Part I: Cranial

1	Convexity Craniotomy	3
	<i>Tritan Plute, Arka N. Mallela, Hussam Abou-Al-Shaar, and Pascal O. Zinn</i>	
1.1	Background	3
1.2	Indications and Contraindications	4
1.3	Patient Preparation	4
1.4	Patient Positioning	5
1.5	Technique	5
1.6	Complications	5
1.7	Management Pearls	5
	References	6
2	Frontotemporal (Pterional) Craniotomy	7
	<i>Aditya M. Mittal, Kamil W. Nowicki, and Xiaoran Zhang</i>	
2.1	Background	7
2.2	Indications and Contraindications	7
2.3	Patient Preparation	7
2.4	Patient Positioning	7
2.5	Technique	8
2.6	Postoperative Care	8
2.7	Complications	8
2.8	Management Pearls	8
	References	10
3	Parasagittal Craniotomy	11
	<i>Kelsey Templeton, Brianna Carusillo Theriault, Charles C. Duncan, and Veronica L. Chiang</i>	
3.1	Background	11
3.2	Indications and Contraindications	11
3.2.1	Indications	11
3.2.2	Contraindications	11
3.3	Informed Consent: Expected Benefits and Potential Complications To Be Mentioned	11

3.4	Instruments	11	3.8	Postoperative Care	14
3.5	Patient Preparation	11	3.9	Complications	14
3.6	Patient Positioning	13	3.10	Management Pearls	14
3.7	Technique	13			
4	Temporal Craniotomy	15			
	<i>Jeremy S. Reyes, Krishna P. Nayak, Anita Kalluri, Sydney Scanlon, Kelly Jiang, Othman Bin-Alamer, Meghana Bhimreddy, Benjamin Rodriguez, Nancy Abu-Bonsrah, Sakibul Huq, Judy Huang, and Constantinos G. Hadjipanayis</i>				
4.1	Background	15	4.6	Technique	16
4.2	Indications and Contraindications	15	4.7	Postoperative Care	17
4.3	Instruments	15	4.8	Complications	17
4.4	Patient Preparation	15	4.9	Management Pearls	17
4.5	Patient Positioning	16		References	18
5	Technical Nuances of the Fronto-Orbital Craniotomy	21			
	<i>Spencer Twitchell, Karol P. Budohoski, Robert C. Rennert, and William T. Couldwell</i>				
5.1	Background	21	5.7	Technique	21
5.2	Indications and Contraindications	21	5.8	Postoperative Care	26
5.3	Informed Consent	21	5.9	Complications	26
5.4	Instruments	21	5.10	Management Pearls	27
5.5	Patient Preparation	21	5.11	Special Risks	27
5.6	Patient Positioning	21		References	27
6	Supraorbital Approach	29			
	<i>Michael T. Bounajem, Robert C. Rennert, Karol P. Budohoski, Henry W.S. Schroeder, and William T. Couldwell</i>				
6.1	Background	29	6.4	Instruments	29
6.2	Indications and Contraindications	29	6.5	Patient Preparation	29
6.3	Informed Consent	29	6.6	Patient Positioning	30

6.7	Technique	30	6.10	Management Pearls	32
6.8	Postoperative Care	32		Acknowledgments	32
6.9	Complications.....	32		References.....	32
7	Lateral Orbital Approach.....	33			
	<i>Robert C. Rennert, Michael T. Bounajem, Karol P. Budohoski, and William T. Couldwell</i>				
7.1	Background.....	33	7.7	Technique	35
7.2	Indications and Contraindications	33	7.8	Postoperative Care	36
7.3	Informed Consent	34	7.9	Complications.....	36
7.4	Instruments.....	34	7.10	Management Pearls	36
7.5	Patient Preparation.....	35		References.....	37
7.6	Patient Positioning	35			
8	Supracerebellar Infratentorial Approach.....	39			
	<i>Matthew J. Recker, Jaims Lim, Joanna M. Roy, Bao Y. Sciscent, Steven Blake Housley, Adnan H. Siddiqui, and Renee Reynolds</i>				
8.1	Background.....	39	8.6	Technique	41
8.2	Indications and Contraindications	39	8.7	Postoperative Care	42
8.3	Instruments.....	39	8.8	Complications.....	42
8.4	Patient Preparation.....	40	8.9	Management Pearls	42
8.5	Patient Positioning	40		References.....	43
9	Supracerebellar Transtentorial Approach.....	45			
	<i>Jaims Lim, Matthew J. Recker, Bao Y. Sciscent, Joanna M. Roy, Steven Blake Housley, Adnan H. Siddiqui, and Renee Reynolds</i>				
9.1	Background.....	45	9.6	Technique	46
9.2	Indications and Contraindications	45	9.7	Postoperative Care	48
9.3	Instruments.....	45	9.8	Complications.....	48
9.4	Patient Preparation.....	46	9.9	Management Pearls	49
9.5	Patient Positioning	46		References.....	49

