other Adjunctive Therapies, 220
- Prognosis, 221

**30 Exocrine Pancreatic Insufficiency in Cats****225***Panagiotis G. Xenoulis*

- Introduction, 225
- Epidemiology, 225
- Etiology and Pathophysiology, 225
- Signalment, 226
- Clinical Signs, 226
- Diagnosis, 227
  - Routine Clinical Pathology, 228
  - Serum Cobalamin, 228
  - Serum TLI Concentrations, 228
- Imaging and Pathology, 229
- Treatment, 229
  - Enzyme Replacement Therapy, 229
  - Cobalamin Supplementation, 229
  - Antibiotics and Intestinal Microbiota Modification, 230
  - Dietary Recommendations, 230
  - Other Treatments, 231
- Prognosis, 231

**31 Neoplasia and Uncommon Disorders of the Exocrine Pancreas****233***Sue Yee Lim*

- Exocrine Pancreatic Neoplasia, 233
  - Risk Factors, 233
  - Presenting History and Clinical Signs, 234
  - Clinicopathologic Findings, 234
  - Diagnostic Imaging Findings, 234
  - Pathology and Sampling, 235
  - Treatment and Prognosis, 236
- Less Common Exocrine Pancreatic Lesions, 237

**32 Nutritional Management of Exocrine Pancreatic Disorders****239***Cecilia Villaverde*

- Introduction, 239
- Exocrine Pancreatic Insufficiency, 239
  - Effect on Nutritional Status, 239
  - Nutritional Strategies for Management, 240
  - Feeding Plan, 241
- Pancreatitis, 243
  - Nutritional Strategies, 243
  - Feeding Plan, 245

**33 Laboratory Assessment of the Gastrointestinal Tract****249***Romy M. Heilmann*

- Introduction, 249
- Routine Clinicopathologic Parameters, 250
- Fecal Examination, 252
- Further Clinicopathologic Evaluation, 254
- Additional Biomarkers to Evaluate Chronic GI Disease, 255
- Concluding Remarks, 257

**34 Diagnostic Imaging of the Gastrointestinal Tract****259***Eimear Shorten and Séamus Hoey*

- Gastrointestinal Walls, 259
- The Esophagus, 259
  - Esophageal Dilation, 260
  - Esophageal Foreign Bodies, 260
  - Esophageal Narrowing, 261
  - Esophageal Masses, 262
  - Hiatal Disorders, 262
- The Stomach, 263
  - Gastric Dilatation-volvulus, 263
  - Pyloric Outflow Obstruction, 264
  - Gastric Foreign Bodies, 264
  - Gastric Neoplasia, 265
  - Gastritis, 266
  - Gastric Ulceration, 266
- Small Intestine, 266
  - Small Intestinal Ileus, 267
  - Mechanical Ileus: Obstruction, 267
  - Functional Ileus, 268
  - Linear Foreign Bodies, 268
  - Small Intestinal Neoplasia, 268
  - Small Intestinal Inflammation, 269
  - Lymphangiectasia, 269
  - Intussusception, 270
  - Mesenteric Volvulus, 270
- Cecum, 271
  - Typhlitis, 271
- Colon and Rectum, 271
  - Intussusception, 272
  - Colorectal Neoplasia, 272
  - Colonic Torsion, 272

- Megacolon, 272
- Atresia Ani, 272
- Perianal Region, 273
  - Anal Sac Inflammation, 273
  - Perianal Neoplasia, 273

## 35 Gastrointestinal Endoscopy

277

*Edward Hall*

- Introduction, 277
- Equipment, 277
  - Rigid Endoscopes, 277
  - Flexible Endoscopes, 277
  - Video Capsule Endoscopy, 278
- Endoscopic Procedure, 279
  - Patient Preparation, 279
  - Sedation and Anesthesia, 279
  - Patient Positioning, 279
  - Endoscopic Technique, 280
  - Biopsy Technique, 280
  - Recording, 280
- Upper GI Endoscopy, 280
  - Esophagoscopy, 280
  - Gastrosocopy, 283
  - Duodenoscopy (and Jejunoscopy), 284
- Lower GI Endoscopy, 286
  - Recto-colonoscopy, 286
  - Ileoscopy, 286
- Therapeutic Endoscopic Techniques, 287
  - FB Retrieval, 287
  - Esophageal Stricture Dilation, 288
  - Endoscopic Mucosal Resection, 288
  - PEG Feeding Tubes, 288

## 36 Cytology and Histopathology of the Gastrointestinal Tract (Dogs and Cats)

290

*Simon L. Priestnall and Alejandro Suárez-Bonnet*

- Introduction, 290
- Sample Quality, 290
- Cytology, 291
  - Mucosa, 291
    - Epithelium and Propria Mucosa, 291
- Crypts and Glands, 292
- Lymphatic Vessels, 293

- Blood Vessels, 293
- Inflammatory Cells, 294
  - Lymphocytes, 294
  - Plasma Cells, 294
  - Eosinophils, 295
  - Neutrophils, 295
  - Macrophages/Histiocytes, 295
- Tunica Muscularis, 296
- Serosa, 296
- Nervous System, 297

## **37 Diseases of the Oral Cavity, Oropharynx, and Salivary Glands**

**298**

*Sarah Tayler*

- Introduction, 298
- Diseases of the Oral Cavity, 298
  - Diseases of the Teeth and Periodontium, 299
  - Diseases of the Tongue, 303
  - Diseases of the Maxilla and Mandible, 304
  - Diseases of the Hard and Soft Palate, 305
  - Miscellaneous Oral Cavity Disorders, 307
- Diseases of the Oropharynx, 308
  - Diseases of the Tonsils, 308
  - Cricopharyngeal Achalasia and Cricopharyngeal Asynchrony, 309
  - Miscellaneous Conditions of the Oropharynx, 310
- Diseases of the Salivary Glands, 310
  - Sialadenitis, 311
  - Phenobarbital Responsive Sialadenosis, 311
  - Sialocele (Salivary Mucocele), 311
  - Neoplasia of the Salivary Glands, 312

