

PART 1. Skin examination

1. Medical history and physical examination
2. Basic skin lesions

Bibliography

PART 2. Infections and infestations

3. Obtaining samples for microbiological study

Section I. Bacterial Infections

4. Cellulitis and erysipelas
5. Erysipeloid
6. Erythrasma
7. Folliculitis
8. Impetigo
9. Acute paronychia
10. Plantar keratolysis
11. Trichomycosis
12. Swimming pool granuloma

Section II. Fungal infections

13. Candidiasis
14. Sporotrichosis
15. Pityriasis versicolor
16. Ringworm (or dermatophytosis)

Section III. Viral infections

17. Oral herpes simplex
18. Herpes zoster
19. Molluscum contagiosum
20. Non-genital warts

Section IV. Protozoan Infections

21. Cutaneous leishmaniasis

Section V. Infestations

22. Cutaneous larva migrans

23. Pediculosis

24. Scabies

Bibliography

PART 3. Sexually Transmitted Diseases

25. Condyloma acuminata (genital warts)

26. Genital herpes

27. Syphilis and other causes of genital ulcers

28. Urethritis

29. Vaginitis

Bibliography

PART 4. Premalignant and malignant lesions

30. Erythroplasia

31. Leukoplakia

32. Atypical nevus

33. Actinic keratosis

34. Basal cell carcinoma

35. Squamous cell carcinoma

36. Melanoma

37. Basic tumor dermatoscopy

38. Skin photoprotection

39. Obtaining samples for histological study

Bibliography

PART 5. Erythematous squamous diseases

40. Psoriasis

41. Eczema

Bibliography

PART 6. Diseases of the sebaceous glands and hair

42. Acne

43. Perioral dermatitis

44. Rosacea

45. Alopecia areata

46. Hirsutism

47. Pseudofolliculitis

Bibliography

PART 7. Lesions of uncertain etiology

48. Nodular chondrodermatitis of the helix

49. Localized annular granuloma

50. Pyogenic granuloma

51. Hidradenitis suppurativa

52. Localized primary hyperhidrosis

53. Chronic lichen simplex (neurodermatitis)

54. Lichen planus

55. Pityriasis rosea Gibert

56. Chronic pruritus (without skin lesions)

57. Keratosis pilaris

58. Urticaria

59. Some common benign lesions

Bibliography

PART 8. Therapeutics in dermatology

60. Topical drugs

61. Oral drugs

Bibliography