10	Telovelar and Transvermian Approaches	51
	<i>Matthew J. Recker, Jaims Lim, Bao Y. Sciscent, Joanna M. Roy, Steven Blake Housley, Adnan H. Siddiqui, and Renee Reynolds</i>	
10.1	Background	51
10.2	Indications and Contraindications	51
10.3	Instruments	51
10.4	Patient Preparation	51
10.5	Patient Positioning	52
10.6	Technique	52
10.7	Postoperative Care	53
10.8	Complications	53
10.9	Management Pearls	54
	References	54
11	Translabyrinthine Approach	55
	<i>Margaret I. Engelhardt, Philip L. Perez, and Andrew A. McCall</i>	
11.1	Background	55
11.2	Indications and Contraindications	55
11.3	Instruments	55
11.4	Patient Preparation	55
11.5	Patient Positioning	55
11.6	Technique	55
11.7	Postoperative Care	59
11.8	Complications	59
11.9	Management Pearls	59
	References	59
12	Retrosigmoid Approach	61
	<i>Jaims Lim, Alexander Becker, Steven Blake Housley, Andrew Becker, Andre Monteiro, and Elad I. Levy</i>	
12.1	Background	61
12.2	Indications and Contraindications	61
12.3	Patient Preparation	62
12.4	Patient Positioning	63
12.5	Technique	63
12.6	Postoperative Care	65
12.7	Complications	66
12.8	Management Pearls	66
	References	67
13	Far Lateral Approach	69
	<i>Mehmet Sabri Gurbuz, Abdullah Keles, Ufuk Erginoglu, and Mustafa Kemal Baskaya</i>	
13.1	Background	69
13.2	Indications and Contraindications	69
13.3	Informed Consent	69
13.4	Instruments	69

13.5	Patient Preparation	70	13.9	Complications	71
13.6	Patient Positioning	70	13.10	Management Pearls	72
13.7	Technique	70	13.11	Conclusion	74
13.8	Postoperative Care	71		References	75
14	Decompressive Hemicraniectomy	77			
	<i>Shaarada Srivatsa, Krishna P. Nayak, and Enyinna L. Nwachuku</i>				
14.1	Background	77	14.6.2	Retractor System	78
14.2	Indications and Contraindications	77	14.6.3	Burr Holes and Craniotomy	78
14.3	Instruments	77	14.6.4	Dural Opening	79
14.4	Patient Preparation	77	14.6.5	Dural Closure	79
14.5	Patient Positioning	77	14.6.6	Galeal and Skin Closure	80
14.6	Technique	78	14.7	Postoperative Care	80
14.6.1	Incision	78	14.8	Complications	80
			14.9	Management Pearls	80
				References	82
15	Transsellar	83			
	<i>Ayesha Akbar Waheed and David T. Fernandes Cabral</i>				
15.1	Background	83	15.8	Patient Positioning	84
15.2	Disease Profile	83	15.9	Technique	85
15.3	Preparatory Diagnostics	83	15.10	Relevant Anatomy	86
15.4	Indications and Contraindications	83	15.11	Postoperative Care	86
15.4.1	Indications	83	15.12	Complications	87
15.4.2	Contraindications	83	15.12.1	Intraoperative	87
15.5	Informed Consent	84	15.12.2	Postoperative	87
15.6	Instruments	84	15.12.3	Special Risks	87
15.7	Patient Preparation	84	15.13	Management Pearls	87
15.7.1	Anesthesia	84	15.13.1	Expert Pearls	87
				References	87

