

Part 1: Diagnostic procedures

1 The neurological examination

Laurent Garosi and Elsa Beltran

2 Clinical reasoning – neurolocalization and differential diagnoses

Elsa Beltran, Holger Volk and Laurent Garosi

3 Clinical pathology

Heather Wamsley

4 Electrophysiology

Fiona James

5 Neuroimaging

Elsa Beltran and Ines Carrera

6 Tissue biopsy

Kaspar Matiasek, Sam Long and Marco Rosati

7 Genetic diseases

Dennis O'Brien

Part 2: Neurological presentations

8 Emergency protocols

Natasha Olby and Simon Platt

9 Seizures

Mike Podell, Holder Volk and Simon Platt

10 Encephalopathies

Simon Platt and John Rossmeisl

11 Disorders of the eyes and vision

Elsa Beltran and Jacques Penderis

12 Vestibular syndrome

Karen Muñana

13 Abnormalities of the head and face

Nick Jeffery and Nicolas Granger

14 Movement disorders

Mark Lowrie, Laurent Garosi and Simon Platt

15 Neck and back pain

Simon Platt, Courtenay Freeman and Claire Rusbridge

16 Acute myelopathies

Natasha Olby and Joe Fenn

17 Chronic myelopathies

Joan Coates and Steven De Decker

18 Monoparesis or monoplegia

Sonia Añor

19 Generalized weakness, exercise intolerance, collapse

Simon Platt, Kaspar Matiasek and Nicolas Granger

20 Tail, anal and bladder dysfunction

Joan Coats and Steven De Decker

Part 3: Therapeutics

21 Neurotoxicology

Simon Platt and Natasha Olby

22 Anaesthesia and analgesia

Anthea Rasis and Carl Bradbrook

23 Principles of neurosurgery

Beverly Sturges and Peter Dickinson

24 Drug therapy for disease of the nervous system

Franziska Richter Assencio and Mark Papich

25 Neuro-oncology

Michael Nolon and James Elliott

26 Rehabilitation of the neurological patient

Natasha Olby and Cory Sims

Appendices

1 Neurological disorders associated with cat and dog breeds

Joe Fenn and Carley Giovanella

2 Vitamin D classification of diseases

3 Conversion tables

4 Scales