## **38 Aerodigestive Disorders**

**314**

*Beatrice Ruggerone and Fabio Procoli*

- Introduction, 314
- Classification, 315
- Signalment, History, and Clinical Signs, 316
- Diagnostic Modalities, 317
- Upper Airway Disorders, 317
- Lower Airways and Pulmonary Parenchyma, 318
- Upper Digestive Tract, 319

**39a Disorders of the Esophagus – Megaesophagus****323***Jillian M. Haines*

- Introduction, 323
- Clinical Signs and Physical Exam Findings, 323
- Diagnostic Testing, 325
- Management and Treatment, 326
- Prognosis, 327

**39b Disorders of the Esophagus (Excluding Megaesophagus)****331***Dan Batchelor*

- Normal Structure and Function, 331
  - Swallowing, 331
- Cricopharyngeal Muscle Dysfunction, 332
  - Recognition and Diagnosis, 332
  - Treatment, 332
- Esophagitis, 333
  - Recognition and Diagnosis, 333
  - Treatment, 333
  - Gastric Acid Suppression, 333
  - Other Aspects of Treatment, 334
- Gastroesophageal Reflux Disease (GERD), 334
  - Recognition and Diagnosis, 335
  - Treatment, 335
- Hiatal Hernia, 335
  - Recognition and Diagnosis, 336
  - Treatment, 336
- Stricture, 336
  - Recognition and Diagnosis, 336
  - Treatment, 336
- Foreign Bodies, 338
  - Recognition and Diagnosis, 338
  - Treatment, 339
- Vascular Ring Anomalies, 340
  - Recognition and Diagnosis, 340
  - Treatment, 341
- Tumors, 341
  - Recognition and Diagnosis, 341
  - Treatment, 342
- Esophageal Diverticulum, 342
- Esophageal Fistula, 342

- Spirocercosis, 342
  - Life Cycle, 343
  - Clinical Signs, 343
  - Treatment, 343

## **40 Disorders of the Stomach**

**347**

*Julien R.S. Dandrieux and Silke Salavati Schmitz*

- Introduction, 347
- Physiology of the Stomach, 348
  - Anatomy and Motility, 348
  - Acid and Hormone Production, 350
- Clinical Signs of Gastric Disease, 350
- Diagnostics and Techniques, 351
- Diseases of the Stomach, 351
  - Congenital Diseases, 351
  - Gastritis, 352
  - Gastric Ulceration, 352
  - Gastric Foreign Bodies, 353
  - Motility Disorders and Aerodigestive Disorders, 354
  - Gastric Dilatation-volvulus, 355
  - Neoplastic Conditions of the Stomach, 356
- Specific Procedures Relating to Gastric Conditions, 358
  - Orogastric Intubation for Content Removal and Lavage, 358
  - Gastrotomy Tubes, 359
- Drugs Frequently Used with Gastric Diseases, 361
  - Antiemetics, 361
  - Proton-pump Inhibitors and Other Gastric Mucosal Protectants, 361
  - Prokinetics, 362

## **41 Disorders of the Small Intestine**

**365**

*Sara Jablonski*

- Introduction, 365
- Specific Disorders of the SI, 366
  - Idiopathic Acute Enteropathy, 366
  - Acute Infectious Enteritis, 368
  - Chronic Infectious Enteritis, 370
  - Chronic Enteropathy, 372
  - Feline Eosinophilic Sclerosing Fibroplasia, 379
  - Protein-losing Enteropathy, 379
  - Small Intestinal Neoplasia, 382
  - Miscellaneous Disorders, 384
  - Motility Disorders, 385
  - Congenital Disorders, 386

**42 Disorders of the Large Intestine and Rectum****390***Alison C. Manchester and Yuvani Bandara*

- Large Intestinal Anatomy and Physiology, 390
  - Microscopic, 391
  - History/Clinical Signs + Diagnostic Approach, 391
- Congenital Diseases of the Large Intestine, 396
- Idiopathic and Inflammatory Conditions of the Large Intestine, 397
  - Therapeutics, 398
- Infectious Diseases of the Large Intestine, 399
  - Bacterial, 399
  - Fungal and Oomycetal, 401
  - Protozoal and Algal, 402
  - Viral, 403
  - Helminth, 404
- Structural Diseases of the Large Intestine, 405
- Neoplasia of the Large Intestine, 406
  - Presentation, 407
  - Diagnosis, 407
  - Treatment and Prognosis, 407

**43 Disorders of the Anus and Perianal Skin****410***Sarah Long and Anke Hendricks*

- Section 1 Approach to Presenting Problems, 410
  - Perianal Erythema, 412
  - Swellings, 412
  - Defects in Integrity, Crusting, 412
  - Abnormal Pigmentation, 412
- Section 2 Disorders, 412
  - Microbial Dysbiosis, Overgrowth, and Superficial Infection, 412
- Understanding Topical Antimicrobial Therapy Principles, 413
- Allergic Skin Disease, 415
- Intertrigo (Frictional and Moisture-induced Dermatitis), 415
- Fecal Incontinence-associated Dermatitis, 415
- Anal Sac Disease, 415
  - Non-neoplastic Anal Sac Disease in the Dog, 416
  - Neoplastic Anal Sac Disease in the Dog, 417
  - Non-neoplastic Anal Sac Disease in the Cat, 417
  - Neoplastic Anal Sac Disease in the Cat, 417
- Hepatoid Gland Neoplasia, 418
- Anal Furunculosis, 418