16	Transpterygoid	89		
	<i>Hanna N. Algattas and Paul A. Gardner</i>			
16.1	Background	89	16.7	Technique
16.2	Indications and Contraindications	89	16.8	Case Example
16.3	Informed Consent	89	16.9	Postoperative Care
16.4	Instruments	89	16.10	Complications
16.5	Patient Preparation	89	16.11	Management Pearls
16.6	Patient Positioning	89		References
17	Transcribriform	95		
	<i>Ayesha Akbar Waheed and David T. Fernandes Cabral</i>			
17.1	Background	95	17.6	Patient Positioning
17.1.1	Preparatory Diagnostics	95	17.7	Technique
17.2	Indications and Contraindications	96	17.7.1	Relevant Anatomy
17.2.1	Indications	96	17.8	Postoperative Care
17.2.2	Contraindications	96	17.9	Complications
17.3	Informed Consent	96	17.10	Management Pearls
17.4	Instruments	97	17.11	Emerging Technologies
17.5	Patient Preparation	97		References
18	Transclival	103		
	<i>A. Karim Ahmed, Wataru Ishida, Nicholas R. Rowan, and Debraj Mukherjee</i>			
18.1	Background	103	18.7	Technique
18.2	Indications and Contraindications	103	18.8	Postoperative Care
18.3	Informed Consent	103	18.9	Complications
18.4	Instruments	104	18.10	Management Pearls
18.5	Patient Preparation	104		References
18.6	Patient Positioning	105		

19	Transodontoid	111		
	<i>Zachary A. Warren, Vijay A. Patel, Christopher R. Roxbury, and Sean P. Polster</i>			
19.1	Background	111	19.7	Technique
19.2	Indications and Contraindications	111	19.8	Postoperative Care
19.3	Informed Consent	111	19.9	Complications
19.4	Instruments	111	19.10	Management Pearls
19.5	Patient Preparation	111		References
19.6	Patient Positioning	111		

Part II: Endovascular Techniques

20	Transfemoral Approach for Catheter-Based Cerebral Angiography	119		
	<i>Andre Monteiro, Ryan C. Turner, Mehdi Bouslama, and Elad I. Levy</i>			
20.1	Background	119	20.5	Technique
20.2	Indications and Contraindications	119	20.6	Complications
20.3	Instruments	120	20.7	Management Pearls
20.4	Patient Positioning	120		References
21	Radial Access	127		
	<i>Brandon M. Fox, Joshua S Catapano, and Andrew F. Ducruet</i>			
21.1	Background	127	21.5	Complications
21.2	Indications and Contraindications	127	21.6	Management Pearls
21.3	Patient Positioning	127	21.7	Disclosures
21.4	Technique	127		Acknowledgments
21.4.1	Catheter Navigation and Reformation	128		References
21.4.2	Hemostasis	129		

22	Direct Carotid Artery Puncture	131		
	<i>Kunal P. Raygor, Ammad A. Baig, Wasiq Khawar, Mehdi Bouslama, Ryan C. Turner, Rosalind Lai, and Jason Davies</i>			
22.1	Background	131	22.7	Postoperative Care
22.2	Indications and Contraindications	131	22.8	Complications
22.3	Instruments	132	22.9	Management Pearls
22.4	Patient Preparation	132		Acknowledgments
22.5	Patient Positioning	132		References
22.6	Technique	132		
23	Transcarotid Artery Revascularization	137		
	<i>Nanthiya Sujjantararat, Joseph P. Antonios, Andrew B. Koo, Daniela Renedo, Ryan M. Hebert, and Charles C. Matouk</i>			
23.1	Background	137	23.5	Technique
23.2	Indications and Contraindications	138	23.5.1	Setting Up
23.3	Patient Preparation	139	23.6	Postoperative Care
23.3.1	Venous Access	139	23.6.1	Immediate Postoperative Period and In-Hospital Course
23.3.2	Transcarotid Exposure	139	23.6.2	Outpatient Follow-up
23.3.3	Insertion of the Transcarotid Sheath	141	23.7	Complications
23.3.4	Flow Reversal	142	23.7.1	Complications during Execution ...
23.3.5	Carotid Balloon Angioplasty and Stenting	142	23.7.2	Complications after Execution. ...
23.3.6	Closing	142		References
23.4	Patient Positioning	143		

