

Χαρακτηριστικά:

- Addresses the **full spectrum of rheumatic diseases**, from typical juvenile idiopathic arthritis to rare and newly recognized syndromes, providing **practical guidance** on diagnosis, outcome measurement, and management—including both pharmacologic and multidisciplinary strategies
- Covers **state-of-the-art advances** in pediatric rheumatology, including genomic and multi-omics approaches, the latest targeted therapies, modern imaging, and evolving concepts in autoinflammation and immune deficiency
- Reflects the **changes in diagnosis, monitoring, and management** that recent advances have made possible, and provides updates of laboratory investigations, imaging techniques, physical and occupational therapy, approach to chronic musculoskeletal pain syndromes, and much more
- Features reviews of the complex symptoms, signs, and laboratory abnormalities that characterize these disorders
- Shares the knowledge and expertise of two **new editors**, Drs. Jonathan Akikusa and Hermine Brunner, and 38 new contributing authors who are international leaders in the field of pediatric rheumatology
- **An eBook version is included with purchase.** The eBook allows you to access all of the text, figures, and references, with the ability to search, customize your content, make notes and highlights, and have content read aloud

Περιεχόμενα:

SECTION A Introduction

1. Evolution of Pediatric Rheumatology

SECTION B Basic Concepts

2. Structure and Function
3. Innate Immunity
4. Adaptive Immunity
5. Multiomics Approaches to Rheumatic Disease
6. Genetics and Pediatric Rheumatic Diseases

SECTION C Clinical Research in Pediatric Rheumatology

7. Understanding Clinical Investigations
8. Clinical Outcome Measures in Pediatric Rheumatic Diseases

SECTION D Clinical Investigations in Pediatric Rheumatology

9. Laboratory Investigations

10. Imaging in Pediatric Rheumatic Diseases

SECTION E Management of Rheumatic Diseases in Children

11. Principles in the Management of Patients With Rheumatic Diseases
12. Therapeutics: Nonbiologics
13. Therapeutics: Biologics and Targeted Small Molecules
14. Physical and Occupational Therapy
15. The Assessment and Management of Osteoporosis in Childhood

SECTION F Juvenile Idiopathic Arthritis and Related Conditions

16. Juvenile Idiopathic Arthritis: Classification and Basic Concepts
17. Systemic Juvenile Idiopathic Arthritis
18. Polyarticular Juvenile Idiopathic Arthritis
19. Oligoarticular Juvenile Idiopathic Arthritis
20. Enthesitis-Related Juvenile Idiopathic Arthritis
21. Psoriatic Juvenile Idiopathic Arthritis
22. Uveitis in Juvenile Idiopathic Arthritis

SECTION G Arthritis Related to Infection

23. Acute Rheumatic Fever and Post-streptococcal Arthritis
24. Reactive Arthritis
25. Lyme Disease
26. Infectious Arthritis and Osteomyelitis

SECTION H Autoimmune and Inflammatory Connective Tissue Disorders and Related Syndromes

27. Systemic Lupus Erythematosus, Mixed Connective Tissue Disease, and Undifferentiated Connective Tissue Disease
28. Neonatal Lupus Erythematosus
29. Antiphospholipid Syndrome
30. Juvenile Dermatomyositis and Other Inflammatory Muscle Diseases
31. Juvenile Systemic Sclerosis
32. Localized Scleroderma and Eosinophilic Fasciitis
33. Sjögren Disease and Immunoglobulin-G4–Related Disease
34. Raynaud Phenomena and Vasomotor Syndromes
35. Inflammatory Central Nervous System Disorders

SECTION I Vasculitis

36. Vasculitis and Its Classification
37. Takayasu Arteritis
38. Polyarteritis Nodosa
39. Kawasaki Disease
40. Antineutrophil Cytoplasmic Antibody–Associated Vasculitis
41. Immune Complex Small-Vessel Vasculitis: IgA Vasculitis and Hypersensitivity Vasculitis
42. Behcet Syndrome and Its Mimics

- 43. Central Nervous System Vasculitis
- 44. Other Vasculitides

SECTION J Immune System Dysfunction, Autoinflammation, and Immune Deficiency

- 45. Periodic Fever Syndromes and Other Inherited Autoinflammatory Diseases
- 46. Autoinflammatory Bone Diseases
- 47. Blau Syndrome, Sarcoidosis, and Related Systemic Granulomatous Diseases
- 48. Macrophage Activation Syndrome
- 49. Inborn Errors of Immunity and Rheumatic Disease

SECTION K Musculoskeletal Manifestations of Systemic Disorders

- 50. Malignancies and Nonmalignant Musculoskeletal Conditions That May Mimic Rheumatic Disease
- 51. Musculoskeletal Manifestations of Inflammatory Bowel Disease
- 52. Musculoskeletal Manifestations of Systemic Disease

SECTION L Non-Inflammatory Musculoskeletal Conditions and Pain Syndromes

- 53. Primary Disorders of Connective Tissue
- 54. Localized Musculoskeletal Pain
- 55. Primary and Secondary Chronic Musculoskeletal Pain Syndromes
