

Contents

List of Contributors *viii*

Preface to the Seventh Edition *xv*

Part I Introduction 1

- 1 **Past, Present and Future of Transfusion Medicine** 1
Richard M. Kaufman

Part II Basic Principles of Immunohaematology and Transplantation 10

- 2 **Essential Immunology for Transfusion Medicine** 10
Connie M. Arthur and Sean R. Stowell
- 3 **Red Blood Cell Antigens and Antibodies** 19
Jennifer R. Hagman and Jill R. Storry
- 4 **Platelet, Neutrophil and Leucocyte Antigens and Antibodies** 31
Louise Helander and Caroline R. Alquist

Part III Overarching Principles of Good Practice in Transfusion Medicine 46

- 5 **Evidence-Based Transfusion Medicine** 46
Adam Irving, Khai L. Chai, Susan J. Brunskill, and Zoe K. McQuilten
- 6 **Quality Management in Transfusion Medicine** 59
Sarah L. Morley, Gustavo C. Duarte, and Fidelma Murphy
- 7 **Donors and Blood Collection** 70
Marc Germain and Pierre Tiberghien
- 8 **Principles of Patient Blood Management** 82
Allison Mo and Monica B. Pagano
- 9 **The Role of Haemovigilance in Transfusion Safety** 104
Barbee I. Whitaker, Katharine A. Downes, and Johanna C. Wiersum-Osselton

10 Emergency Blood Preparedness 115

Torunn O. Apelseth and Tom Scorer

Part IV Practice in Blood Centres and Hospitals 122

11 Blood Donation Testing and the Safety of the Blood Supply 122

Agbonbhaselena Omonua, Susan R. Brailsford, and Stephen Thomas

12 Production and Storage of Blood Components 132

Denese Marks and Susanne Marschner

13 Pre-transfusion Testing and the Selection of Products for Transfusion 148

Chris Hogan and Alison Davies

14 Hospital Oversight of Transfusion Safety and the Appropriate Use of Blood 159

Nicole Relke, Susan Nahirniak, and Andrew W. Shih

Part V Clinical Transfusion Practice 178

15 Inherited and Acquired Red Cell Disorders 178

Raisa Balbuena-Merle, Christopher A. Tormey, and David Raggay

16 Inherited and Acquired Platelet Disorders 190

Anand Padmanabhan and Dong Chen

17 Inherited and Acquired Disorders of Coagulation 204

Emmanuel J. Favaloro, Marian Rollins-Raval, and Rajiv Pruthi

18 Transfusion in Patients with Major Haemorrhage 222

Aaron Stansbury Hess

19 Elective Transfusions 233

Simon J. Stanworth and Akshay Shah

20 Obstetric Transfusion Medicine 243

Anna Parakh, Erin O'Reilly, and Helen Savoia

21 Neonatal, Infant and Paediatric Transfusion 255

Anne M. Kelly

22 Plasma Derivatives 267

Matea Vinković Vlah, Anja Mäkelburg, and Cynthia So-Osman

23 Therapeutic Apheresis 279

Andrew D. Johnson and Nicole D. Zantek

- Part VI Complications of Transfusion 292**
- 24 Approach to the Investigation and Management of a Patient with a Suspected Transfusion Reaction 292**
Hyoleong Han and Meghan Delaney
- 25 Acute Haemolytic Transfusion Reactions 306**
Courtney K. Hopkins and Rim Abdallah
- 26 Allergic and Anaphylactic Transfusion Reactions 318**
Liz Marinaro and Ralph Vassallo
- 27 Respiratory Complications of Transfusion 326**
Tom Latham, Rick Kapur, Alexander Vlaar, and Paula HB Bolton-Maggs
- 28 Complications of Transfusion: Bacterial Sepsis 339**
Michel-Andrés García-Otálora, Sylvia Ighem-Chi, and Sandra Ramírez-Arcos
- 29 Delayed Complications of Blood Transfusion 351**
France Pirenne and Mariane de Montalembert
- 30 Transfusion-Transmitted Infections – Pathogens of Concern 364**
Brian Custer
- 31 Transfusion-Transmitted Infections – Interventions and Measuring Risk 373**
Brian Custer
- Part VII Cellular Therapy and Transplantation 382**
- 32 Haematopoietic Cell Transplantation 382**
Laura Connelly-Smith
- 33 Cellular Immunotherapy 397**
Daniel North, Louis Peters, and Ronjon Chakraverty
- 34 Tissue Banking 409**
Clint S. Schmidt, Kristen L. Rodriguez, Michael C. Deeds, and Eapen K. Jacob
- Index 417**