Part III: Peripheral Nerve Surgery

24	Supraclavicular Brachial Plexus Exposure	149		
	<i>Kitty Y. Wu, Robert J. Spinner, and Alexander Shin</i>			
24.1	Background	149	24.4	Patient Preparation
24.2	Indications and Contraindications	149	24.5	Patient Positioning
24.3	Instruments	149	24.6	Technique

24.7	Postoperative Care	152	24.9	Management Pearls	152
24.8	Complications	152		Reference	153
25	Infraclavicular Brachial Plexus Exposure	155			
	<i>Kitty Y. Wu, Robert J. Spinner, and Alexander Shin</i>				
25.1	Background	155	25.6	Technique	155
25.2	Indications and Contraindications	155	25.7	Postoperative Care	158
25.3	Instruments	155	25.8	Complications	158
25.4	Patient Preparation	155	25.9	Management Pearls	158
25.5	Patient Positioning	155			
26	Ulnar Nerve Compression at the Elbow	161			
	<i>Brynn Alison Hathaway, Rachael M. Payne, Benjamin Harris Timmins, and Susan E. Mackinnon</i>				
26.1	Background	161	26.6	Technique	163
26.2	Indications and Contraindications	161	26.7	Postoperative Care	166
26.3	Instruments	161	26.8	Complications	166
26.4	Patient Preparation	162	26.9	Management Pearls	167
26.5	Patient Positioning	163		References	168
27	Median Nerve Decompression at the Proximal Forearm for Pronator and Anterior Interosseous Nerve Syndromes	169			
	<i>Oliver Mrowczynski, Sonia S. Majid, Neel Patel, Elias Rizk, and Kimberly Harbaugh</i>				
27.1	Background	169	27.6	Technique	170
27.2	Indications and Contraindications	169	27.7	Postoperative Care	170
27.3	Instruments	169	27.8	Complications	170
27.4	Patient Preparation	169	27.9	Management Pearls	171
27.5	Patient Positioning	170		References	171

28	Posterior Interosseous Nerve Entrapment and Decompression	173
	<i>Sonia S. Majid, Oliver Mrowczynski, Neel Patel, Elias Rizk, and Kimberly Harbaugh</i>	
28.1	Background	173
28.2	Indications and Contraindications	173
28.3	Instruments	173
28.4	Patient Preparation	173
28.5	Patient Positioning	173
28.6	Technique	173
28.7	Postoperative Care	174
28.8	Complications	174
28.9	Management Pearls	174
	References	174
29	Median Nerve Decompression at the Wrist for Carpal Tunnel Syndrome	175
	<i>Neel Patel, Oliver Mrowczynski, Sonia S. Majid, Elias Rizk, Kimberly Harbaugh</i>	
29.1	Background	175
29.2	Indications and Contraindications	175
29.3	Instruments	175
29.4	Patient Preparation	175
29.5	Patient Positioning	176
29.6	Technique	176
29.7	Postoperative Care	176
29.8	Complications	176
29.9	Management Pearls	176
	References	176
30	Guyon's Canal Decompression	179
	<i>Rachael M. Payne, Ruby L. Taylor, Benjamin Harris Timmins, and Susan E. Mackinnon</i>	
30.1	Background	179
30.2	Indications and Contraindications	179
30.3	Instruments	179
30.4	Patient Preparation	179
30.5	Patient Positioning	181
30.6	Technique	181
30.7	Postoperative Care	182
30.8	Complications	182
30.9	Management Pearls	184
	References	184
31	Tarsal Tunnel Syndrome	185
	<i>Andrew S. Jack and Line Jacques</i>	
31.1	Background	185
31.2	Indications and Contraindications	187
31.3	Patient Preparation	187
31.4	Patient Positioning	188
31.5	Technique	188

