

Χαρακτηριστικά:

- Helps you **build and solidify core knowledge** to prepare you for clinical practice with critical, up-to-date information on everything from basic principles to advanced state-of-the-art techniques in ultrasound
- Covers the **full spectrum of ultrasound use** for general, vascular, obstetric, and gynecologic imaging
- Adds **new or expanded topics** including practical physics and image optimization, liver masses and gallbladder polyps, small parts including hernias and soft tissue masses, chest and lung diseases, ectopic pregnancy and early pregnancy failure, management of asymptomatic adnexal cysts, and current practice guidelines
- Includes **high-yield boxes and tables throughout** that highlight differential diagnoses and summarize findings
- Contains many **new and updated figures of anatomy and pathology**, additional correlative imaging, and new schematics demonstrating important concepts and findings
- Features **more than 300 video clips** depicting ultrasound findings
- Published as part of the **newly reimagined Core Requisites series**, an update to the popular Requisites series aimed at radiology trainees and today's busy clinicians
- **An eBook version is included with purchase.** The eBook allows you to access all of the text, figures, and references, with the ability to search, customize your content, make notes and highlights, and have content read aloud. Additional digital ancillary content may publish up to 6 weeks following the publication date

Περιεχόμενα:

SECTION 1 PRACTICAL PHYSICS

Chapter 1 Image Generation

Chapter 2 Image Optimization

Chapter 3 Ultrasound Artifacts

SECTION 2 HEPATOBILIARY SYSTEM

Chapter 4 Liver Anatomy and Ultrasound Techniques

Chapter 5 Parenchymal Disease and Liver Infections

Chapter 6 Liver Masses

Chapter 7 Liver Vasculature

Chapter 8 Liver Transplant

Chapter 9 Gallbladder Anatomy and Ultrasound Techniques

Chapter 10 Luminal Abnormalities of the Gallbladder

Chapter 11 Gallbladder Wall Abnormalities

Chapter 12 Cholecystitis

Chapter 13 Bile Duct Anatomy and Ultrasound Techniques

Chapter 14 Luminal Abnormalities of the Bile Ducts
Chapter 15 Bile Duct Wall Abnormalities

SECTION 3 PANCREAS AND SPLEEN

Chapter 16 Pancreas Anatomy and Ultrasound Techniques
Chapter 17 Pancreatitis
Chapter 18 Pancreatic Masses
Chapter 19 Pancreas Transplantation
Chapter 20 Spleen

SECTION 4 URINARY

Chapter 21 Kidneys: Anatomy and Ultrasound Techniques
Chapter 22 Kidney Parenchyma
Chapter 23 Cystic Masses of the Kidney
Chapter 24 Kidney Neoplasms
Chapter 25 Kidney Collecting System
Chapter 26 Kidney Vasculature
Chapter 27 Kidney Transplant
Chapter 28 Bladder and Urethra

SECTION 5 MALE GENITAL

Chapter 29 Scrotal Anatomy and Ultrasound Technique
Chapter 30 Intratesticular Lesions
Chapter 31 Extratesticular Lesions
Chapter 32 Scrotal Torsion and Trauma
Chapter 33 Scrotal Infections
Chapter 34 The Prostate and Penis

SECTION 6 BOWEL

Chapter 35 Bowel

SECTION 7 BODY SPACES

Chapter 36 Peritoneum
Chapter 37 Retroperitoneum

SECTION 8 HEAD AND NECK

Chapter 38 Thyroid
Chapter 39 Parathyroid
Chapter 40 Salivary Glands
Chapter 41 Neck Masses

SECTION 9 VASCULAR

Chapter 42 Aorta, IVC, and Splanchnic Vessels
Chapter 43 Cerebrovascular

Chapter 44 Peripheral Arteries

Chapter 45 Peripheral Veins

SECTION 10 SUPERFICIAL SOFT TISSUES

Chapter 46 Hernias

Chapter 47 Superficial Soft Tissue Masses

Chapter 48 Superficial Soft Tissue Infections, Fluid Collections, and Foreign Bodies

SECTION 11 MUSCULOSKELETAL

Chapter 49 Tendons and Muscles

Chapter 50 Joints and Bones

Chapter 51 Nerves

SECTION 12 CHEST

Chapter 52 Chest

SECTION 13 UTERUS

Chapter 53 Uterus Anatomy and Ultrasound Techniques

Chapter 54 Congenital Uterine Anomalies

Chapter 55 Myometrial Abnormalities

Chapter 56 Endometrial Abnormalities

Chapter 57 Cervix and Vagina Abnormalities

Chapter 58 Postpartum Uterus

SECTION 14 OVARIES

Chapter 59 Ovaries: Anatomy and Ultrasound Techniques

Chapter 60 Physiologic and Benign Focal Lesions of the Ovary

Chapter 61 Ovarian Neoplasms and O-RADS

Chapter 62 Ovarian Torsion

SECTION 15 ADNEXA

Chapter 63 Adnexa

SECTION 16 OBSTETRICAL ULTRASOUND EXAM GUIDELINES

Chapter 64 First-Trimester Imaging Parameters

Chapter 65 Second and Third Trimester Imaging Parameters

SECTION 17 PRENATAL SCREENING AND ANEUPLOIDY

Chapter 66 First-Trimester Screening

Chapter 67 Second-Trimester Screening

SECTION 18 FIRST TRIMESTER

Chapter 68 First-Trimester Viability and Anatomy

Chapter 69 Ectopic Pregnancy

Chapter 70 Gestational Trophoblastic Disease for Ultrasound

SECTION 19 FETAL WELL BEING

Chapter 71 Fetal Well-Being, Amniotic Fluid Volume, and Hydrops

SECTION 20 PLACENTA

Chapter 72 Placenta Anatomy and Ultrasound Techniques

Chapter 73 Placenta Previa and Accreta Spectrum

Chapter 74 Placental Hemorrhage and Masses

SECTION 21 UMBILICAL CORD

Chapter 75 Umbilical Cord for Ultrasound

SECTION 22 GRAVID CERVIX

Chapter 76 Gravid Cervix

SECTION 23 FETAL THORAX

Chapter 77 Fetal Thoracic Anatomy and Ultrasound Techniques

Chapter 78 Fetal Cardiac Anomalies

Chapter 79 Fetal Thoracic Extracardiac Abnormalities

SECTION 24 FETAL CENTRAL NERVOUS SYSTEM

Chapter 80 Fetal Cranial Anatomy

Chapter 81 Fetal Intracranial Anomalies

Chapter 82 Fetal Spine

Chapter 83 Fetal Face and Neck

SECTION 25 FETAL GI TRACT

Chapter 84 Fetal Abdominal Wall

Chapter 85 Fetal Bowel

Chapter 86 Fetal Hepatobiliary

SECTION 26 FETAL GENITOURINARY TRACT

Chapter 87 Fetal Urinary Tract

Chapter 88 Fetal Adrenal Glands and Genital Tracts

SECTION 27 FETAL MUSCULOSKELETAL SYSTEM

Chapter 89 Fetal Musculoskeletal Anatomy and Abnormalities

Chapter 90 Fetal Skeletal Dysplasias

SECTION 28 MULTIPLE GESTATIONS

Chapter 91 Types of Multiple Gestations

Chapter 92 Complications of Multiple Gestations
