

FOREWORD v
ABBREVIATIONS vi

Part 1 Background 1

- 1 Definitions of Mountain Altitude 3
- 2 General Data, Relevance of the Problem 6

Part 2 Physiology of the Cardiovascular System at High Altitude 17

- 3 Cold Environment and the Heart 19
- 4 Altitude, Atmospheric Pressure and Physiopathological Phenomena on the Cardiovascular System 27
- Everest without bottled Oxygen. A 'fair' ascent, for exceptional persons 42
- 5 Sympathetic Activation at Altitude and the Cardiovascular System 46
- 6 The Heart at High Altitude 54
- High-altitude Pulmonary Oedema (HAPE), a case report from the past 67
- 7 Peripheral Vasoregulation 73
- 8 Effects of Exposure to Mountain Altitudes on Haematocrit and Consequences on the Heart and Circulation 78
- A curious phenomenon in the high Alps: dehydration and 'evaporation' 85

Part 3 Travelling to High Altitude with Pre-existing Cardiac Diseases 89

- 9 Magnitude of Cardiovascular Risk Associated with Ascent to Altitude 91
- 10 Patients with Known Ischaemic Heart Disease and Physical Activity at Altitude 103
- 11 Mountain Altitudes and Patients with Heart Failure 115
- 12 People with High Blood Pressure Climbing to Altitude 122

Part 4 Other Cardiovascular Aspects of the Exposure to High Altitude 131

- 13 The Cardiovascular System of Pregnant Ladies at Altitude 133
- 14 Newborns and Children at High Altitude 141
- 15 Elderly Persons at Altitude 150
- Two Popes and a President 152
- 16 Ascent to High Altitudes and Risk of Arrhythmias 157
- 17 Diabetes Mellitus and the Heart at High Altitude 163
- Going High with diabetes mellitus. Useful tips from the diary of a mountaineer with type 1 diabetes 171
- 18 Prevention of Diseases related to High Altitude in Patients with Other Forms of Heart Disease 179
- 'A borrowed heart' at the top of Matterhorn, not to say of the other mountains 191
- 19 Pre-exposure Screening for High Altitudes 198
- 20 Prevention of Cardiovascular Diseases Through Activities at Altitude 214
- 21 Use of Drugs Acting on the Cardiovascular System at Altitude 227
- 22 Special Aspects of Basic Life Support at Altitude 245

APPENDIX 1 Classes of Recommendations and Levels of Evidence 257

APPENDIX 2 Self-evaluation (Available in e-book) 1

INDEX 259