31.6	Complications.....	189	References.....	189
31.7	Management Pearls	189		
32	Common Peroneal Decompression	191		
	<i>Andrew S. Jack and Line Jacques</i>			
32.1	Background.....	191	32.5	Technique
32.2	Indications and Contraindications	193	32.6	Complications.....
32.3	Patient Preparation.....	193	32.7	Management Pearls
32.4	Patient Positioning	194		References.....
				196
Part IV: Spine Surgery				
33	Occipitocervical Fusion	201		
	<i>Rohit Prem Kumar, Andrew Legarreta, Joseph Hudson, Hansen Deng, and D. Kojo Hamilton</i>			
33.1	Background.....	201	33.7	Technique
33.2	Indications and Contraindications	201	33.8	Postoperative Care
33.3	Informed Consent	202	33.9	Complications.....
33.4	Instruments.....	202	33.10	Management Pearls
33.5	Patient Preparation.....	202	33.11	Emerging Technologies.....
33.6	Patient Positioning	203		References.....
				205
34	Atlantoaxial Instability	207		
	<i>Atul Goel, Krishna P. Nayak, and Abhidha Shah</i>			
34.1	Background.....	207	34.6	Technique
34.2	Indications and Contraindications	207	34.7	Postoperative Care
34.3	Instruments.....	207	34.8	Complications.....
34.4	Patient Preparation.....	207	34.9	Management Pearls
34.5	Patient Positioning	208		References.....
				215

35	Instrumented Fixation of the Subaxial Cervical Spine	217
	<i>Mitch Paro, Maria Jose Cavagnaro, Matthew J. McPheeters, and Jeffrey P. Mullin</i>	
35.1	Background	217
35.2	Indications and Contraindications	217
35.3	Patient Positioning	217
35.4	Technique	217
35.5	Complications	220
35.6	Management Pearls	220
35.7	Emerging Technologies	221
	References	221
36	Posterolateral (Thoracolumbar)	225
	<i>Michael J. Strong, Krishna P. Nayak, and Jacob R. Joseph</i>	
36.1	Background	225
36.2	Indications and Contraindications	225
36.3	Instruments	225
36.4	Patient Preparation	225
36.5	Patient Positioning	225
36.6	Technique	225
36.7	Postoperative Care	226
36.8	Complications	226
36.9	Management Pearls	226
	References	226
37	Transpedicular (Thoracolumbar)	227
	<i>Kaitlyn Melnick, Jonathan Munoz, and Daniel J. Hoh</i>	
37.1	Background	227
37.2	Indications and Contraindications	227
37.3	Patient Preparation	227
37.4	Patient Positioning	227
37.5	Technique	227
37.6	Complications	229
37.7	Management Pearls	229
	References	229
38	Costotransversectomy	231
	<i>Jay I. Kumar and Gregory M. Mundis, Jr</i>	
38.1	Background	231
38.2	Indications and Contraindications	231
38.3	Patient Positioning	231
38.4	Technique	231
38.5	Complications	232
38.6	Management Pearls	232

39	Osteotomies (Thoracolumbar)	233		
	<i>Stephen M. Bergin and Khoi D. Than</i>			
39.1	Background	233	39.6	Postoperative Care
39.2	Indications and Contraindications	233	39.7	Complications
39.3	Patient Preparation	233	39.8	Management Pearls
39.4	Patient Positioning	233		References
39.5	Technique	234		
40	MIS (Lumbar, Microtubular Surgery)	237		
	<i>Azeem A. Rehman, Anthony M. Alvarado, and Richard G. Fessler</i>			
40.1	Background	237	40.6	Postoperative Care
40.2	Indications and Contraindications	237	40.7	Complications
40.3	Patient Preparation	237	40.8	Management Pearls
40.4	Patient Positioning	237		References
40.5	Technique	237		
41	Open Sacroiliac Joint Fusion (Granite)	241		
	<i>Jay I. Kumar and Gregory M. Mundis, Jr</i>			
41.1	Background	241	41.6	Postoperative Care
41.2	Indications and Contraindications	241	41.7	Complications
41.3	Instruments	241	41.8	Management Pearls
41.4	Patient Positioning	241		References
41.5	Technique	241		
42	Anterior Cervical Discectomy and Fusion	245		
	<i>Ryan Sadjadi, Nora C. Kim, Mohamed Macki, and Lee A. Tan</i>			
42.1	Background	245	42.4	Patient Preparation
42.2	Indications and Contraindications	245	42.5	Patient Positioning
42.3	Instruments	245	42.6	Technique

42.6.1	Operation	246	42.8	Management Pearls	248
42.6.2	Uncinectomy	247		References.	248
42.6.3	Uncinate Process Anatomy	247			
42.6.4	Uncinectomy Operation	247			
42.6.5	Arthrodesis and Plating	247			
42.7	Complications	248			
43	Odontoid Screw	251			
	<i>Phoebe Greenwald, Bhargav Ayloo, Shailen G. Sampath, Anthony M. DiGiorgio, and Andrew K. Chan</i>				
43.1	Background	251	43.6.1	Setup and Exposure	252
43.2	Indications and Contraindications	251	43.6.2	Cannulated Screw Insertion.	253
43.3	Instruments	252	43.7	Postoperative Care	256
43.4	Patient Preparation	252	43.8	Complications	257
43.5	Patient Positioning	252	43.9	Management Pearls	257
43.6	Technique	252		References.	257
44	Anterior Lumbar Interbody Fusion	259			
	<i>Ayush Arora, Rafid Kasir, Jay Kaushik Shah, and Sigurd Berven</i>				
44.1	Background	259	44.5	Technique	262
44.2	Indications and Contraindications	259	44.6	Complications	264
44.3	Instruments	261	44.7	Management Pearls	266
44.4	Patient Positioning	261		References.	267
45	Retropleural	269			
	<i>Omar Sorour, Hannah L. Tetreault, Nitin Agarwal, and Dean Chou</i>				
45.1	Background	269	45.4	Patient Preparation	269
45.2	Indications and Contraindications	269	45.5	Patient Positioning	269
45.2.1	Indications	269	45.6	Technique	269
45.2.2	Contraindications	269	45.6.1	Exposure	269
45.3	Instruments	269	45.6.2	Closure	271

45.7	Postoperative Care	271	45.9	Management Pearls	271
45.8	Complications	271		References	271
46	Oblique Lumbar Interbody Fusion	273			
	<i>Joseph R. Linzey, Hannah L. Tetreault, Ayobami Ward, Paul Park, and Neel Anand</i>				
46.1	Background	273	46.5	Patient Positioning	273
46.2	Indications and Contraindications	273	46.6	Technique	274
46.2.1	Indications	273	46.7	Postoperative Care	274
46.2.2	Contraindications	273	46.8	Complications	274
46.3	Instruments	273	46.9	Management Pearls	274
46.4	Patient Preparation	273		References	274
47	Transposas (Lateral Spine)	277			
	<i>Katriel E. Lee, Nima Alan, Luke K. O'Neill, Krishna P. Nayak, and Juan S. Uribe</i>				
47.1	Background	277	47.7.3	Discectomy	281
47.2	Indications and Contraindications	277	47.7.4	Interbody Graft Placement	281
47.3	Informed Consent	277	47.7.5	Closure	281
47.4	Instruments	277	47.8	Postoperative Care	281
47.5	Patient Preparation	277	47.9	Complications	281
47.6	Patient Positioning	278	47.10	Management Pearls	281
47.7	Technique	278	47.11	Disclosures	283
47.7.1	Exposure	278		Acknowledgments	283
47.7.2	Docking of the Tubular Retractor and Dilation	280		References	283
48	Percutaneous Sacroiliac Joint Fusion: Indications and Technique	285			
	<i>Erin Thomson and Peter Carlos Gerszten</i>				
48.1	Background	285	48.4	Technique	286
48.2	Indications and Contraindications	286	48.5	Postoperative Care	289
48.3	Patient Positioning	286	48.6	Complications	289

48.7	Management Pearls	289	References	289
48.8	Emerging Technologies	289		
49	Endoscopic Spine Approaches	291		
	<i>Yuping Derek Li, Andrew T. Coxon, Daniel M. Hafez, and John Ogunlade</i>			
49.1	Background	291	49.6	Technique
49.2	Indications and Contraindications	291	49.7	Postoperative Care
49.3	Instruments	291	49.8	Complications
49.4	Patient Preparation	291	49.9	Management Pearls
49.5	Patient Positioning	291	References	295
50	Interlaminar	297		
	<i>Harmon S. Khela, Hasan S. Ahmad, Yohannes Ghenbot, and Jang Won Yoon</i>			
50.1	Background	297	50.6	Technique
50.2	Indications and Contraindications	297	50.7	Postoperative Care
50.3	Instruments	298	50.8	Complications
50.4	Patient Preparation	298	50.9	Management Pearls
50.5	Patient Positioning	298	References	299
Part V: Stereotactic and Functional Neurosurgery				
51	Frame-Based Stereotactic Radiosurgery	303		
	<i>Prateek Agarwal, Anthony J. Schulien, Joseph Hudson, Ajay Niranjana, and L. Dade Lunsford</i>			
51.1	Background	303	51.7	Technique
51.2	Indications and Contraindications	303	51.8	Postoperative Care
51.3	Informed Consent	303	51.9	Complications
51.4	Instruments	303	51.10	Management Pearls
51.5	Patient Preparation	304	51.11	Emerging Technologies
51.6	Patient Positioning	304	References	306

52	Frameless Gamma Knife Stereotactic Radiosurgery	307		
	<i>Alexandros Bouras, Daniel Rivera, Sakibul Huq, Greg Bednarz, Serah Choi, John C. Flickinger Sr, L. Dade Lunsford, Ajay Niranjana, and Constantinos G. Hadjipanayis</i>			
52.1	Background	307	52.5	Patient Positioning 309
52.2	Indications and Contraindications	308	52.6	Technique 309
52.2.1	Indications.....	308	52.7	Postoperative Care 310
52.2.2	Contraindications.....	308	52.8	Complications 310
52.3	Instruments	309	52.9	Management Pearls 311
52.4	Patient Preparation	309		References 312
53	Spinal Stereotactic Radiosurgery	313		
	<i>Ria Mulherkar, Zaid Siddiqui, John C. Flickinger Sr, and Peter Carlos Gerszten</i>			
53.1	Background	313	53.5	Normal Tissue Dose Constraints in Spine SRS 315
53.2	Indications and Contraindications	313	53.6	Complications 315
53.3	Instruments	313	53.7	Management Pearls 318
53.4	Technique	313		References 318
54	Robotic Fundamentals (Functional)	321		
	<i>Matthew J. Recker, Steven Blake Housley, and Jonathan Riley</i>			
54.1	Background	321	54.6	Postoperative Care 323
54.2	Indications and Contraindications	321	54.7	Complications 323
54.3	Patient Preparation	321	54.8	Management Pearls 324
54.4	Patient Positioning	321		References 324
54.5	Technique	322		
55	Stereoencephalography Using a Stereotactic Cranial Robotic Platform	325		
	<i>Ali Reza Tafreshi and Philip S. Lee</i>			
55.1	Background	325	55.2.1	Indications..... 325
			55.2.2	Contraindications..... 325
55.2	Indications and Contraindications	325	55.3	Informed Consent 325

55.4	Instruments	325	55.7.5	Closure	331
55.5	Patient Preparation	326	55.8	Postoperative Care	331
55.6	Patient Positioning	326	55.9	Complications	331
55.7	Technique	327	55.9.1	Intraoperative	331
55.7.1	Incision	327	55.9.2	Postoperative	331
55.7.2	Drilling	328	55.9.3	Special Risks	331
55.7.3	Anchor Bolt Placement	329	55.10	Management Pearls	331
55.7.4	Lead Placement and Electrophysiological Confirmation	330	References		331
56	ROSA-Assisted Deep Brain Stimulation Surgery in Awake Patient ...	333			
	<i>Khaled Taghlabi, Sibi Rajendran, Rijul Nanda, Isuru Somawardana, Jesus G. Cruz-Garza, and Amir H. Faraji</i>				
56.1	Background	333	56.7	Postoperative Care	335
56.2	Indications and Contraindications	333	56.8	Complications	335
56.3	Instruments	333	56.9	Management Pearls	336
56.4	Patient Preparation	334	56.10	Emerging Technologies	336
56.5	Patient Positioning	334	References		337
56.6	Technique	334			
57	Stereotactic Thermal Ablation for Temporal Lobe Epilepsy	339			
	<i>Ryan T. Cleary, Salil Bhole, and Jon T. Willie</i>				
57.1	Background	339	57.7	Technique	344
57.2	Indications and Contraindications	341	57.8	Postoperative Care	348
57.3	Informed Consent	342	57.9	Complications	348
57.4	Instruments	344	57.10	Management Pearls	348
57.5	Patient Preparation	344	57.11	Emerging Technologies	349
57.6	Patient Positioning	344	References		349
